first I was like this is all professional Is she forgetting where she is You got you were like get it together get it together right now and then she dropped and like every time I'd be like Michelle uh we're on air She drop another F mom and I'm like dude like I almost took their phone just chucked it out the window I was like you did it because like you're addicted to that thing I was like I was like if she doesn't I was like put your phone down You're like I can't I'm like what do you mean You can't what do you mean I'm like put it down stop looking at it She's like I can't mom I'm like what is happening I was like you know honestly I was just I was ready to pack it up I was like you know what We kicked off Facebook Amazon They're done with us Michelle's dropped too many young moms They done they were done with Red Table Talk So I felt like that is done Stringer passed Uh Everyone's just the world is upside down I don't even know Michelle's cursing That heads are And so anyway I was like I was very flabbergasted And then as you see to the uh what is that to my my left Your right Yes this prank thing Thank you Andy Waldman That's so funny You know he came shows up behind me I'm like oh yeah this is a prank Yeah How did you feel when you when you found that out I needed to come down No I did say I like to be pranked You did not that long ago too whatever may have you That prank had me It was a little too early for the play like up in uh up and you were feeling too much Well you know with us we got a lot going on behind the scenes So I was very worried about a lot of things with the F bombs I will say So you know I come in a little earlier than you Well today it took extra extra long to get in but I come in earlier than you and I stay a little later than you Um And yesterday yesterday and he was like let's uh let's pray Kyle and I was just like oh this has been in the works since yesterday I've been I've been good at keeping it a secret home Yeah Yeah Yeah So we were sitting on the couch I was sitting on the couch and Andy was like is this what do you got And I was like I don't know And then I was like oh I got a curse We came up with that together It's like you got to do it He was like oh he said on air all bets are off Yeah because he said I should be like Roxy I should like throw a couple of F bombs I was like basically we got to start our own network now We gotta we gotta build our own We are we are doing that We are building our own network I was like I hope that man has no backing because you're just dropping up right We gotta go we gotta go It doesn't yet And that's why I need your help to help Like you were like just talk I was like what do you mean just talk You were like you dropping that and you were like I gotta look at this so bad about what the replays coming We'll get it cut you guys

tune in tomorrow also You'll see the actual prank How about that You gotta wait you have to tune in and stay loyal Moving on I so I sat down here this morning and I and and he goes uh you ready to do it And I was like I don't know if I can do it He's like you're an actor He's like you're a good actor like just do like you can do it And I was like I don't know if I can cuss I never cuss like I I actually asked you to stop like to take it down when you like say FF that and yet you're like uh you're from New Jersey doing that Yeah Yeah Yeah Yeah So I need you to know right now My head is my wheels are turning So are you thinking of other things that I've done that are like I'm coming up with my own right now No Oh boy And so the only way to really prank someone is to bring in people they've never seen before Well if I see somebody there's only three of us If I see somebody that I've never seen before I got that on tape If you see you're gonna call you're gonna see the prank coming Yeah of course Because if you have like a person I've never seen before that's most likely gonna be a P that's a P Yeah Awesome You just gave it away Ok Oh I guess you guys are gonna have to collaborate Oh no no no He's getting pranked also You're both getting pranked if I I'm gonna create this space on my phone and then so you're just gonna have a GoPro on your head It's not gonna be telling at all when I got my phone on top of my head and I'm filming your reactions Oh I love you guys This is so fun so much fun love pranking love pranking It did take me a minute to come back down from that prank though That was a good one and we did good That was a good one I you know I think that was a better I I have to be honest I think this is better than the lottery one I was the one because you were super calm with the lottery one You know why I was calm with the lottery one because the night before I had again thought we won a billion dollars That was it it was a week before I think it was a week before whatever may have You may have you I don't know why I'm saying that whatever may have you it does it whatever whatever whatever Oh my gosh there's so much going on in the news Can we start with that Yes we can start with that We can start with that I don't even know what kids are gonna do when they skip school nowadays You have don't know Does she even have reruns Does Jerry Springer have reruns I mean this man has 30 years of has three decades of r he used to be That's right I remember that and he transitioned into like this like rated r raunchy style and let's not forget he was the mayor of Cincinnati The fact that you know all this is hilarious Um so this is what he said The only good thing about the show it was the first time we really saw regular people on television I'm sorry were those regular people No You know what

