like 15 years old And can you pull this up I mean I I'm not seeing it Rumor Shev football It's not so black and white This is interesting We're getting into a little bit of football slash divorce a talk Oh here we go Here we go We're back to it Um OK Yes So this is uh we are a live show So if you're just tuning in um bear with us uh we got some new gadgets on this set as Kyle just sits there as you like to say some figure out figure out the whole show It's all good I love you man Um So Giselle B just came out and said that um Tom Brady and herself did not divorce over football It wasn't just football and first of all we have to know what the why it didn't work out We wanted it to work out it didn't work out We don't need to know the why right But but some things need to be sacred So you know Tom I love you I don't know You Giselle I love you I don't know you And I'm sorry it didn't work out but they did have um two beautiful Children together Um and at least 10 years of marriage and I think that is a success especially in the line of business Both of them are in barely said I'm gonna I'm gonna leave it there Um drastic or controversial Controversial I'm not gonna say anything No that's it We knew it wasn't just football Ok They're not simple people they're not gonna break up over one thing I think football had something to do with it I think there was more there We don't know them Yeah Yeah Yeah Ok Is is the name of the game right I love that Um What oh this we were talking about this the other day which is cool Um uh You said that Haley Bieber is uh or there or there has been stuff in the news that Haley Bieber is uh doing what Selena Gomez Selena will do something Haley Bieber will do it I just tattoos talk shows actions So we don't know necessarily know that and what I love we don't know that she's copying her They could just have like minds great like minds No Ok whatever But anyway Selena came out to her defense to support she was getting she was getting bashed Haley was getting pretty and what I love about Selena is that she seems like such a sweet girl and she's like please I'm pretty sure she is I'm pretty sure she is and it takes nothing to be kind I mean we don't know any stars but like when you look into it when you look at Selena she just she always has just a very even heeled energy about her Never over the top never seeming too down on herself I can give her that It's for you Kyle Uh Pen is coming back with 1/5 season of you on Netflix Are you I know you're excited because he kept the beard beard I love a dude with a beard I'm not gonna lie but I'm pretty excited II I got through I got through like 2.5 seasons But after a while what are you looking at You're looking at Andy or the audience after a while once he was like on the on the third woman where he's like you I'm like all right All right All right The man

was married for 30 seconds He was like you over there I'm like it's getting too it's too much Actually I'm with you Kyle He lost me on the third season because I was expecting them to be married And like and love is really interesting I feel like that's an interesting character We should have seen more of that I think he moved on a little too fast He did move on a little a little too fast It for my liking So I was a little bummed out about that I'm not gonna lie I'm not gonna lie Uh he moves the box huh Does he Second season he goes from New York to a first season to second season back to you All right And give a special congratulatory to General Hospital They turned 60 who at General Hospital just killing it and a family there I mean I love that you were on this show which is really some stories about it What do you got And I'm allowed to share these are you nd A does not prohibit me from sharing this kind of story Story is all about prohibiting stories not this kind of story So we were it's vague We were on this set and there was a few different day players that day Me and two other people This one woman had an absolute monologue like 13 letter words everywhere It was very like jumbled She was stuttering in the middle of the the conversation wanted her to stutter I should say And so anyway we get the set and I remember looking at him like how is she going to do this Like I really didn't understand it We get the set and she starts I mean fumbling and if you don't know soap operas move very fast like you say your lines they call cut we move on It's like that and there's a lot of there's a lot of the original players on this in this scene So there's three people that have like been acting all for like years veterans And she's the poor woman She's stuttering she's she's having trouble and you see she's like starting to break down It's starting to go down This is probably one of her first like opportunities and it's going rough But you see just like the bay that we were talking about with Gregory Martin and the family atmosphere General Hospital you see them all kind of banded together Everyone took a moment We all got quiet and like all the the really right I was I was like Lord please don't get fired because I my scene was next So if she gets fired I there's no way I'm going to I'm gonna think I'm getting fired next Like I'm I'm next You know what I mean Like so anyway uh everyone just like got quiet for a second and like really like got like embraced her and really supported her and she nailed it It was really interesting was like in the hospital scene what was happening She was we were in a bar I was the bartender uh and she entered the bar and like threatens one of the main characters of the show But it's this long monologue Like I saw you here I saw you do this and if you don't do that I'm gonna Yeah I'm gonna put the

