With great scarce in the fuck He's not a Yeah I'm line dancing I said welcome welcome Welcome to Good Day Live Today is all of August April the 13th 2023 We're so happy here in the studio with me Angie Natasha Kyle True Blood I'm Michelle Mira If we haven't tuned in if we haven't tuned in if you haven't tuned in and this is the very first time Welcome Welcome to our show We are the feel good show We are on Amazon we're on youtube we're on Facebook we're on Instagram We're on all the socials are everything everywhere all at once And we're so glad that you made the commitment to hit that uh open button and uh follow us let us know where you're tuning in from We get the chat and direct uh and connect with us and see how your Thursday is going How's your Thursday It's pretty good you know uh speaking of the interactive chat I'd love to know what people want to see You know I'd love to hear what people are waiting for We had a lot of a lot of guests uh communicate with us The interactive chat over the last year We're coming up on a year that I've been in this studio when I met everyone Sorry go ahead I'm just I'm interested to see what people have loved so much over the last fiscal year And what do they want to see again Yeah I I mean I came in here a year ago and I was standing in front of this orange wearing a green dress which I couldn't find because I was going to wear it today because today is exactly one year that I came into the studio and I was talking all things uh Amazon products How do you feel How do you feel I've been here for a year Like you've grown I feel like uh a lot I've grown a lot and um I've gotten really excited of the amazing things that are happening and that are going to continue to happen And um onward and upward Every every experience is a growing experience for the I worked for a production house that was called Onward Upward Yeah it was the one with the um with the with with Ruth Carter Ruth Carter Yes The Oscar winner Ruth Carter No big deal No big They brought her in and she's in the Academy Music She won two She's in the she's an incredible costume designer if you don't know who she is you know Um I thought no this is I'm gonna say this I thought that she won because it was like a new venture Like not many people had made African ancient warrior clothing before So I thought that's why she won But then when we went to the museum or when I went to the museum thank you But when when I saw it um it was like I was looking at the detail It's it looked like real clothing Actually it wasn't like just like a leather slab here a leather slab there It was like every little inch every little centimeter had

something on it Some like gem purpose or or thread like a different thread than this It was it was very interesting It wasn't garment is what you're trying to say You know you know what I was trying to say was the the the work ethic you could see in the garment which is why she has two Oscars now Absolutely She's an incredible incredible costume designer and you too can check her out Um If you go to the Academy Museum of motion pictures there that's exactly one year ago today What am I doing I suppose I literally was uh I just got back from Mexico in that photo I was so happy Um And I actually my Facebook reminded me that today was one year Isn't that crazy Yeah Yeah Look at look at those shelves I got back from Mexico in one piece Yeah there was a there was some question there if I was going to get back from Mexico When drove I drove I drove at the time Uh the person that I was dating couldn't So I drove Yeah I was terrified I was you heard about the Americans That just yeah I don't want to let shall I not get into it I didn't know you know what's great about that Is that like I didn't know enough about Mexico to be afraid until like I was told about it but it was too late I was already leaving So it was like I was like let's get out of here It's not let's get out of here Should we get into some some um some topics Kyle True Blood Sure Sure I like the topics The topics are good Yeah the topics are good What we used to do before like we just talk we just talk we always have good times a while since we've had a guest Um we'll have a guest tomorrow Don't worry don't worry don't worry Um Don't you worry don't you worry Your pretty little head Um This is really big This has gotten bigger than um one would ever think Ariana Grande is blowing up about what she said uh yesterday or the day before body image and a lot of women are coming out and saying um I support you this is gonna change a lot of people's perspective Um Thank you for doing this and I agree like I think you know Um and I said this to you yesterday I think we have to start moving away from like the body that you've gotten to know somebody by in in especially in entertainment is not the body They're always gonna have No no not the face they're always gonna have not So it's just like we need to be comfortable with change and growth I know it's uncomfortable for everyone because change is scary Growth is scary But we cannot like hold people accountable to look like they did when you met them It's insane We've had this conversation about like getting married to someone You said this about Pierce brazen And he married this gorgeous woman which he did and somebody came out and said oh she's a little heavier and pierce somebody you said somebody I mean she's noticeably she's noticeably changed