are those regular people They are regular people and he's what's gonna come out later I mean we're gonna find out that most of this stuff was staged You know what I mean But but he's right This is the most American thing I've seen all day We're all alike We're not better than these people Jerry I'm here to tell you The only reason why I watch is to feel better about myself because I have nothing like your guests nothing But you said we're we're not better than these people not better but we're definitely not a like we got more This is him talking is that it was the first time we really saw regular people on television when people criticize the show If you're honest about it they're not criticizing what they're talking about because celebrities will do the exact same thing Celebrities will go on the late night shows they will talk about who they've slept with what their life has been Like what drugs they've been using what misbehavior they've had And we can't buy their albums quickly enough We can't go to the movies quickly enough Why Because if you're rich if you're famous if you're good looking we give you a pass the things that how many times do people take these talk shows and they say oh these people are trash No Maybe they didn't have the same luck in the gene pool of parents Maybe they didn't weren't born with the same brain They didn't get the same education But we're all alike We're not better than these people We just dress better Only good thing about the show or at least the part that I thought is that it was the first time we really saw regular people on television when people criticize the show If you're honest about it they're not criticizing what they're talking about because celebrities will do the exact same thing So these people are coming on television when they choose to purely voluntary and they talk about what's going on in their life News never does that What news does news does the same thing about telling about people's lives but they never ask permission A newscast who never says you know what if this story makes you feel bad If this story hurts your family If this story ruins your reputation we won't run it No news just plows right through At least on these talk shows it's all voluntary You choose to come on the show you decide what you want to be talked about And I find that much more democratic than what we do Normally in the media these people to the man spray of Jerry he's talking to the people that do what he's saying is wrong Which is very interesting Like he's talking to the anchors that do perpetuate the fallacies that he's speaking of interesting stuff Yes Yes All over his face too Yes Yes And um let's just pull this up real quick Um I think like yes And but that's their job is to get the news get the latest story It's not I think his point was is that it's voluntary Like like for instance news is very

prying Like let's say you like let's when you become enormously famous I am enormously famous I am more enormously my hand When if if this is hypothetical if you had some story you didn't want out there the news will just run it anyway Like if you it's a private thing to you and the news finds out or some reporter finds out they will plow through your entire private life and just post it on on front page of every news news paper Whereas in Jerry it's the very opposite It's a voluntary story that's being chosen to be spoken about You just just rolled over in his grave I don't know what you talk about Sandoval's relationship to keep you engaged No I no no I yawned I yawned because I didn't sleep No pranks pranks stay engaged I am engaged You're yawning But it's not because I'm not engaged I you you right now Hi Just a dead guy's legacy No no no I'm not to him Listen I'm I'm totally with you every day of skipping school that much better Uh I'm with you I'm with you Um I was not allowed to watch Jerry uh because it was not it was not appropriate because of what they talked about Who's the father of this baby Oh I thought that was Jerry Jerry did not the father that's Maury And he's still doing that He's doing back flips because they're child I'm pretty sure Maury is not on the the black guy The black bald guy did the exact same thing that Mari does Him and Maie do the same thing Now Jerry did something very more How should I say real You know I actually was on Jerry Springer's latest show called Baggage I'm gonna see if I can pull it up and Jerry would have like real issues Not just like oh I can't tell who the baby daddy is because I love too many people that's like consistently Maurie and Montel Jerry was like I got a dominatrix boyfriend sleeping with my mother like it was just like next level with Jerry Yeah Yeah Yeah Yeah And the fights remember Steve Jerry's show was so popular This show I did not watch it Bouncer had his own show Spinoff that you remember that the big bald white guy he had his own spin off He was the bouncer All he did was pick people up and throw them off stage He it was so popular Had his own show Oh my God it's too good It's too good Um our buddy um our buddy Gregory Martin just um messaged us He said he appreciate us both Um This is uh us finding out that they won Um or not Oh they have won and they win but they might win He said he this is what Gregory said Thank you so very much Appreciate you both feeling very honored and grateful for us The one of you um or maybe us watching us But that song alone should win an end Me honestly Right It's so good But remember when he was like we're not the actual person Let me know Wait wait an actual black person And I think I think they might be in their na na na na the blue power ranger the blue power

ranger that go go We were like they look at us both like what are you 85 We both you but we both we both have uh you and I both have so many inside jokes because of this show which is so fun and Andy too like and Natasha wherever she is now the audience up once again congratulations to they've been nominated for an actual Emmy No they they were nominated They have been they've been nominated and won many Emmys But they were Digital Emmys This is now in in broadcast television 26 digital Em don't they They have 26 digital Emmys Yes Did I get the number right Uh nominated 53 times 52 53 times and they're on they're on the way to their eighth season which they've shot already Congratulations to the Bay Gregor Martin Yeah Yeah Yeah Yeah Oh yeah Your Brandon You love Brandon He's a snowboarder How could I not love him Yeah Yeah You love you love about the he was the po po po po po He knows about the pop Um What else is going on in back up to the mountain in like two weeks You are Yeah I'm gonna take up go pro so we can get some real footage of me dropping off I want to go go you know Oh yeah I can see my guy He's not my guy I mean we're probably broadcasting on Big Bear TV right now No Yes Our new friend Ted Oh Ted from Roku Ted Big Bear TV The guy who wants to get us on a big bear Yes Yes Yes We're probably on his network right now So thanks Ted Thanks for having us We love we love being there Um This has so many names to memorize because his name just added my brain yesterday It takes me a second Ok Uh Yes it does Uh This is crazy Uh Couple finds 63 year old mcdonald's fries inside wall wall renovating bathroom when Grace and Rob Jones bought their house in 2015 They had no idea It came with a side of fries Look at that They you know Andy look the fries were intact Why is it so gross Because mcdonald's doesn't make real food which is why this was this was in the sixties mcdonald's I don't think there's anything worse than discovering that their food doesn't biodegrade for 50 years Uh maybe more Now what I used to work in construction so I can tell you why this whole thing happened Some worker definitely not The head guy had his lunch and was eating but then put it where they're building and they built over his lunch and he just couldn't get it back You wanna hear some of the comments Is that what they're all saying OK So um here we go Uh So well growing up we ate mcdonald's food regularly So I'm going to look amazing when my body is exhumed food to preserve it Lol that's good That's good Uh Somebody said I think it would be fun if they went back to old design for a munch Meaning like the best about the fact that they're not rodents were like no I'm good Actually that's the best point Yeah Literally somebody says I