penal code this that X this that a third on you and like it was just a lot of different verbiage and jargon and it was tough to memorize but she nailed it with the support of the cast and you nailed it too Um As Mark Teschner said on our show which is really cool It's cool Um I gotta get into this because this is crazy So OK All right So you know what's been going on with Gwyneth Paltrow She's been called the Almond Mom recently and now they're saying that Chris Martin um is not an eater either and he must have gotten it from Gwen He actually just came out like sometimes I don't know what to do with you I love you so much They they were for quite some time Look at that look at that Let's talk about football How going to football back to football Um So when so they were married Chris Martin and were married for quite some time You never heard of uh of conscious uncoupling what OK It's OK It's OK It's not your genre Sometimes I wonder how you just fell into this chair I literally fell into this chair I was like or or come with this experience they were like we could do a morning show That's what you want to do I was like yeah sure That's and then I ended up here It's too funny You're really good At just just just I I love it up here Ok So uh in 1999 I don't know when they got married actually Um but he was married to Gwyneth and Gwyneth is getting a lot of like heat for the way she eats or doesn't eat And Chris Martin uh basically said he's not a big eater And then they were saying well maybe he got it from Gwyneth and now he's saying now he's saying that he got it from Bruce Springsteen He does not eat after four Doesn't eat dinner I would be starving What do you mean you don't eat That doesn't make any sense When does he start When does he start eating at three Ami don't understand like how do you how do you how do you like intermittent fasting is for people to start eating at noon and if he stops eating at four Yeah he's just ready for the apocalypse essentially I mean I don't know what that is about but I thought that was really funny Um And then this is also uh something that's going on So I get told that I'm a blabber mouth but it works for me because I host a show a talk show Um It's not working out for Prince Harry right now He might actually lose his citizenship due to the amount of information he shared about uh drugs drug use here in the United States I know Right hold on is that a thing isn't like every American on some type of a drug I mean I'm not if I go to CBS right now everyone's got some type of medication or taken What what do you say He did Like illegal drugs Yes A lot of illegal drugs Oh a lot of illegal drugs Well apparently that's what he said in his memoir Spare Who Prince I think China is taken away I think technically a little crazy with thinking you know

you can get away with it now But that's that's too much I don't think this is real Do you really think they're gonna take a citizenship away It's click bait I don't even know And he says they can do a deeper citizenship away from where America question quickly When did he get a citizenship Great question I don't know I have to do a deeper dive He doesn't even need it What do you mean He doesn't need it Oh right OK Kyle you brought in some stuff What's going on in this All right So Jessica Chastain she's having an interview and she booked a job during the interview with the Rock You saw this right It's really interesting I mean to see these high level actors perform at such a high level and to see the way you know they still have to network and still look at the app She has she's like oh my God I just got a job and just to see that kind of a reaction Like it doesn't come easy to anyone Everyone's got to work and hustle She's hustling here I mean I think everyone has to work a hustle besides the rock The rock is good He offers jobs He doesn't he doesn't get jobs He offers jobs Yes That's what I that's what I hope to be and to continue to do that I don't think anyone's had a more successful life This man he played college football That's a very big he plays a college football at the Miami the University of Miami which was the number one college in college football during that time Then he goes straight into the WWE becomes the top wrestler probably of all who doesn't know this I don't I mean I'm sorry to know about Gwyneth Paltrow's past but like it's very easy to know about the rock OK What's this What's this I was like you don't know about I was like who who who It's like an owl at this point I'm out constantly ho ho I'm just like who like all day because II I don't follow marriages Moving on What do you follow I follow the rocks career when you realize the same needs that used to drop it low What happened here Well because you know we're all aging right Everyone leave us without our permission This lady's knees left her unbeknownst to her I thought it was really good I thought it was really funny We're all going through it in some way She's going through she's dropping it low That's hilarious Um ok And then you said this is this from Natasha I can't this is mine Ok because I'm called the Grinch of the show and I like the snowboard I figured I'd just send a little bit of a look at this Look at this You are the Grinch I'm the Grinch Is that you That's not me Wouldn't that be cool if it was Yeah Yeah You're not loving that And if you own the snowboards wouldn't you be a little ticked off that he's doing Nothing is happening to it Yeah Yeah Oh see that looks cool I'd be ok getting on that Uh what is it called Chair lift chair lift You want to get on the trail You just don't wanna ski that level But I don't wanna ski

Maybe don't they have like inner tubes where you can sit down Yeah that's a whole different mountain That's how to get to that And I'll be fine It's like the last decline of the entire mountain grade Wow I mean when you do this like are you terrified Do you have No you not I I'm free Feel free You feel free You don't feel free right now Yeah I feel free as an American I usually always feel free as soon as I wake up But when I'm on the mountain with that gravity pulling you down the mountain I mean that's the best feeling in the world can't wait to get this And he still doesn't believe I snowboard so I can't wait to get it And uh well he doesn't think I need to double blacks and black You know what I don't want to see it just like just do it What Yeah Yeah Yeah You said you're gonna um you said that you were gonna bring us uh footage which is never get to the mountain is like our second sunny day of the year It's not until I'm getting the icon pass actually too You're getting what's the icon Icon pass Like a season pass to like a lot of mountains It gets you into like a bunch of different mountains in the world Not just America I think I think the Alps are even involved But yeah What's this What this this is so cute This is a mother daughter just dancing to hip hop How cute Which one's mom Which one I I love this I love this I think on the left but maybe maybe not maybe not You just don't know I love that I love this so much I mean like it's a Friday and I just it brought me joy That's a happy happy Friday Um There were some other things that brought me joy that I want to share too Look at this Look how cute this is Look at this Look how cute she is I do not think these are a mother daughter duo Oh wait maybe maybe not I just saw these girls dance and I just was brought me joy It just made me happy The older the kids so cute Oh I love that I love that kids are ok Um And then there is another dance or was it not a dance Oh this is so cute Um This made headlines today This is a six year old who wanted to go to school dressed as Dolly Parton I was gonna ask I was gonna go look at the guitar at the little guitar and her mom was just like what I think it's a walk for me like my six year old dresses Dolly Parton walking into school this morning and she can't stop laughing I mean look at the little like that's amazing in the guitar It's not even Halloween You just felt like doing it one day I I think it's probably show and tell but that like not just Halloween but like let the kid do whatever he wants any day he wants Oh we gotta win for a second Because what about the kids that dress up as animals You heard about this What are they called now I don't even know what they're called but some of my kids they're like I want to be a lion and then and then they actually don't use the bathroom They they put a petition to use like a like a like a grass patch and I