appearance Everyone changes drastically Ok Which is fine We we don't know And it could be he's still madly in love with her and he should be because I think you know if you're marrying someone I hope you're marrying them for their insides Well sadly not all the time And what I thought was that it's Pierce Brosnan You know what I mean Like you don't I don't think I expect someone like Pierce Brosnan to do that kind of thing I think Ariana Grande and Pierce Bros both set a great example for this country Yeah I think I think um listen I'm a huge fan of hers I'm excited See Wicked when it comes out in November of 2024 Which is crazy I think it's 2024 Yeah Wicked You don't know Wicked for a year and a half No I mean you know the movie is gonna be good though It's gonna be good Um I know it's gonna be good It's probably I'm so excited for Barbie I mean I waited a really long time dark night a year and a half before it came out and you lost it Yeah I think I think I think Batman and those show those movies are a little different but um Wicked had a huge huge I think it's on Broadway The best movies of all time Really Um yeah so there's uh there's Ariana Grande Wicked Can make it there Um yeah Um and then you love this guy This is your buddy So Chris Evans uh he said it's terrifying to me I'm not a funny person Maybe I only feel that because I have only I have very very funny friends who once told me I'm not a funny person This is uh people have asked him and why he hasn't done SNL Ok Chris first of all I partied with you You're hilarious Number one number two no one forget no one forgot about not another t movie That's how we got to start in a comedy by the Waynes Brothers for the Waynes brothers for a that's awesome He was incredible He was fantastic He's he's funny Chris knock it off He just I think he wants his career to go in a certain direction which is not comedy which is why he's saying that But he's a funny guy And he also rocks a sweater really Well apparently Did you He always rocks a sweater Well I mean his character in Knives out knives out everyone that sweater went well there's detail in it There's holes in the sweater Oh there's holes in the Yeah So like the costume designer was actually I think she was nominated only because of her detail to like the attention to detail like that So he was a a trust fund baby but he was he was very adamant about like uh distancing himself from the family So the costume designer figured well someone like that would have an expensive sweater but have it tattered because they don't really care about the money but they still wear and adorn the the stuff So that's what that white sweater that cream sweater I'm talking about Everyone wanted this sweater It was like you want you still would want it It was like it was it was hot off the

press homeless chic that we do So Well here in Los Angeles I don't do it because you know I just wouldn't like Arnold Schwarzenegger is in entertainment news Um he is the governor Um this is him filling up a hole in his neighborhood He said I'll be back He went to go get the stuff and he said I'll be back That wasn't funny But I thought it was funny Concrete Look at him Go It just kind of feels like that This guy zoom in on it The other guy with the hat is the guy who's really like look look look at the shovel look what he's doing All right How old like how old is a guy He's not really filled up Look at his outfit Get it Arnold Get it Got real work boots on I'm horse construction I know what it looks like when you're really working Yeah Yeah Yeah But anyway Arnold Nice try I love it Nice Try Uh you know like listen this is what's what's going on right now This is Ariana Maddox showing send what he's missing out on I feel like at this point we can't move on Do you wanna move on I wanted to move on We can move on Um She looks absolutely gorgeous I'll talk about Sanda Ball I'll talk about his ex I can't talk about the breakup anymore This is his ex again I can talk about Sandoval to come But the breakup that was a month ago the man has moved on Why can't we let leave him alone They I think they might have a chance of getting back together They've been together for nine years But he's with someone else now Yeah But like sometimes you need a break to realize how much you miss the other person I'm not a big believer of that but sometimes you meaning people out in the world feel like they need a break to realize how much they miss the other person You don't know what you have until it's gone Isn't that like a song It's gotta be it's gotta be one of those like eight or something like that No no I don't know what you have until it's gone I just made it up Weren't you offered like a contract for singing No I was they weren't they didn't offer me a contract They were like yo you got to come to the studio we've heard you sing these sound producers Actually the guys that did the sound for my last movie they make a lot of ep that they were like come in and like we want to hear your voice like on this one track we made right And so I'm thinking I'm like this great singer But when I went in and heard my voice on you were like no no no I think you have a good voice I'm biased I'm biased I like I like I like your singing just maybe it's just like I don't like the sound of my own voice and other people do but I couldn't handle it I was like this is this is more than embarrassing It's painful Ok So what do we have here Oh yeah Ok So um this is really cute Uh this is a two friends who are in their eighties I believe who traveled the world in 80 days Yes Uh Ellie Handy and Sandy has are back home in Texas Exactly 80 days