know this is supposed to have the opposite effect but now I'm craving Mickey D fries Do you have Mickey D fries recently Didn't you I thought you told me that Imagine what those preservatives are doing to our bodies kind of sucks that the rats and roaches didn't eat them That's another response Just throw them in the air fryer to crisp them up real quick America we got to do better We got to do better America 63 years ago It was pretty much all natural no artificial ingredients like today Jimmy you're lying But like ok so then people respond you say that but the chips are still alive If there weren't any preservatives would there not be mold Wouldn't there be mold Wouldn't they decompose Because yeah because they're made out of potatoes Jimmy That's how it works Yeah maybe he says begin the wall preserve them Mcdonald's doesn't mold because of its 86 years old mcdonald's doesn't help mold because of its insanely high salt content So if it still had the salt content 60 years years ago then it would still preserve like mcdonald's today I don't think it's much about preservatives Also to the OG commentator The wall likely didn't preserve them if it did The bag wouldn't be as messed up as I don't think Um And then somebody said I thought it was really funny Somebody said I think the mom was in the bathroom and like hit her food hilarious you know she was like taking care of the kids and then she like snuck in for it But look at that so gross I mean look they're still intact they're still there I told you about it's not food it's edible but it's not food I told you about my experience with mcdonald's French fries You were invited to my birthday party two years ago You didn't show you said you would and you didn't show I did not I think you were just mad at me for some reason You really just didn't want to go I was like come to my birth Well we we we weren't on and yeah we were at yeah we weren't I was like Kyle I'm having a party at my house for my birth No I hang out with you and your boyfriend I'll be there No I wasn't dating him at the time No it wasn't It was July 2021 It was right before Yeah So you still had another chance you know technically if you think about That's interesting That's funny to think about But July was actually the the month of 2021 It was the month I was moving into the townhouse I saved a life I had a lot going on in July told me that you were gonna come I was in a bad space Yeah I literally saved someone from jumping off a bridge and I could not get my stuff together for like three or four months You couldn't you couldn't go to a party I couldn't stop crying Oh like twice a week Oh I love you for like hours It was saying like well you know you were invited So at my birthday party I went to go get mcdonald's afterwards with Adam Fried and I got French fries and my whole

body You got French fries with Adam Fried Oh yeah I did I did get franchise with Adam Fried with Adam Fried Yes he's doing Adam I'm gonna come to see you this weekend You can count on me I will be there Uh Kyle May or May not but we'll uh don't even bring it up We have uh no we don't we don't have to um ID up there What's going on 000 Yeah Yeah Yeah So this is this is um this is unfortunate Um my family would not be accepted or feel comfortable there And so that's one of the reasons why I don't live there Um uh D Wade um on the on why he moved his family out of Florida So know his family is the most racist experiences I've ever had but it's not just not just about the racial experiences but about the LGBT Q experience So it's not very accept his daughter and his son They're both both Yeah Yeah I mean his his daughter his daughter went well his son is now a daughter right And his daughter is now a son I think so Yeah It's a lot it's it's a lot It's a lot Yeah I don't know You know honestly to be truthful I don't know if I could handle it I think it would be too much emotional distress You know what Shot to Dwyane Wade Because that is a I don't know if it's distress or not I mean his parenting styles are seem to be working His Children seem to be happy Yeah he seems to be very protective of his family I think that's the criteria we need Of course But don't you think like I mean if you I don't know I think it just if your little kid came up to you and said I they're like no they're like no they're little li this is little this is little that's a little hold on time out Yeah that little undeveloped human has made a decision to change its gender Yes No Yes No Yes No Yes That that child is not even old enough to eat its own food Why can it change its own gender This is his other son Well teach his own his own Yeah No no no For the the son Uh I think the son seems old enough Seems about like 15 16 I think this is right Uh That's another reason why I don't live in that state We father to 15 year old daughter Zia who came out as transgender in 2020 So a lot of people who don't know that I have to make decisions for my family and just personal individual decisions maybe it is just her but I think it's I think that baby is too young I think I know I know it's a baby but I think I think it could be wrong Maybe just read it wrong Yeah Baby I I gonna dive in more That's a baby Um yeah I'll dive in more That's not a female or a male You're a baby Yeah Yeah Ok Ay Jones Uh just chilling by the pool Yeah Yeah No we didn't go to corner at all No I know we haven't gotten there yet We'll get there We'll get there Don't rush slow What is it Don't rush So what is it What's the song No no no not that No no not that not that it's like don't rush Slow crush Don't rush Ok I'm sure if I found it you would Um this is interesting Uh Nick and Vanessa she are to keep their love