as an animal and let me just tell you like you will not be doing this Just save the tape for Kyle on You will you will not be doing this as a lion That's fantastic Put some pants on Write a book about it I don't know But you're not gonna dress like one you're gonna get two grades I got some good grades Are you looking at looking at mom And from what I remember isn't there like a thing that you used to not do it What was it called The do now Um OK Well maybe your child will do now and now put on pants and not be a lion one day But now we have a hall coming on We have a the incredible a who is actually our very first guest on this show So we're so excited to have her back talk about her media company and all things entrepreneurial Um and uh who runs the world Girls do Sorry they do We'll be right back with a hawk At least I can say it is it that bad but the more you smile the more No you lipstick on the teeth Yeah Yeah Saga So here is our Jari Un box that you wanna get it charged up You use this fantastic charger over here This is the output over there and it has an extra cable like this with the ability to charge it in your car So that is really cool So we have it all charged up It has here you can press on the display You can see now that it is not drawing any power it is not bringing in any power and it is 99% charged which is cool So as you want to use all your separate things you can turn on the little lights and it will show you as you can see there that now you can draw power out of them or you can turn them off just like you would at home If you do if you wanna leave something plugged in but not having a draw power there you can turn it off So let's have some fun and see what our Jay can fire up So in the past we have used the Jari to light up our lives with go We have charged our cell phones and we have done a few other things But oh we've even lit up the Arrow Garden How amazing is that that we were able to light up the Arrow Garden But today we're gonna push the Jari to the limit and uh we are gonna take a look at the this works What's this This works That car vacuum Awesome Very cool And we could even take a look at it Tabi used it And uh how amazing is this Oh my goodness You can just keep on going and going and going you can get into every little look and cranny in your car with all of this How awesome So this is what we're gonna do We're gonna stick it into our query Let's do it this way So you guys can see what I'm doing Turn it on with a little light and the display have gone on because we are about to fire this up Thank you Mr Jay There we go That is cool So let's see what else we can fire up today I mean that you can I mean that is just so cool You see powerful vacuum Jackie fired it up Let's have a look at some of the other things that we can um fire up today Let's see Here we go So let's try

the LaVoy Air purifier I mean this is a high power drawing eye item I think I would imagine So it's not something that you would generally plug into this little power port here Amazing if this works you know how incredible this must be So not only is the Jari used when you are camping or exploring the world in your RV or your car The Jakey can also be your backup power source for a disaster Um You know disaster preparedness The Jay is definitely something that you'd want to have in your home and like God forbid there is something and the air is not pure and now you're stuck in your home You've got no power You can't put your air purifiers on your my lovely co host That's right Kyle Trueblood How we doing And we have miss Good to be back Great to be back I said before we were live I'm so glad he did wear my beret You look absolutely adorable You look adorable all the time I feel like we could have doubled up on the Berets Yeah I brought it in my bag though I'm not gonna put it on right now No no no no no Um but I didn't know I was your first guest You are our very first guest I think we might even have footage of that Um But like it's so so funny Your very first guest on our on our show things look a little different right Yes a lot of things have changed Um Not just for us professionally Um But for you too you started a media company I started a media company and I'm loving it So most people know me for fashion you know I had a fashion brand for many years Um And yeah I just had some soul searching you know through the pandemic and some other things happen and I want to go in another direction and here I am the birds birds Eye media Thank you Thank you Thank you Uh Is that in any correlation to your background So it's really because I have a heavy focus on billboards and I thought that was sort of appropriate and just kind of a play on my last name So yeah I love that I love that And can you tell us what you're working on right now or Um what's in the works I'm working on a lot So you know there's just a lot that falls under being a media company I'm sure you guys know it's like TV it's marketing it's commercials it's billboards it's indoor and outdoor advertising So I love that so much It's like a you can do anything with a media company Really Um when you set out to well when it started what was the purpose Like what how did you want to affect like the world with your media company What was that That's a great question How did I want to affect the world Um well let me just say first it started with a really small idea when I was doing my fashion company I I had some Autumn Hawk Jeffs and I was sharing those on my IG story and I couldn't believe the feedback that I got Like how can I get one I want one for my brand And then I thought oh wow I could sort of monetize this and it just

sort of sped from there And then I I thought to myself well I do know how to market I do know media you know from my from my fashion company I do I understand campaigns and all of that And um so it really just started from a small idea and has grown much bigger than I ever could have thought I started I started in September I've already surpassed you know six figure clients and I'm working with a lot of L A brokerages which is really cool You know the agency and Keller Williams and um Coldwell banker And um it's just been amazing amazing I think I remember you saying you wanted to be a cupcake because that when you were little I wanted to be a lot of things and then I had a time where I wanted to be a bus driver I remember I remember the girl from in living color You make a great fly girl we got to bring fly girl back I mean I think that show needs to come back let's bring it back What was that Um I don't know I just love to drive even as an adult like I just like that's therapy to me Um That just looked like the perfect job like getting up early and saying good morning to all the kids and so cute I love that silly that I mean you are merging the two things because I mean my theory is we know as little little people what we want to do when we get bigger and I don't think I did I mean you got the fashion and then you wanted all these people to come together and with media and you're still doing the fashion and the two worlds are colliding the bus driver and the cupcake coming together for media It was a stretch but I saw the two colliding We've already asked what's next for the media company Yes Uh But what do you want to be next What do I want to be next So I just really have my eye on the prize with these billboards Um I love that we live in such like this techie digital world yet A billboard is still such a flex Like if you have a billboard on Sunset that is like such a Flex for a brand you know and that costs a lot of money It's like 300 K a month Wow for those So it's just such a great business to be in And I love that I can also be creative as far as designing the billboards making great relationships So that's the goal I love that And I know a lot of people in this town are trying to start their own media companies What advice would you have for those people trying to start their media company Like what did you initially You know what I see a lot I just feel like everybody not everybody a lot of people just operate just in a sort of in inauthentic energy And I think that clients and consumers are so much smarter than we give them credit for And I think so many marketing and media companies use too much psychology that it can almost come off as manipulative And if you're leading with just like realness I think that that's that's the best way to operate Yeah I'm sure like the the general public will