after they departed to visit all 70 wait maybe they're not 80 and it's a Thursday and Friday Excuse No no no no Yes Yes Yes Yes they are 80 I'm sorry They just I had to like take a glance because you know it's incredible It's a lot to do 80 years old It's a lot to do when you're 28 let alone 80 Um So uh so the ok actually Sandy's the one that came up with the idea She said Ellie why don't we consider traveling around the world in 80 days when we're 80 Said Ellie Handy said thanks to the pandemic The trip didn't actually happen until the friends of 23 years had turned 81 Having traveled together several other times She said they spent years preparing Still some doubted their plan would ever take off Then in January the friends departed for their first stop in Antarctica proving them all wrong Um The tiktok traveling Granny said they also hope they've inspired future generations to realize you're never too old to take in all the world has to offer That is absolutely adorable Look at them Look at this Look at look how cute this is I read that the Ari aurora aa borealis I heard that it gets stronger every 3.4 seconds Yeah for the night it just keeps getting bigger and bigger and brighter and brighter Like you you're the star Look at this Look at look how cute they are Oh this is amazing We went to they look how cute look Look look look Oh they look so happy She looks great They're just happy Look at look at I feel like I feel like you and I would do that if we went together Look look look look look like I feel like I would do that too Does everyone do that Does anyone else want to just like squish these two and put them in your pocket You want to put them in my pocket But I would love to put each one in each pocket and keep on with my I would love to have them on this show and interview them That's really cute Look at they're just so cute They're the best of friends Like they look very happy They look like that's awesome They're friends of 23 years So that means they became they met when they were 57 That's awesome Yeah it is really really cool I think it's really I think it's impressive Um We got more more stuff more stuff got a lot got a lot got a lot Uh This is what I have to do Auntie Waldman Please come with me because I know Kyle won This is the all this is the Barbie experience here in Santa Monica California I've already reached out to Barbie and said Good Day Live would like to come and film on the premises So we wanna come Um it looks amazing and especially with the movie coming out I mean who doesn't want to be there It's the Barbie Dream House Can you please I appreciate it 100% Look we have to throw out a big thank you to Andy Waldman A huge thank you to Andy Waldman Not a big yet Have we really like sat down and like giving him a real thanks I I always I

wanted to be That's kind of like his music video No absolutely not No no no no no It's great music If you want to check out his music video check him out He's hilarious They bleep a lot of the stuff out Probably probably can't do it though Oh here we go You Kyle and Michelle you two are very funny Kyle should do comedy I've told Kyle this all the time I would go see Kyle do stand up hands down I'm writing a comedic stand up So just yeah I've been I've been it just takes journaling I go on tangents You I'll just like whip my phone out and record my tangents whips this film 25 of those recordings and then I'm going to compile them make a concise you know common denominator about it and present it See how long it is See how long as Little Dickie would comment on that And did you hear this Natasha Did you hear this Billy mcfarlane announces a fire festival too is in the works Now I feel like I feel like the world is coming back to what it should be now you know let's get the fire festival there We're doing I hope is going to be there Wait wait wait wait he's actually naming it fire festival too That's the best marketing I've ever heard that Why would you even go So you could be part of a marketing scheme Be curious the curiosity will win way over the bad marketing There's no such thing as bad publicity Kyle is a genius Michelle I can see you and Kyle getting married Apparently people at the courthouse could too I don't know because apparently I have like a lot of experience there and we get married We walked in and the guy was like marriage marriage fourth floor I said uh I think we were well dressed That doesn't mean that we're like we were not we could have been far a we were so far apart You were on one side and I was like on the other side there was like no hug There was no like thank you Kyle for coming with me He knew we were together We were literally so far apart I was waiting for you I stood to the side and I was like waiting for you to get your your stuff and I was just like I I was nervous Maybe that's why maybe that's also another thing He maybe felt your you looked very sharp though Yeah I will take it I take it we can run with it If it's gonna get us more viewer You want to be my my husband I propose to you live on Amazon Amazon live Yeah There we go Just get the views No You know I love you and I would be honored to be your future spouse I'd be honored to be your husband and I drop I think I feel like I'm blushing now because you cut you cut you can get it Can we go to a uh can we go to Michelle's close up real quick I need to get something off the ground No I'm good I think and we're back You're not you're not No Not not at all What about that One time Andy showed the the clip of me hugging you and I was leaning in a little too long I was like can you please take that down

and show how much I love Kyle and I don't like that Um Oh this is cute So Ed Sheeran surprises um an alum during his NYC subway performance America's got talent subway performance listen performers have it so hard He was on America's got talent and now in the in the subway like you know this is what I don't it And that's why I want M AM studios to be huge because I want to give people such an opportunity to uh have their dreams come true I'm a big believer in that And like when I see talent I I get so excited Um Natasha told me about like a show that she created is amazing She has to run with it It's like there's just so much stuff like when I hear about people doing things I get so excited because like I can see the potential and like what like what it can be and like I see like I I see that much relationship No What's what's what's so striking about this is that he's doing it for the love of it Like a lot of people go on a GT and then they leave a GT either disappointed they don't have this like monumental deal or they get discouraged My managers went right back to the subway continued his singing and loving his life And I think there's something to be said about like for the love of the game that really connects to the success Like when you just really just do it because you love it Like Ruth Carter she wasn't getting paid anything for that short film It was a 10 minute film and she yeah she took a one on one meeting with me Mind you I'm not the lead of the 15 minute 10 minute film in the movie And she's a costume designer She has to meet with you I'm telling you she met with me and discussed the character for about 45 minutes She's not getting paid She's an Oscar winner already already And the film is 10 minutes long and she's just going in and that love I can see in Mike Young as well It's just like just doing it for the love of it And you do you do it 100% every time no matter who's paying or who's watching What's up What you gotta read this read that read that Michelle I think you would be a good mom Michelle If you only knew I have a brother named Bob and an orphan Michelle I just wanted you to know that my brother doesn't have a mom and he said he wants you to be his mom You need to watch more episodes If you think No I think I would be an amazing mom I'm not I'm not ready for that yet But thank you so much for saying that That's very kind Thank you Chris We love you and sending love to you and your brother The 14 year old probably wants to do more mature things than Michelle does That's probably it That's probably 14 I don't think I could handle Actually Maybe let's skip to the you know they're like let's skip to the good part But I would miss like little like the little face You miss the little face and the little hands I have the I have the same thing with um uh my pup