as blind co host roles despite petition exclusive So a petition for apparently a lot of the cast members feel like they are not fans a lot of the fans were not fans of of them and they're yeah of them being on the show Um but they are keeping their jobs and um that is it a lot of people are saying they're super super nice Yeah Yeah Moving moving right along moving right along This is the next one from Good Morning America Uh this is a new lab analysis shows that Melatonin Gummies may not contain what they claim like have you read the back of Melatonin gum sugar It's basically a place whatever mono aides and then at the end it says Melatonin mind you you could find Melatonin in much more pure forms than a pill What can you really good at this What can we find um Melatonin in Really I think um bananas have good Melatonin I think you might be right about that I I think I am right about that Um Moving right along Ok So uh this is Glenn Powell I don't know if you know who Glenn Powell is and he's an actor He was in Scream Scream Queens um on Fox Um and he's been in a couple of movies He kind of gives that look you know he kind of gives like a I've come from money look doesn't any of that look the white privilege look Yes Yeah Yeah Yeah Look at that Ok So um his girlfriend Gigi Parris right Follows him on Instagram and says on to the next look Here she goes know your worth and on to the next apparently look look look she just she just looks back and goes bye Uh uh uh OK so this is what's going on This is um an actress from um euphoria Apparently her and Glenn are co stars and he came out and said like he likes to call her a certain name and she likes to call him a certain name And so they broke up because of that I'm assuming there was some other stuff But if you know you know we and you and I work really really close together like I call you But I would never like if I was in a relationship like when I was like I never ever ever ever said things that were disrespectful like in in the relationship like I honored the relationship and then after we you know when our our way I said I said my piece but I was always very respectful to him Um And yeah I wouldn't I wasn't like posting photos of you and me being like I love when Kai calls me m you know like that's just so rude It's not respectful even yourself not only like the other person Uh I think these celebrities are forgetting like it's cool to you know get multiple dates verbalize how many people are attracted to you But at the same time you're also you are exemplifying how bad you are at structuring relationships for yourself Yeah it's very tacky It looks like you can't handle real love Yeah It just you sit next to someone for three months you forget about your five year relationship Like come on Yeah here we go Look at this But I mean like this

is him and his girlfriend on the left This is him and his co star on the right when the show gets canceled you still gonna like her the same Yeah Um yeah Glen Powell and Gigi Paris actually broke up weeks before rumors about his relationship with co star Cindy Sweeney took the internet by storm A source tells us link in our bio for what we know I just look I mean look I gotta be honest They look like a couple there I don't know if these two look like they like a couple that might be the end of the relationship You know like this is the beginning honeymoon phase and this is the end I know everything about your face Yeah like but there's still no friend gap no friend gap And definitely there's a little gap where that little that little no but the body language look she's more turned towards him than he is to her and then they're both turned into each other Yeah How many photos of us on the Red Car show I think he's more turned into his ex than he is to the current girl No Look at look at his hips look at his hips No no no Look at that We're body experts here Have a good day now I don't know man Body language is 60% of all language Is it So what does my body language say to you It says you're checking your hair for some reason You feel insecure about something Well yeah because I haven't been able to like get it done for a while So yeah she started thinking about it just now Just now When you first started on the show your legs would be like bam It was like although I do like these chairs better than the orange Wait what I've grown to love these chairs Really nice arm rest I get a nice nice thing now because I doing this a lot now you know more It's fresh it's nice Can we get the corner Yeah Yeah Yeah Yeah Yeah we care about these people No Yes you do You care You're in the media you care It's butter jam It's it's more entertaining if I don't care you know but I still talk about them It's not entertaining It was it's entertaining if you don't care Um I just got a couple more and we'll get to corner shortly Um this is cool Uh Taylor Swift now joins Miley Cyrus as the only female artist in history with 85 million Spotify monthly listeners 85 million like Beyonce has definitely beat this She hasn't apparently Beyonce Oh it's just for me personally because everyone's Queen Bay Queen Bay Queen Bay I never hear about Miley Cyrus Taylor Swift I hear about Miley I hear about on like singles Like her singles do very well Right But like Taylor and Beyonce have been like the the two like queens of of female pop Yeah Yeah Yeah Um I I hear you I hear you I've got one more Um this is crazy to know Uh I couldn't deal with it I said this is not gonna work guys I screamed at them get rid of them I can't work like this is John Stamos as Uncle Jesse wanted to get uh the the twins fired Why is it coming out now Like I mean honestly this is the