feel that you know because I feel at this point we all get that like marketing firms are so formulaic and we can kind of see what they're what they're poking at or trying to like pull out of us And then we we can understand when we see something organic or holistic and we're like oh they're just going for a very yeah I want to just bring real connection back in marketing and media I think yeah I do think like we are in such a space where we are hyper aware and we can see what's authentic and what's not authentic I mean I feel like a lot of us though are a lot of people a lot of is like that a lot a lot I feel like there's something that happened after 2020 we're just more aware our eyes are more open I think it's just it's you know a lot of benefits came with the pandemic Um and there was a lot of tragedy as well but I think there's so much change where we're able to see who people really are I really do think like a veil has been Don't you love that I love it I love it I mean there are moments where I feel like so vulnerable and exposed but I feel like that's and I love that about you guys I love that about you guys And I think that's a a real key to success here in Hollywood I think it's if you're gonna live in Hollywood it's it's really important not to act Hollywood right If that makes sense this is 100% Yeah it's uh I really appreciate this landscape because it allows you to be yourself and then it'll it'll boost you up from there But if you try to play the game or try to be something you're not I feel it really will this land and energy in this in this town really will kind of direct you to the people that are fake I don't I don't really see the fakers making it or successful which I can appreciate it like you're real or nothing Yeah I feel like now is the time And I'm saying this again is it just like there's people are rising up like just the people that like stories that need to be heard are being heard and shown And I love that and you can see it with the people that are chosen to play certain roles people that are are are telling stories they are finally getting a chance I mean just even at the academy alone You were watch the Academy Awards I think it was the best one This was the most inclusive And I think yeah like everyone that was nominated and won personally I was like oh come on I I mean I did not get to watch everything everywhere all at once because I did you see this movie No Oh ok You won the Oscar and uh it's it's a it's a rough one way more violent than you would expect especially to win an Oscar But nonetheless still good for me And and I love that Michelle Yo won for best actress and she's the first Asian American actress to win It's just these stories that are being told that need to be told And I'm just really excited that everyone is being recognized And um well it's like a melting pot You know like this this country has a lot of

different That's our strength is we allow a lot of different cultures to have their space in this country So I thought it was interesting that like RRR won that Indian movie from Bollywood won an Oscar And then it was like that original music Yes Yeah And then Black Panther won for costumes And then you had like Jamie Lee Curtis winning for you know it was just like everyone You love Jamie Lee Curtis everyone's cheerleader She's like you Thank you I said Jamie Lee was everyone's cheerleader And then Michelle was like well she's everyone who's from her projects I mean you said she's always like cherry for people that we were going up there I said I think that was everyone from everything everywhere all at once I mean she had no choice They were going up every award they were going up there So yeah I love what she said She said that she was recently um selling yogurt that made you poop and then she just won an Academy Award You never remember She talks there's a really funny clip I think I think it was like nine months ago Some reporter was like Jamie how are you She's like and she's acting so she's like I just got off a plane I don't even know what's going on She was like so Hollywood about it I love Jamie Lee Curtis Yeah All about the true lies Yeah Good for her The dancing is the dancing is really good but the whole thing is good Like she plays a rather she could have won like she could have nominated for that role She plays like a very sheltered housewife who then learns her husband is a CIA agent and starts doing all this stuff Arnar Oh yeah Yeah Yeah Yeah There was actually some controversy in the uh behind the scenes on that movie What do you know with Tom Arnold It's an action movie I know everything about action movies right OK He said something someone had a problem with it probably about 20 years later and he got shunned for it You know I like that I like typical Hollywood Is your media company going to make movies or are we just focused on the marketing Um I don't really see movies in the future but shows we're looking to do a lot of TV partnerships Um whether that's pitching shows or uh just having placements that sort of thing Ok Yeah lots of syndication What kind of shows were you aiming for Like like Emily and Paris type shows or like reality saying that Because I'm wearing a T I love that show I love that show Are you team Alfie Are you team Gabrielle That's a good question Um Alfie's accent is a whole vibe I love him I look he's going for it You go ahead You can do it to the to the accent right now I mean I'm a sucker for an accent I'm not gonna lie Yeah A British accent then Oh yeah There you go Yeah Ok Do you know a or what do we think I'm with you I like Alfie But there's something about Gabrielle is even though he enters the frame he's always