I I rescued my dog Um I rescued my dog at 10 months old and I missed the puppy stage and it really irks me to this day Oh don't let it irk you It's ok You can always have another pup Um this is in the news Uh we are wishing uh Jamie Fox a speedy recovery apparently Um he has had a medical uh altercation and complication He's not fighting with his he's not fighting with his medical is altercation different than complication Altercation is like a confrontation Complication is just a complication Well he's uh he's doing ok though That's kind of scary Right You just like go on his Instagram and then obviously then all of a sudden luckily due to quick action and great care he's already on his way to recovery We know how beloved he is and appreciate your prayers That's his daughter That's terrifying But I'm glad that he's ok Um what else is in the news Ok This is crazy Uh and I have to bring this up Wait how much selling wait you made how much selling feeds I was on a first date last summer and she sold feet and she was like do you like feet And I was like absolutely not And she was like really why I was like because they're feet and they go on the ground like what And she was like oh so like and she goes like literally she goes so how would you feel if I made money from my feet I I'm on a first date and she's telling me this on the first date we're at mama shelter You want to take me where you took the foot girl before I took her to where I almost took you This is me This is last summer She was half Asian half Italian I had a good look But anyway she was like uh apparently selling her feet and and pictures of her feet It was making like a lot of money a lot of money I need to get a pedicure so bad After seeing this picture I was like oh my gosh like that's insane I'm not I can't sell my feet No I want to see my feet I say that right now and there might be a market for it You know what if there's a market for it you guys are gross out there they are gross out there they are gross out there Um And then uh this is this is crazy This is so crazy Can you imagine And we can ask this to Natasha too because she is a little guy around the same age if you went on a vacation and there was a like a painting of a child in the place where you stayed at airbnb identical to your kid Would you stay or would you go immediately We're leaving I'm not I've seen this movie before I'm not waiting for the ghost to show up that terrifying or what Natasha what you do next level put it back in the car with Airbnb Let's get out of here I would I would leave I would leave I would be so freaked out Especially because like if you have a child I think like you I'm assuming your like uh awareness meter goes up like 100 50 fold So like being there and seeing that I would be terrified Natasha what would you say It's weird right It's it's close to freaky Like can you imagine You

know you go and then somebody goes that kind of looks like go wait and she's got like a little eerie look in her eye Look at that Yeah No that's what he's saying is he looks almost identical Yeah He oh the little boy has an eerie look See maybe he does have a little bit of an e look The Children are the problem I'm with you on that Like if my son goes to kindergarten this kid shows up I'm like you know what you know what I think I'm gonna we're gonna we're gonna keep looking Yeah he does Right So this is this is uh this is viral right now It's going all over the place that parents are all are all uh chiming in saying what they would do Um Kyle and I are not parents Uh uh I sorry Kyle is a dog dad I'm sorry I gotta take it back Um I honestly you know I think I'd probably be like my mom and be like it's no big deal You just say it's a coincidence Let's go immediately Don't look around don't take anything don't touch anything You're not you're not getting your money back get in the car care about the money You don't care about the money My child's soul is about to vanish in 28 minutes I don't think your child's soul is gonna vanish I don't know what's going on here but I've seen the movie before He's got What movie I don't even know what movie this is What are you talking about You know how you start finding like weird clues in the 1st 20 minutes of the movie You're like ha that picture looks like that person Huh I just heard the door open I think I just saw a ghost Oh I can't find anyone and right Yeah No we're not we stop at level one We don't wait to see how this movie turns out We leave That's it I don't know I I'm still like I'm still unsure I think like you just have if you're not there like if you don't have a kid and you're not in it I think once you're in it you know the real answer What did the house Oh I don't know I don't think I don't think they're sharing what the actual home looked like because I think that would put that on the spot If the home was made like after 2018 it's got a nice fresh look to it Maybe we'll stay you know we got marble counters we'll stay Probably why then why the creepy old photo if it was made in 2018 just take it off put it in the garage until we until we leave Right But if it's like an old old home like a like a Victorian Elizabethan style home why not that Uh Yeah I don't I'm with you I don't know It's a little weird It's a little weird There's some weird stuff happening here and this is you know a lot of hot topics today uh from alcohol addiction after owners like what I literally emotionally cannot handle this post We got him a well is the dogs Ok Mhm You wait the dog had an addiction That's crazy I don't give him no But like but he's ok but that I mean like was the owner like giving the dog I mean what Yeah the owner was giving the dog alcohol probably and the dog probably had like an addiction