only time the only time it could have come out it can't be taped it was 30 years ago It can't be taped anymore True He said this about 20 years ago though That would have his image probably Yeah I think he got to a point where he can say whatever these girls have kids Now they do I mean they could Yeah Yeah of course Now this is these are the two sisters of Elizabeth who just came out with a special on Oh yeah I wanna watch that She's a really good uh actress Uh I looked into it actually uh when I was driving here So apparently it's about it's like a retrospective or hindsight kind of a movie structure Like uh I think she like it's like a murder mystery but you're not sure who did it Like her husband or the guy that she cheated with You're not sure like who did it And so like it's just like a play like a play out I think she's the one that passed I'm not sure But I think that's how it goes and now it's like a murder mystery Trying to figure out who did it You didn't wanna watch it I can get that Ok All right You can get into it now Um let's yeah let's pop Corner Oh my gosh you didn't send that much Kai Um there we go Let's see what's going on here Well just a little quick sports news Um I like to talk about sports and not just male sports all sports Uh shout out to LSU They won the uh NCAA women's college basketball tournament uh of March Madness Now these two are the top two females in college basketball right now Lindsay Vonn or is it Lindsay or Lily I think it's Lily Haley Van Lie Thank you Uh And on the right that's on the left that's the one with the braids And then on the right is Angel and she just she actually won and there was a rival between those two huge rival because they're both superstars But uh apparently uh Van Li is like you know I'm leaving my school I'm coming to LSU and I'm gonna play with you guys which I don't think has ever been done before Usually players will like students will stay in their school and just come back come back again come back again She was like forget that she got she got one taste of that team during the March Madness tournament She was like uh this seems better I'm gonna join it I think that's smart I think she she's doing the right thing for her career Get a couple you know NCAA rings before you go to the W NBA Uh but Van Li number 11 she lost the tournament but she's the record setter Look at her look at her she puts up absolute numbers absolute numbers I I just don't think she had a good enough team to actually beat LSU because LSU just has more players but she's probably the best player in the uh women's college Do you still have daughters that play basketball Uh depending Yeah I mean I'm the shortest one on my dad's side You're pretty tall I'm 61 My dad's 63 and he's the shortest of all his brothers Your 630 I thought you guys were the same height

for some reason No he's 63 He's still 63 and his brother 67 and his other brother 66 Yeah So hopefully those that genetic cool may like hit my daughters Who knows But my mom's 53 So she may be a hobbit Who knows what's going on here guy Oh can we get the audio on this Actually stupid Most of the debates you see on television are they're completely irrelevant They mean nothing in five years We won't even remember that We had them trust me as someone who's participated kind and decent people people who really care about what's true and a bunch of hilarious people Also a lot of those it's got to be the majority of the population even now So that's heartening The other thing you notice when you take a little time off is how unbelievably stupid most of the debates you see on television are they're completely irrelevant They mean nothing in five years We won't even remember that we have them trust me as someone who's participated and yet at the same time and this is the amazing thing the undeniably big topics the ones that will define our future get virtually no discussion at all War civil liberties emerging science demographic change corporate power natural resources When was the last time you heard a legitimate debate about any of those issues It's been a long time debates like that are not permitted in American media both political parties and their donors have reached consensus on what benefits them and they actively collude to shut down any conversation about it Suddenly the United States looks very much like a one party state So I what I find so interesting is that Tucker has made all of his money and notoriety from exactly what he's complaining about right now Granted I'm thankful that he's like whistle blowing and you know I may not be here in a week for talking about it Who knows But he 100% made a living and a profit off of exactly what he's complaining about right now So what's really personally I think what's really happening here is that you see that there is a conglomerate that is against the actual US public public But when someone gets ousted then they whistle blow on that conglomerate like they were never part of it in the first place and they expect you to take them in as a common person Like they haven't been perpetuating values that have been destroying your life for the last two decades Uh That's all I gotta say We're gonna take a minute we are gonna take a minute Welcome to the show Tucker Carlson Carl Carlson Carlton I'll tell you I'll tell you the address to the studio You come in give us another monologue I love it and this is how you can follow us Tucker Um You can follow us at live on Instagram I go underscore Day live on tiktok We're also on youtube Facebook and all the socials You can also personally email me Tucker Um and I will forward your

email to Kyle um Michelle at Good Day live TV dot com for more information and we'd love to have you on the show you know and what he's going on about uh is just the fact that just like our education we're not talking about the real topics And to be honest personally I feel like it's just to make people cattle like we went to school and were taught how to earn money We weren't taught why or what money is right And so it's like chase this carrot What's the carrot Don't worry about that We're just gonna we're gonna teach you how to chase it Don't worry about what it's made of Don't worry why it's there Don't even worry why you need it Just chase it I'm starting to get real I'm gonna get real real rebellious in here Don't get me started I'm gonna I'm not we're gonna be on zeitgeist dot com in about two more minutes on You've never watched the Zeitgeist What's Zeitgeist You serious Yeah I'm serious You've never seen Zeitgeist What You've never watched zeitgeist dot com Why would he have you you can't tell tell the kids at home Ok Tell the kids at home what Zeitgeist is No Honestly I think I literally I think it's against the law to promote zeitgeist So I can't what is zeitgeist It's just it's just a website you can check it out for yourself I'm pretty sure I can't even say that Is it all conspiracy theories anyway Ok So funny Oh I don't know what this is Oh you left you left my corner Why Because that was all you had k look 12 we did that yesterday You had two for Kyle's corner today I thought I could have sent more Maybe you sent some Mm I don't know No I don't see it But let's see Let's see what what what's going on here Ok How do they feel if you're sitting on uh this is like just uh being kind costs nothing Oh look at that He's holding her That's so sweet Oh look this oh is it not cute or what Don't you want to cry Look at this Oh he had no shirt on Oh yeah This one that catch catch the cat Oh my God Why is there a cat at the game Yeah Yeah it was uh in the bleachers Why was there Oh my God baby And they catch us and the whole stadium cheers Isn't that awesome This is kindness costs nothing So I don't know if they're gonna show it but uh I don't know what this mother was thinking but she was on the phone with a baby in a stroller and pushed the stroller into a train like no into the train into the into the not into the front of it But so they could ride it She pushes it in and then the doors close like she pushes the baby into the train and then I guess the person on the phone said something and makes her do it like a 1 80 She turns around and the doors closed Take the baby off the mothers out Now guess what happens next Some guy just completely drunk drinking beer with a beer in his hand on the train sees this lone baby and just starts like rocking it to sleep while he's drinking beer And then like you see him like take it like