like lingering He's a lingerer does have a tortured soul vibe and a lot of it's season three the torch has got to end at some point Smile It's like the modern day sex in the city I love it so much It was created by Darren Starr who created sex in the city So I'm a huge huge fan I love the fashion love love the characters I love Darren Star Just such a girly girl show Ok I saw a guy and I was like please watch Emily in Paris And you like you never watch it I was like I'm not watching this Uh and then I saw the first episode and I was like this is amazing and watched all three seasons in like one weekend maybe two What other show did I tell you to watch that you enjoyed Do you remember No You know what you know what Not bad at all And like I just thought that was everyone's favorite Shit's Creek It only took 20 years to find it I didn't even know it's been out since 2015 It's like I think like 2016 whatever It's perfect It's like a legitimately perfect show Have you seen this show Of course Yeah Um lately I've been binging something called Maestro in Blue I don't know about that Oh you would love it Um it's Netflix It's just um it kind of feels like a little independent movie but it's a show and it's about this family in Greece and it just has all of these amazing storylines and you have to check it out and it's just beautifully made Yeah I think that's a lot of these shows where they're removed from America seem to be doing really well like below deck Emily in Paris Just some it just gives more adventure to the story Or is it do we think that because we're Americans because I also feel like Europeans are obsessed with our lifestyle Yeah Yeah Do you know any you know like buying Beverly Hills and all of that It's like the highest rated shows and it's watched by so many Europeans Right Right Right I can I can get with that Yeah I guess so They also looked down at us and some I mean when I went over there I was made fun of No no I'm serious I'll tell you something We were in a soho house I'm the only non millionaire there As your mom would love to point out um the conversation yesterday when she visited you in your dream She was like I love Kyle but he's gotta make more money I was like and so I was just making a joke I was just making a joke What was I things I should never say on the show for 500 for \$500 I had a dream about my mom and she was just like I love Kyle He just needs to you know do his thing a little bit more cash She said she did she did she did Where was I I have no idea They lost me at my mom Coming to me in a dream You remember you got at the house because we go and we leave there But everyone had got I mean like there's all these millionaires but they all got really drunk so we couldn't get into the next club So being my Jersey stuff I was like just let me do it So I talked to the doorman and I was like listen guy

I gave him the listen guy I wasn't guy The guy was my go to and I said listen guy and I talked to him I was like listen lawyer doctor what are they gonna do What are they gonna destroy your place Like let it go So he lets us in Uh and everyone was like treating me like I was Jesus because I talked the doorman down with all these people and then they started making fun of me They like turn it around They were like you're awesome You're awesome But you're American and they just go on this tangent all of them And it was like bad education terrible food attitude is just ignorant attitude And I'm like one person I'm like listen I did I'm not the ambassador for the country I don't know like you know I started I started clapping back and then they got really upset I had to represent America clapped back I don't care if you're a Londoner I don't care what we have We have a clip of Kyle and I talk about Emily in Paris We are obsessed with this show Uh Let's take a quick look Never had that experience I think I thought I thought it's interesting I thought it interesting that he he he did react out of emotion and I get that will happen to people especially if you're putting in a it it it he didn't know it the whole time And that's why I think he had reacted so emotionally but rightfully so however I think like ok you react like that Sure But like to let a day two days go by and that's all you said That's weird Like there should be a there should be some more communication Emily Do you feel that way Like he's just assuming it And it's like Emily do you feel that way Talk to me about it Here's what I here's what I say Right It's like we all know what Emily's thinking However if Alfie Mans up a little bit more I have a real change of heart right then and there based on what he can go through what I am I like and her a lot when he found out the first time by default inadvertently from the coworker I feel like I feel like Alfie is the right choice because Gabrielle is a fantasy Gabrielle doesn't like what does he what Yeah But a fantasy versus like but once it turns into reality she's gonna be a stepmom like they have not exploited anything that they have in common It's just pretty music behind every time Emily and Gabriel are in the same setting Like there's nothing I literally think they should be together for So do you want what does that mean Like like like that's the reason that we need to get married He's a chef and she's a marketer So get married please And break up with your current I just don't see that There's no actual uh but I like her and her and together they're the most toxic Two people together I ever seen they they hold secrets to their lovers in front of each other Tell the truth I mean I think this is also France how it's impossible They stop Gabriel million times a day It's my best friend's name is Gabriel His name is Gabriel Gabriel You're right

So the question is why are they able to like they play pretty pretty music over very toxic things they do when you really look at it you take out and you just watch the subtitles It's like these people are messed up Emily I mean it's it's it's light-hearted comedy but in the in the end of it if you look at it it's a serious way It's like Emily has an issue Like I don't care about the show at all As you can see this show that was produced by MTV studios at all He I told him I texted him one weekend I was like please watch Emily in Paris you'll love it And he was like what And I said you'll love it and you're like I don't think so And then I get like a message like literally two days later I watched the whole season I watched two seasons and then watching season three I was like oh my God I couldn't believe it It was it was really good It was really good She's hot Oh yeah Good question Do you think she's hot She's pretty She sure about the casting with her Really I think she's so pretty She's pretty she does a good job Ok So the requisite for me isn't if she's hot Is she emotionally like standard for that kind of a role I think she plays a role pretty well The thing the issue I had no issue I mean the thing that I noticed was the actual writing like if you take the pretty music out it looks very toxic That's what I was saying before Like if you just like look at from a objective standpoint Gabriel and Emily talking together these two are like just a match made in hell Like it's insane It's one question So what about the fashion How does what is her stuff expensive Oh that's a hilarious point Her her her ensemble costs like three times her salary There's no way Yeah But she's an influencer She probably gets some gifted You thinking Yeah I don't know Christian Christian if you're gifting I'm here Hello I don't know You know for me she just looks too young It's like a it's like a child It's like it it was the same issue I had with Bridgeton which I was obsessed with but that actress was just too young looking for me She does look very young for her Isn't she supposed to be like the intern that successful Like no no no She's like 30 something in the in the in the show She's supposed to be like 30 something Yeah Yeah Yeah Oh yeah She definitely uh yeah And I love I love that Ashley Park who plays her best friend I love her I think she's great She's good Yeah But Darren if you are looking for somebody for Emily Paris I'm available to her character Is that guy with the white hair who speaks French I love I love that guy I love that You love the show and I love that you love this show and yes I love it Well no it doesn't mean that she's gonna love the show close enough But I think it's important for for somebody especially who has a media company to be in the know about shows that are successful and are good and then you can um take you know your opinion for I mean I