to it Um I didn't know dogs could do that I didn't know dogs Ok So he's probably like look at this you know I really can't handle this It's because that looks like my old dog It looks just like eyes are so cute Um shall we get into Kyle's corner Corner Kyle You get you uh let people know what Kyle's corner is all about Kyle corner is about the random facts that could not help you throughout the day But don't blame me The Pythagorean theorem doesn't help you out either Ok So I'm here for the fun natural facts and maybe just some weird stuff to see What is this True Here's just a dolphin just doing what we what we want to do But doing it way better This goes back in for Deb comes back up get some sun get some sun get back in I just thought it was I just thought it was hilarious What Wait a second this is what you so they actually show you some weird things huh No my my algorithm knows how brilliant I am So it shows me everything Oh here's my thing You know you know humans are like oh humans are smarter than like an insect because our brains are bigger Well a dolphin's brain is bigger than the average humans Really Yeah So by those standards you would say a dolphin may be smarter I didn't know that dolphins Are you guys destructing the right now Focus I can't focus when my memories are vanishing in front of my face I didn't even know what was behind that I can't handle this right now All right we're moving right along to continue to Kyle's corner Kyle What else have we got here buddy What if we have a guess So this is a a for a few days Go ahead Go ahead Go ahead I'm gonna need some tissues for crying Ok Now this is our 1st 100% vegan and electric restaurant What do you mean The seats are not leather The uh it's a Chipotle Yeah it's entirely solar solar generated Those are electric kitchens It's a smaller cook on electric stovetop improved lighting for efficiency and the chairs are made of cactus leather That's right Yeah So it's like it's completely like you know sustainable uh self sufficient Chipotle Isn't that awesome That is awesome The super shout to Chipotle for that guys If I look like I'm hyperventilating it's because we are not hyperventilating What's going on here kai people are calling out popular things They find disgusting and some of these may surprise you Let's look into it All right What is disgusting about this We have to go into the actual article Ok I'll go into the actual article Tell me tell me about what's discussing about what we're about to see Let's get into the article Ok I want you to prep it when buzzfeed pops these up We just want to go right into the old article There there we go There we go Kay number one food play food play during there's another word I I play II I think it's like I listen I am not a big person to have any kind of food by my bed I'm not into it Um reality TV

shows that think humiliation aggressive behavior or entertainment water parks The water is never clear and a bunch of people wait what I agree Water parks are cute when you're seven and you don't care about germs as an adult I don't have time to go waiting in like half saliva half water you know areas No no no no no unclean unsanitary And about 20 years ago I look back and I was like we cavemen for going to water parks Um Ok Ok Ok All right Go Wow I didn't know they were So maybe you should read it before you said it I I used to be obsessively taking that I let the person do their own thing Yeah let anyone else So I don't see why this has a like a con I only do this when I check to see how my VIP goes now I mean it depends upon the conversation I'm trying to have or uh the person is in my way while I'm standing online Fine Yeah Uh Doctor Pile Popper who has been on the uh not our show but has been on TV before Um oh just thinking about it makes me queasy Yes It's disgusting I'm not into it Uh bobbing for apples Also Picking your face is not a thing You should never pick your face You're doing more damage than good It's true It's true What do we got What what what are you looking at Ok I think we're done here wearing shoes in your own house Ok I'm guilty of this I'm so guilty of this Uh sometimes I don't wanna take my shoes off but I'll clean the car So people that walk in Nick oh my God Nick doesn't take his shoes off No he does He does But he's had people come over and like won't enforce the rule And then these people you I can hear him stopping up the stairwell and the the sole of their shoes is just ripping the car carpet right out of the floor Can you remove the carpet What's what's wrong with Just yeah you can tear a carpet What's what's wrong With just feeling carpet on your toes it feels so much better But if it's dirty I don't want to feel it on my toes My carpets not dirty Well depending on what you said about consistently vacuum it I know But what you're telling me about Nick it sounds like it like I just got to continuously vacuum it again I don't want to have I just said well so I just it's it's like six shoes off socks on carpet Feel amazing Amazing Amazing Well so uh when I it feels very uncomfortable when I moved in my first place in L A my first apart my first one bedroom apartment in L A my mom and dad came to stay with me and it was white carpet and I told my dad take off your shoes I told my mom take off your shoes and they wouldn't take off their shoes So I started vacuuming after them as they would walk in the house Yes My mom and dad thought it was funny I know like please abide by my rules Um drinking to the point where you can't stand up like head spinning probably should take an ad they lay down and drop Yeah Yeah Not that I don't like that And finally taking it back