off the train sits at the at the train station and basically passes out with the baby to keep it safe and the mother shows up and yeah thanks to the guy and all that And again it's just a clear example Kindness does take nothing I can You know when you were talking I was listening to everything you were saying But at the same time I was imagining what you would do if your baby was not next to you Like I would jump on top of the train I know II I actually saw you at the best from your life or dawn and just being like I'm on that train What about what about your wife You gotta hold on hold on You know it's gonna be a doozy You're gonna be a great dad one day You'll be a great dad one day for sure Oh my gosh Well let's back up Like if my wife left my baby on the train when I wasn't there Oh wait I guess that would be the end of the relationship Can you wait What You know You know like there's no excuse Oh wow Um here's some more good news What do we what do we have here It's good news We're in the middle of um he kept telling her no So she didn't uh she did it anyway without him knowing what um we're gonna find out here we go Um some good news This is actually um some good news is by John Krasinski during the pandemic Uh he would uh he would broadcast his own show Did you ever watch it No good news was John Krasinski is adorable Adorable He like he uh DJ Ed his the prom for kids that weren't able to go to prom No you didn't see any of that You saw that right And and but let me let me make up on Krasinski What Krasinski is doing please Eddie You you saw that didn't you You didn't he sold some good news to CBS for like uh to see that Yeah I never watched it though Oh I'm gonna see if I can pull it up Um you had to pull a card for today or what's going on what what's going on for me and Kay for the rest of the week or for what it is Thursday Thank you for the the day update Well you said the rest of the week It's like we don't have a day left No there's there was a Friday Saturday Sunday Sunday is not part of the week Oh what I thought there were seven days in a week Sunday Monday Tuesday Thursday Friday Saturday Sunday Sunday is the beginning of the next week Ok Got it Yeah All right I thought you loved John Krasinski I do He was an amazing and a quiet place Pull a car Ok I never saw the office though You gotta check out the office You'd love it What Don't I roll me You love it I know everybody loves the office and he's never seen it but everyone loves it I love it It's a great show It's a remake I would watch it with my mom all the time It's a remake It is a remake It's a British The British version isn't Yeah You want to hold another Well what does it say Read it 49 This is the first card we ever pulled on the shelf Oh that's so sweet Oh 49 It better not be our last episode

mother though like like we always think there's something wrong Where does that come from What's wrong She's a psychologist I'm the son of a psychologist So I think people are dealing with issues So when I call you you're like what's wrong I'm like I'm just calling to say hi Yeah Yeah that's what my mom does to me you should call her like what's wrong when you answer it next time say what's right Ok You know what You know what really stinks though is when something's wrong and someone goes what's right Well I mean you can find out if you say like what's right And she says nothing Ok Do you want me to answer the phone What's wrong I don't want you to do anything I just want you to prepare for a prank to come your way Oh I'm excited Just crank away I'm excited Crank me Oh it's gonna be so good Is it Yeah Yeah Yeah What are you what are you gonna do I can't tell you but it's gonna be epic Epic epic epic Why did you go I already got it I know what it is What is it Tell me I am very sensitive Wait I'm so sensitive You're both gonna freak out It's gonna be great Wait wait wait No I gotta tell Andy So I make sure if it's not safe just get ready So nervous right now It's not safe at the moment And I can't wait I want to ask about so healer So you're my soul mate He I think you want to ask what you are like what you are what I am to you as a soulmate What I what I what am I to you as a soul mate Well wow Time I'm time Do you install it I don't know if that makes sense Let's see 41 41 It's a bad thing Time Divine time is everything You are not stuck or headed in the wrong direction Drawing the Hourglass asks you to have patience with whatever your current situation is all will come to pass in The moment is just right This card can also indicate that something you are waiting for is just on the horizon So I wait what am I just like the like I'm waiting for the yes for capers right now That's what's on the Yeah but you haven't auditioned yet I don't need the audition You do No I don't they're gonna offer it They're just gonna offer it to you Is that how that's gonna work We're gonna get him on um next week next month No not next week the following week You feel That's how you feel That's why I kept like I was like when can I come in next for a live When can you come in I think the only big projects that I've been a part of that I had to audition for were plays All the films are usually offers because as you know don't even look at that as you know my film auditions it's like I think I'm this is gonna sound really braggadocious Don't use that word Why you use that word so often when the last time I last week last week the other day I believe I used the word pompous last week and braggadocious used it both Yeah Go ahead Tell tell the audience what you're gonna say You've you've been you you've actually