always go based off of whether or not this is judgy though Like I want to work with people that are like minded and and enjoy the same thing I always like to So it's always like a barometer of their uh fashion and their comedy sense based on what they watch It's almost like how I judged you a little bit when I was like you like Curb Your Enthusiasm and you're like yeah And I was like awesome You're my new friend Yeah Yeah Yeah You gotta you gotta like you people who don't like friends the the show Friends I'm like well what's wrong with you What's the matter what happened to you as a child It's a good show There are better shows I'm sorry there are better shows Listen guys it was fun it was fun There are better there are better shows How often do you guys speak outside of work Are you guys outside of work too I call Kyle like five times a day and he always sends it to voicemail I just I just saw you get out of the park when I'm getting a call I'm like Michelle I call him He has become one of my best friends the entire world Um because we we talk about the show we just you know talk about life talk about I mean I talk very differently outside of who is your favorite guest Look I'm interviewing you guys Your favorite one of our favorites to say I think you are one of our favorites We talk about you all the time because you were like are you secretly married a lot A lot We don't fight as much as we still fight Yesterday was a big fight in a turtle fight I don't know because of my drinking that I shared with you Ok No no good And I love that you guys are covering pop culture now I think that's great And it seems very natural That was a Kyle True Blood uh contribution Just kidding No some of our favorite I guess Um We've had Olympic athletes on um This is uh this is uh what's our friend Tom Tom Tom Gallup Chocolates on um This is the uh lovely I am Blanking today Ally Webb Um Awesome And um yeah all and then oh you love her Chloe Lawrence You're obsessed Like Chloe B Lawrence Yeah Roger Um She's a happiness coach had just like incredible It's so great to see you guys grow Thank you We've done almost 200 episodes Um And each guest is uh oh yeah Each guest is uh incredible We learned so much from each and every one of our lovely guests Um This guy was hilarious Asher He says he got like an hour of sleep Um of the Balls the Balls Um And this is Candace Nelson who created Sprinkles Choate We have so many amazing people Um So I can't say there's a favorite guest I will say the one that I'm inspired by the most is uh Ken Chen and Norris in or that we're going to we can't help but like start screaming at me Um why am I I just blanking I just know that she's the mom of blanking I'm blanking on I'm blanking Keith Harris The experience I I mean there's so many people that for black eyed

we've been keeping tabs on you You've got a few different talk shows Thanks for coming back to our thank you for having me back Of course of course What's been going on lately Yesterday was the two month anniversary of me turning 36 a couple weeks ago right Yeah Birthday Yeah Thank you so much for sending in a birthday video from Jersey Jersey North Edison Edison is it's like it's yeah Anyway I I bring up little India because I was born and raised in New Jersey but my parents are from India So that makes me Indian American Um but you you grew up in little India So uh yeah Yeah Yeah Yeah Yeah that's so awesome What made you move to the west coast The weather the weather too How did the snow Oh my go snowing 2013 March 8th I drove I left New Jersey and it started snowing and I was like maybe I should go maybe I shouldn't start snowing We're like alright let's go like the snow and the rain and the cold where the deal breakers remain Yeah Yeah I mean we came from the garden state to the golden state There it is I don't know why they call it the garden state It's just raining gold Soli actually means golden My name I had to have been here Yeah I asked my mom like mom what are you doing in New Jersey Like I should have been born in California She's right over there I love her psychological license for uh family carers in New Jersey So that's why And so I told my mom I'm like mom I was born in New Jersey but I hate gardening It's dirty it's filthy I'm like I I should have been born in California Better late than never though I love that you want we want to know like so you were recently on dating deal breakers right You're dating differently dating different All the we're gonna play a game like and we're gonna play a game with you in a moment Oh boy That would be really fun Uh but what was it like going on dating differently So they found me it's a British production company Future Studios They found me a couple months ago after I was on a different talk show you know opportunities keep knocking on my doors What can I say I'm very grateful for a couple of months We were going back and forth and um you know confidential dating methods haven't worked for me I don't want an arranged marriage all due respect Um which is when your folks my folks would potentially choose my husband Um I grew up in a very conservative way My parents are very well intentioned but you know growing up I wasn't allowed to date socialize or dormant college Fast forward to today at the young age of 36 Um I still don't know how to date so I don't date instead I eat dates every night in my apartment That's cute I love it I love it I love I love eating That's why I'm so sweet You're always so sweet I mean I know that even though I don't have much dating experience um I know exactly what I want