you were literally soaking in juice OK All right I I love that Oh my God I love that You never take a nice bubble bath I need like the water to filter because at some point the dirt is gonna come off my body and then now I'm just waiting in it I love bubble bath You got a shower first Then you go Thank you Natasha That makes perfect sense I love bubble thing That's a thing You shower Lavender baths are the best cleans out the bathtub The shower can clean out the bathtub from any you know previous residue Then you can sit in it I'm fully behind that Kids love baths too I think kids just take baths because you're so far from the shower head by the time it hits you it's like it's just not worth it No I think it just I think it's a good time for kids to like unwind and and and relax and like calm them down for the day My kids is gonna take a shower Ok All right That there's that I remember when I started taking showers I thought it was like such an adult I was like no more baths for kai No more bats for kai Also It's staying up it's staying up We're getting a new one Ok I was panicking that Oh my gosh Ok So moving right along moving right along Chris is 10 years old That's adorable Moving right along uh back to Kyle's corner Do do do do do do do do do do do do do do do there we go There we go What's going on here Kyle women are sharing shock and dating questions that help define their dating standards and it's genius I was again I just figured we we like this topic might as well get into it Do you want to get into it I love your future Our future Oh my gosh Ok Chris hold on bro Hold on Oh my God First of all for 10 years old you type amazingly I think he just said he's right there What We have an interactive chat We have some Children on there that we're talking to and they're asking us basic the most off actually that you're asking for I know it's interracial but I know dad Ok I take it 10 of the 1400% right now Right now You would take a 10 year old We we'd be right on par It's like I had a kid at 26 Is that on par Ok Good Ok Yeah let's check it out What are you doing You're just freezing here I'm just waiting for you to go Go where Tell me what we're looking at Why don't you click into it Don't tell me what to do You just told me what to do We're already married Kyle Do something Well I'm coming across your shot right now It's ok Here we go What do we got Can we read these things Yeah Why not That was ok All right What do I got Number one Where for me is the line between taking things slowly and inertia does more black hair Yeah I don't even understand the question I don't Ok How do I like to be loved Basic how much do I expect my partner to invest in the relationship Also Basic questions Yeah Moving on Are these questions that women like do I expect my II I don't know Like I think these

are all things that you learn as you go What's annoying but I can what's annoying but I can live with it and completely unacceptable What am I reading right now I have no idea You're the one who said that in sharing shocking dating questions perform dating standards and it's genius All right what do we got Uh uh are they in therapy And if so for how long I think it's good you know Um Actually our buddy Zara posted something on Instagram the other day or no it was uh a youtube shorts and she said something about like is it too soon to go to couples therapy if you're just started dating them And I'm like I don't think so I don't I mean it depends on how much you want to invest in person Truthfully I ended up in a couple of therapy after like eight months I was like this is not gonna work Um We do talk about the products Thank you for tuning in Um If you want an air fryer or if you want um all the amazing things below check it out Um But we're so happy that you joined the show We spoke about speak speak Now would I be stepping off now Is is traditional relationship expectation Actually something I want or is it something I've been told to want What's a traditional relationship expectation that you have You know actually one of the traditional um relationships that I have uh expectations that I have is that um that the guy is dating me and only me And I'm saying this while I'm using our desk cycle under desk bike pedal exerciser which you too can get in and talk to your friends There you go Um I don't know What what about you What is the one thing that you uh um you know ok so a lot of people say like oh you're not you're supposed to be peaceful There's supposed to be no bickering or or disagreements And I think that's a traditional thing that I don't think is real is real The all the people I know that are still in happy relationships are able to like move past the disagreements or the differences You're not supposed to be similar you're not supposed to have the same outlook on things you're supposed to be different and not only expecting it but like valuing the differences not being like oh I think of it this way and he thinks of it that way and it's like Well we gotta get on the same page No you don't You have to understand each other's pages Not get on the same page and there's a difference That's my thing That's your thing That's your thing Um oh I've been with my wife since we were 15 Started dating in 1990 Peace is key I love that I do think peace is key I think Um is that like an old way of looking at like what is that What they say Not old but like what what was the question Peace is key Keeping The traditional is traditional expectation I think I think peace is important If you don't have peace in a relationship then you don't have a successful relationship I think peace is the byproduct Like I