seen this go down My auditions are very different than my actual performances aren't they They are like my auditions don't really do me justice I don't know what that's about It's kind of like I have an idea without talking to the to the director and I'll just implement that idea and sometimes you go oh that's just what he does No I can do a billion different things I just thought this is what you wanted Jeff not Jeff Daniels Um The one from Crazy Heart not Jeff Daniels who's the one big Lebowski Jeff Bridges He says uh everything he gets is offers also because the directors at this point know he can do a billion different things Tell him what you want and then he'll do that I'm the same way I walk into the set the directors like we want this Great Got it Don't they have to know you as an actor first You're you're acting like everyone knows you can send it real But you still have to audition for the part offers come all the time I mean you did sit down in a chair and got a hosting job That was an offer Well technically there was an audition there was to see like if uh you would show up I think that was part of it just to make sure you would show up And my mom says this she's like you're very unreadable Like when you meet you you're not sure if you're like a big mean person or you're like the nicest person in the world It's very hard to read Why is that Um because I don't um I think uh you know the the polite thing to do is act professional Act nice You just told me in the prank act a professional precisely And like and people will put on an act whereas in I'm very confident in who I am So I'll just be me and just allow that to be because I don't have any like notions or pre notions or uh uh fear of like the person I am being wrong for the world I know I'm good for the world So I'll just be myself the more I am myself the better I am for the world to be honest which makes me hard to read because I'm not really putting on anything or letting you know I'm a good person I'm just gonna be with you I think you're a great wonderful person So anyway that's why I got audition Wait what Because people can't read who I am Oh look at this update update update Um Rihanna is Smurfette and Paramount animation is the Smurfs movie No she's actually a great actress She's an excellent actress She's in Oceans Eight which you did not see and we both clap our hands at the same exact time and she was good in the preview Yeah No it's exciting Um Rihanna has been casting the voice the role of Smurfette in a new live action hybrid feature from Paramount animation In addition to voicing the role Rihanna will write and record original songs and produce the upcoming project That's awesome That's so baller and you love predictions right E predictions You love like calculating predictions right Do you have any

anything I want to start a game on the show where we make predictions and then visit them tomorrow or the next day or two days later Because I was watching um football or not football I was watching basketball last night and everyone had predictions on who was gonna win which takes up like 20 minutes of conversation It's great Why do you think they're gonna win And then you come back the next day Look how wrong you were Look how wrong you were Why were you wrong And then they talk about it for 20 minutes and it's a great conversation topic So we should make predictions on either people dating breaking up or something else in the entertainment industry something we can make a prediction about But I'm just gonna spitball on live television because we can because you can um let us know when the interactive chat if you actually like to see that concept we should get the cricket sound There's four we got four that's higher than three Listen that's a you know there are a lot of people that are tuning in and click click click click and a lot of people are subscribing to look look look and a lot of people are subscribing to the show on youtube which is really fun Um More followers the other day didn't I Yeah on Instagram this is a woman who who's accusations led to murder of Emmett Till Dies at 88 I didn't even know she was still alive I didn't even know that I thought it was so long ago you woman sentenced that little boy to death She didn't sentence I mean she she created a sentence She claimed that he was like coming after her She's the first Karen Precisely I'm just trying to get a good look in those eyes Yeah I don't trust them You know I actually I actually played Anne Frank and Ann and Emmet um where it was Anne Frank and Emmett Till Meet in Heaven and it was um it was uh yeah it was great Uh voice over by Morgan Freeman No Really Awesome Awesome I'll have to I have to Yeah I did great Um I'll have to find we can redo that play You and I as we are right now just older and older and you look older Yeah Yeah You still age in heaven That's funny That's funny I would have to go brunette though Or wear a wig or wear a oh yeah Yeah Yeah I would actually prefer to wear a wig Yeah Than to go completely Yeah because like I like being I like playing blonde It's fun Yeah I I'm playing gray You're playing right I think the blonde um is fun for me because I go through like but I also like the dark the dark gives a different vibe It does give a different vibe I look almost like Yeah Yeah you're like oh like maybe I should stand back No no no I'm I'm super smiley with dark hair too That's true You are super smiley but you have like like when you have darker hair you look like devious I think that's a misconception that dark hair is devious It's also like the look in the eyes though Like maybe in my um in

my uh IM DB Um I'll pull it up in a second but I wanted to pull up my body I love this guy Look at this guy He's so cute Good evening everybody Even though it is very clearly the afternoon and welcome to SGN John What is SGN That's a good question for years Now I've been wondering why is there not a news show dedicated entirely to good news Well desperately seeking my fix somewhere else I reached out to all of you this week asking nay begging for some good news And boy did you deliver after reading those replies And the incredibly heartwarming stories that came with them I thought all right enough is enough world Why not us Why not now So ladies and gentlemen this is your fault and this is SGN I'm John Krasinski And if it isn't clear yet I have absolutely no idea what I'm doing And now for some good news and what a week for good news it was because yes without question we are all going through an incredibly trying time but through all the anxiety through all the confusion all the isolation and all the Tiger king somehow the human spirit still found a way to break through and blow us all away Nowhere was that seen more powerfully than in the heroism of the global health care community Now these men and women are working I think that's so cute because I I you know I would watch this and you know how many people would watch this too Krasinski is really good at news casting This has his voice does the thing that is very direct and non non region or was it non region diction This yeah you can't sound like you're from a part of the country You just have to be like flat English So this episode his pilot episode got 19 million views on youtube um 2024.2 million subscribers Um and he it was all about no agenda He's just trying to bring good news and he would do this um throughout the pandemic and uh my mom thought it was the cutest thing in the world We needed that Yeah we totally needed that And I think we do too We do it we need it more than ever Like with Good Day Live We try to keep things on the bright side We talk about things that are going on in the world but you try to keep things on the bright side I'm really going after No I think I think but you're really good at like helping see things and then your perspective it's like we can see 22 things and look at it two different ways One thing in two different ways one thing in two different with you Yeah Yeah Yeah Yeah That's interesting That's good I mean I'm sure a lot of people attempted this but he actually executed in a very well fashion Yeah And I love his wife Who you love Who is the next Meryl Streep Apparently Emily What does that mean She's no she's she's a list Right Andy would you consider Emily blunt a list Right She's like a B plus She's a B plus but she should be a plus John Krasinski is a