and don't want in a man and so I can definitely you know I have so many deal breakers Actually I came up 10 to 1 like the top Right Ok Got it Ok let's go for it What do I want to know if he exercises or not I work at Equinox It's a luxury fitness club Like I just came from the gym as you can see I don't know I don't work out with all this of course but still you know he's got to work out I have a fit body or anything but health as well as well Number one number two I wanna know is he there's a term called apparently Open Dating Yeah I wanna know if that's what he's doing like that and it really comes down to whether how many other women he's kissing and sleeping with simultaneously because I'm not doing that You know I'm a I'm a one man woman you know same same same I can't I can't get behind Like you have a question What was the hand raised for the subject Ok Did I mention um I'm still a virgin It's OK You know like kissing and no judgment But all these people men and women who lead promiscuous lives it's not exactly healthy It's very risky right And so me I'm still a virgin I'm proudly declaring to the world I still have my card Thank you Thank you Um I don't have any of those issues you know health wise but you know from a health perspective I want to know how many other women he's kissing or sleeping with at the same time Yes Thank you very much I raise my hand on my own show So if it's the first date are you asking these questions on the first date Like how many people are you kissing on the first date Oh you know I've only had first dates because when the guy finds out that I'm still a virgin he disappears It used to be one and done for me I would go on a date and I'd be like nope done No done I mean I think you to this If you do only one date there's no way to get to know someone I got to know you more That's what we did A one date done She was done We never spoke for a year but then we came on the show and she was like oh you're a cool guy but you're a normal person She had a full a very different uh perspective of me based on this date like literally was wrong It wasn't even like a piece of me It was like in the wrong direction totally wrong I will say I got to know you in a in a different light So I will go back to the one and done I do think my mom would always say give a guy a chance I would listen to I would listen to things and I'd be like that's not for me that's not for me that's not for me And I wouldn't hear these these like talking points And then I got into a relationship where I heard all the talking points and actually did the option It turned out well because it brought me to where I am right now which is exactly where I needed to be I mean just having the honesty up front is definitely a plus but you know people can't just open up that easily that quick Uh So that's my next question

is like because I feel with what you want in your life right You want a like a it seems like a real real real connection a natural connection with the one undone How do we get there In my experience in my opinion I know from the get go if there's any future Yeah there's there's just a a feeling instinct Yeah I'm with you on that and I'm with you on that But like I will say getting to know Kyle had changed my perspective on dating because I did one date with him and I was like no not not because you were an awesome guy Clearly very awesome very attractive But like I wasn't hearing talking points So like all that she was looking for I was saying the very opposite because of how my week went Yeah I mean and like when you get to know someone over the course of time like you can understand how they are based on where they are and then you get a better idea of who they are I do think I do think it's good to give people at least like a couple of chances But if you know Right Exactly it's a double edged it is our most valuable commodity and once you lose it you can't get it back It's unlike money money when you lose it It is unfortunate but you have the chance to get it back and I have a finance degree I know what I'm talking about Ok Are you are you also an attorney No no I went to law school That's someone else Ok Ok I'm in finance also So I I get the like I need this this and that It's like it's very very very meticulous I can appreciate that So let's go down more So So yeah so that's number two number three we get started We're all does does this guy have anger issues Oh like I'm not gonna deal with a temper but how are you gonna know that on the first time I know that's that's what it's charging driving in the car with You're from Jersey So like 98% of the men coming out of Jersey are in some way shape or form You get a little bit heated pass is a different sentiment in Jersey They they frown upon passionate as well They'd be like no I'm just pissed off now but like ok ok it goes both ways What if I what if I'm always an angry and can I use profanity here Use the B word for women Let's listen we know what the word is you know it goes both ways you know So um anyway moving on for um the number four and five kind of go hand in hand lying and infidelity This is right I talk about my hands my hands started talking a total Jersey dude So like how do we get to finding all this out about somebody if we're doing the one and done But we don't want to waste time Listen I don't kind of want to find you a guy solutions I'm like let's get her a guy now I've never been looking for the one and done I want the long term eternal partnership relationship You know But in my experience what's always happened is the one and done Are they one and done Yeah They're ghosting me just because I won't have premarital So hold on let me the

dating different guy He was very interested in you Yeah But he was so dull that I want it all No thank you No please OK So that was a reality TV dating show I went on it for all genuine reasons You know I was my my my complete absolute self because I know one lie leads to another lie and I don't want to be a fraud to audiences I am I was my complete honest self He asked me what I do professionally I told him about equinox I asked him what does he do He said he's an actor That's the second that I was so disappointed I'm like how do I know he's not acting right now Oh you know that's good No because I get that all the time It's like oh you're an actor But how do I know you're not Actors are the best liars And we're like we're not though we know the truth Like we know the truth and we're outliving the truth in front of the camera Whereas in like liars are just liars It's not like we have to be a profession at it The best liars I know Don't have a job Ok like it's not actors but you're got to look out for it It's just the liars You have to put that out there He had adult personality and he was scary looking really on the show I thought so a little bit too I was a little shocked you even went to the bedroom with him because I was like this guy that's a different that's a different that was not the d I didn't like that dating different from the one that started streaming online last week Um He we never exchanged numbers after cameras wrapped You know he never wanted to keep in touch In fact yesterday he commented on my Instagram I had chemistry on camera It looked like you had chemistry not from my end I wanted to but you guys were dancing and I was like I something here you can talk so funny because you were just like you know like I mean he's nice but doesn't know I heard if it's not an F Yes it's an F No Yeah Absolutely Yeah I'm moving on gun ownership I've never owned a gun Yeah Yeah And that goes that goes I've never you know what if he's an person he uses it on me one day like a worst case I don't have a temper What if he kills me I don't have a gun What if he shoots me lies about his first name Glass and everything about him And what if that that's what I do Paranoid You know what you should do is you should have a checklist I do have a checklist but this is just a deal with the checklist This is the deal What do you bring the check Obviously we're gonna work on we're working on a show together Yes I wanna I wanna film you on a date and you you just literally like over the over But I have a I have in the in the process M AM studios which is my new um studio Um And I am you know obviously working with people in that I think for that Um We we have a title already in the works called The Virgin Diaries Um And my idea is that you go on a date and you slide over a piece of paper and that's the checklist and