don't think that's something that you do I think that's something that you want to have Like that's something that like you want the residual to be of the relationship is peace Peace is it takes a lot of work to have peace not just like let's just be peaceful Like there's a lot of work that I'm sure comes into it since 1990 Yeah Our our friend um a live stream lab said that peace is key Also a smart husband just lets the wife always be right There you go There you go Take advice You know I think that well that's the thing Actually I I've I've seen this happen before where the guy will try that He'll he'll like try to just always allow her to be right But it takes a specific type of person to always allow to be right because some people would run away with that and you'll be in a very dark place before you even know it So there's you know a lot of trust you apparently marry the right person But like it's very tough to just allow someone to think they're always right because a lot of people don't do the right thing with that uh privilege should I say Yeah I mean like listen I think for me like when I get married um or I guess when we get married um it's like to have somebody who uh who knows that um that it's going to be a working relationship that like we're gonna we're gonna hear each other out And uh yes a happy wife is a happy life but a happy husband is uh what a happy husband is What I don't know A happy husband is what There's no there's no what There's a happy husband is Uh what is this What's this Just hear a lot of chatter Oh it's it's it's ok It's ok A happy husband is what is key Happy husband is What's the rhyme A happy husband is I don't know what's wrong No but a happy wife is a happy life Happy husband No one cares about That's not true That's not true That's not true that your wife happy Do I do I know Unlike myself first Yes you're not liking yourself But you know it's interesting I like I have encountered a lot of people that have not really like themselves that have seemed to like attract a lot of partners Maybe those partners don't like themselves either Well they probably attract people who like the fix it relationships What do you mean What's a fix it relationship I think that a lot of the maternal factor in a lot of women that hasn't matured yet turns into the fix factor where they'll end up like wanting to date someone that is a project You know what I mean Like and they they like that they feel safe in that are like are you bored Not even bored It's like this is just a guess I'm not saying I'm right I just think that like women really go for that because it's safer It's like this guy isn't the perfect guy He's not too good for me He won't run away I'm fixing him So he's gonna owe me He's not gonna go anywhere because I'm the one way of looking at a relationship I think that's what really I think that's what they're thinking I'm not sure Oh yeah I

mean I think I think women I think women like uh like like uh like to fix things naturally Um and uh in terms of they like to upgrade they like to like sometimes I'll be like I'll tell you like when you walk in and you're wearing something amazing it makes you like we're hearing a lot right Don't worry about it Um like when you walk in you're wearing like a new suit I get excited Sorry I couldn't hear you when you walk in I get excited Well normally but like when you're wearing something like extra cute I'm like I'm so excited guy It's ok I'm so excited And then when you got like a new watch I got so excited Well thank you for that You have Mr Belova The voice is hilarious The voice is hilarious Um and Kyle you marry Michelle you have to know her favorite flowers Kyle and give her chocolates on Valentine's Day Oh that's cute Thanks Chris I appreciate it When when Kyle and I get married I'm gonna need a really big ring I'm gonna be a really big ring Should we play a game Kyle True Let's play a game What game do we have Let's question everything because we're not questioning anything right now What do we got Uh what expert do you want lessons from What expert do I want Lessons from Uh Oprah I think you've asked me this before What what expert do you want less I said Muhammad Ali I I did not ask you that I did Oh yeah Oh why Muhammad Ali What do you mean And why Muhammad Ali Why why would you I don't know I'm asking you what was Muhammad Ali Good at You don't know Where am I right now He was a boxer I know that But why Yes he did He didn't say it was I didn't know he's good at a lot of things Apparently Rhyme a little bit No rhyme You mean rap No not rap rhyme No Oh you mean when he was a good speaker Yeah But wasn't he was just outspoken because he didn't go to Vietnam Ok Can you why why why Muhammad Ali Because he was a great boxer That's why you want advice from him Yeah Why not He was he was like he was like the ultimate self-discipline self disciplined master and like the best at what he did but not just like I don't box but like I'm sure like whatever mindset he had to be the best boxer I just want that mindset to be the best of whatever I wanna do But you're OK But wouldn't you wanna like get advice from somebody of something that you wanna do as opposed to a boxer Uh Again it's not just about the boxing it's the level of the level at which he did Whatever he wanted to do was very very hot It was unmatched personally I thought I thought so He he's even lost and he came back and won again I mean very very resilient person OK A lyric a poem A mantra or quote you hold onto tightly Yeah I'll skip those Ok In the past people were no Uh what I see Ok Fine Oh we've done this one We've done Did you go through the whole deck