list 100% I I that's a that's a that's not 100% Your attraction to him is an A no
How everyone else sees him as a B plus I'm attracted to him as like as a
performer B plus he's giving an A plus performance John Ryan Jack Ryan
Yeah that's that's a list you say Krasinski to most people you know Ok I bet I
wonder if more people would know who uh Emily Blunt is versus John
Krasinski We just said they're both B plus You think they're both B plus Yes
they're underrated G can you chat GB who doesn't know who anyone is
Listen I'm telling you right now they're underrated They're not truly B plus
the world has them at B plus where they should be a plus First of all they're a
power couple Second of all they've given us given us probably like top five
best horror movies in the last years Are we at best That's terrible Why why is
that terrible At least you have a letter Some people are fed Some people don't
even exist like that is Emily Some people just you know just chilling hanging
out You know you don't have to be on a list to make yourself feel better A
list That's not that doesn't look like the you're not I'm not a lot of that Uh
Well hm you don't see it I think everyone would agree Emily Blunt is a
fantastic actor John Krasinski is hilarious and also an amazing producer and
actor Um but do they get the credit they deserve not fully are they getting a
ton of credit Absolutely All the credit that they deserve Personally I don't
believe so Although he did probably make a good amount of money on
selling this SGM he did to uh CBS I would love to talk to CBS And uh let's
make let's make this happen because the writer strike is happening as you
said um May 1st is when it's going down Um Maybe this could fund a quiet
place Three What Probably that's probably what they're doing But I I'm
thinking more in terms of because if you're a writer right now um you cannot
pitch you cannot write you cannot do like new shows aren't gonna happen
And that's what you know I was talking to Andy about this yesterday That's
when the boom of real shows really hit It was 2007 2008 It's like they were
like yeah because writer so what's happening right now is actually uh I was
talking to my manager about this This is just a seasonal thing It's not a new
thing It's not a surprise to anyone All contracts are set to date at the same
time So like all studios will give contracts to writers however all the studios
have come to a consensus that all these contracts will end around the same
time which will end in a writers' strike Now the writers will strike in order to
preserve their rates Got it right And this is just something that has to happen
now It's it's basically the writers in the studios trying to call each other's
bluffs Yeah Yeah Yeah studios are like people have to work but writers are
like studios have to have content of course So it's basically like who's going

to give out first I think it doesn't last very long Well it might because the studios are also looking at things like I mean this is just business and like if I'm a studio and I think I don't think writers are going to hold out for too long Why Because of inflation you need money right now The dollar is going down inflation is going up you're going to need things are getting more expensive you're going to need money This is not some good news this is just news and real news But Emily Blunt is commonly believed that she is an A list actor She has been uh what is it She is she has been um prepared What is it prepared to uh prepare She's been praised utility and as an actress and has received official acclaim for her performances in a variety of roles but has also been recognized with numerous awards and nominations for her work including a Golden Globe Award and a Screen Actors Guild Award Uh Additionally she has been cast in high profile projects and has worked with many um notable directors and co stars which further establishes her her uh what is the status as an A list actress So she is an A list Are you impressed with my eyesight That a statement is from the writer John Krasinski is also considered an A list actor Look at me like what II I know my stuff This is this is one writer saying this this is Chat G BT This is an A I saying this uh Johns is also credited as an A list actor He's known for his role in popular television shows Makes an A list actor Yeah that's a great question What makes an A list actor What about an A media personality What makes an A list actor Chat G BT Really I just wanna make sure there was no uh no more f bombs needed What what we're almost done Michelle No I'm good I'm good I'm not a I am addicted to my phone and I I actually worked on it last That's what I was doing And then you were like why are you turning it over I was like because I'm addicted Yeah Well you got anything good in there Rachel from the Real Real huh Rachel Yeah Rachel from the Real World Um OK From the Real World just texted you No not the Real World The Real Real Oh I was like that's great Let's get her on I don't wanna be on the Real World You want to be our dog I mean it's not like a is the Real World even still on No And and it's also not like a thing for anyone in their thirties It is something for like someone in college like 19 to 20 between 19 and 23 is the only time you should ever be on the real world Anything over that like you're an adult grow up get out People are throwing forks people are cheating Some people thought I was in my twenties like actually most of the people that came on the show hilarious most people that came before they came on the show were like how old is she And then I remember Eden was like her eyebrows don't move I was like Eden Um OK Uh box office success Uh So