you're just like just wait and see me some of it after she signs up What what some girl throws a list over to me on the first date you would say would you want to read it What I would definitely want to read it You read it you have a I have a you have you have preferences what you're looking for in a woman I do but i it's not written down What are you looking for in a woman Yeah Before we get out of control Sorry Ok I'm halfway done Which one of the six I I didn't read them yet If a woman a woman hands you a gun ownership Let me ask you a question Now my dad always said this He's like listen I'm not asking you to get a weapon but if you don't have one you get a tax it's kind of your fault I mean that's a deal breaker But as a deal breaker I mean I don't think again there may you may not break the deal I'm I'm I'm choosing my words so careful Ok You may not break the deal However just having a deal to break may be a deal breaker Like if she's like well I don't want you to own a gun It's like well I own one But what if I didn't want one And that's a deal breaker Ok We can't do this then So it's it's well I would love to see how many people would actually stay after you where we are Yes Depends where we are I believe I work in fitness now Right Prevention is better than cure Same thing when it comes to gun ownership Why do you need a gun If you if you're not putting yourself in dangerous situations maybe dangerous situations are dangerous because you can't you can't help if you're in them sometimes like the situation is dangerous because I didn't ask to be in this like if I'm in an airplane and it starts plummeting I didn't ask to be in a plummeting airplane instead of plummeting without my approval makes it dangerous You know what I mean Break into a house the house the house owners weren't like hey over here they didn't want it to happen You know you can just in terms of you and I are from two different cultures even though we're both from the same state But just in my lifetime in my experience I my my parents never owned a gun I've never owned a gun I've never been in a dangerous situation You know with that that could be the reason why you don't need a gun I think you don't need a gun question Did anything happen with someone with a gun that makes you not want the gun I've just heard read a lot of stories on the news about the news the news That's what it is I mean I I wouldn't I wouldn't necessarily want a gun around me Like that's a question Someone breaks in the house What are we doing What are we gonna do What are we gonna do and call 911 The police office the police station is 10 minutes away The police officers are eight minutes away and the guy is in your kitchen What do we do that We're not gonna think about it No worries We're not gonna think about it before It's time to go

halitosis That's a fancy word for bad breath Um Two left feet I'm a dancer He has to know how to dance on something This is what we're gonna do We're gonna give this checklist before we go on there and then um oh I don't like facial hair So your out you like relaxing and threading Um why can't the man shave What are you dating A 12 year old The man's not gonna what man this is a guy who has a beard or do you just not grow a beard because my dad doesn't grow a beard So he's always Cliven guy Oh and finally finally um smoking anything cigarettes marijuana being intimate Like I don't want to inhale that So your turn because we've been talking about our deal breakers What are you what are you looking for in a lady Uh well I mean what I'm looking for opposed to what I'm not looking for a deal breaker Ok What are you looking for What am I looking for Yeah What are you not looking for That's good You know what I'm not looking for is uh bad eating habits Oh What's a bad eating habit Uh she eats fast food Uh she you know she wants like a good body but she doesn't work for it Oh I want this I'd rather just go get Lipo you know that's not right And I'll date an actress because personally I believe that actors and actresses understand the truth of circumstances and they outlive the truth which is why we can watch them Like if you're lying on camera if you're on camera it's very easy to tell if someone's lying He makes it very like an actor can't just lie to the camera He has to believe in something that is true to him that also affiliates with the story and that comes across as a character Um so if I catch her and lie too early I'm just like so you're a compulsive liar Ok I I can't trust you Um the eating habits the lying that kind of that kind of covers a lot enough that you you and you and what's the guy with the zebra shirt Zebra zebra do it We were nothing alike Michelle met some guy She was like what's the criteria He goes He goes oh well she has to be 57 She can speak any language She just has to be thin I actually I would love for you to meet him What are you gonna do Sure I guess we should get you gotta meet this guy sunglasses on the back of his head Is that a deal breaker It's it's to meet him He has to meet me So everyone he wears on the back of his head and they look like he's looking the opposite way Is that a deal breaker No not And why does he do that for him on the show We have you come on we talk about it for sure We can talk about this Um But unfortunately we're out of time Um So we love you so much Thank you for calling back on the show I love you so much Likewise there's your camera number three let people know how they can get in touch with you and connect with you and learn more about your deal breakers I am everywhere and anywhere online social media linkedin my own website