That's not a number It's an S oh I guess so I had to write it out write it out It  
was a you you you did it was a if I had a pet fish what what what would it  
live for Over or under Three months for me For me 100% Not Michelle Oh  
actually you're pretty good with Charlotte I love Charlotte Charlotte loves  
me so much like a parent even though you don't like to call yourself one  
What's the last movie I saw in theaters Who cares what my body's  
temperature on a scale from 1 to 5 You are like a million degrees I've like  
hugged you before and I'm like what is wrong with you Me and my dad run  
really hot It's so disturbing It's very strange Like I love you but like it's not  
normal No Like I was like sweating after gave you a hug Yeah It was weird  
Like burning hot You're like on fire Really Is that why women are so  
attracted to It was very uncomfortable I was like when was this by the way  
when I dropped off your bag Mind you I'm wearing like a jacket indoors So  
maybe that's why when I dropped off your backpack it was like every time  
I've like hung out with you which is probably a total of five times in reality  
in the past year Like every time it seems so in my brain even when it wasn't  
because usually there's so many stories around it It's like I dropped off your  
backpack that smelled like you know what And and then I gave you a hug  
and your body was on fire and you were peeling a potato I tried and and I  
was confused because when Andy and I went to like the living art experience  
Andy got on and I was like isn't it supposed to have like some liquid he got  
on But it looked like a salad It was like it was like noodles over It was like no  
Did you enjoy it Was it good or bad It was like uh I mean I didn't have the I  
don't think I tried it I was just confused I was like I'm so confused when he  
when he ordered Udon I was like oh my God I gotta call Kyle He's like don't  
call I'll get a call from Michelle She'll tell me something completely random  
that has nothing to do with my life or abuse And then I'll hear in the back  
Why are you calling Kyle It's hilarious every time I call you all the time  
because you're my buddy You call me a lot and I want you to always know  
that you're always invited to do these things So that way I don't get in trouble  
the next day I don't even know you guys are going anywhere What I call at 6  
30 This food is amazing where if you go to the living art experience the  
chances of you getting food are high Although there were buses that drove  
into the living art experience which we should totally work with the bus  
companies to have them drive and see the live studio show What do you  
think about that I say hello It's a good idea It's a great idea right Especially

said ok go forward Who who is it Fran what No what this is what who is it It would either be uh Emily in Paris or also morally sadistic OK What They're not morally neither of them have a moral compass Yes they do Really Or is it literally determined by whatever guy they like at the moment and whoever is in the most be best friends with them There's an article partly because of that There's an article that has Emily in Paris and Carrie Bradshaw in the article that talk about how people are Like these characters are actually like very morally insane They're not morally insane Emily Emily dates first of all she sleeps with her best sleeps with her only friend in paris' boyfriends dead They broke up She has a secret love for him while she dates another guy giving him flirty eyes the whole time Every time Alfie turns his back she's like oh she doesn't know anywhere else to eat and they flirt behind Alfie's back It's it's very great Bothered by that Oh I can go for days about this one and guess what I'm the first one to watch season 400% Can't wait Can't wait I didn't say I wasn't gonna watch it I just said she's more really sad I didn't say I didn't say it's not my favorite show I didn't think Coffee Bean Um a couple of days ago I was wearing my um Love Is Blind uh Gucci sunglasses And uh somebody came up to me and said what do your sunglasses say And I said it says Love Is Blind in French Um and he looked looked at me from head to toe and goes and he goes Emily Emily would like this and I was like Emily you mean Emily in Paris Emily I like I like looked at him He's like you know Emily in Paris And I was like I was like that's one of my favorite shows He's like yeah my uh best friend works on that show I was like who's your best friend I thought he I thought for sure he was gonna say uh Darren Star II I was about to like pee in my pants but I think he might have gotten scared because I had the Emily and Paris phone case too Like but I don't think he watches it Maybe he does Maybe he doesn't because I did look like I was straight off the set of Emily and Paris I'm I'm I'm split Why are you split between Matthew Perry Oh and Christopher Walken I don't know who I don't know where to go there Christopher Walken It's quite cool Yeah he is Matthew Perry is awesome Matthew Perry He used to be I'm sure Chris Walk Oh yeah I'm sure too Maybe you and Christopher would dance Hey I'm Matt Perry's friend Could I be more in love with the character Was so ok So so yes So you would rather be friends with Chandler than Joey Joey's awesome I feel like you and Joey would get along great Actually you and Ross would be too much alike that see I feel like I'm too similar to Ross and Joey and me and Chandler are like gonna like but yeah so if you could date anyone if you were on that show and you were one of the characters would you date Rachel
