

GDL Feb 21, 2023

That is and then just yeah slowing things down Stop Yeah that's too much No my reggae dance the the back I I say to you that you made this help I get like I literally could be could be love We always do a dance party every day Welcome Welcome Welcome to Good Day Love Welcome I think that song was in response to last week's trash bag and bagging incident We'll tell you all about the trash bag bagging incident momentarily But in the meantime welcome to Good Day Live We are the feel good show here on Amazon So glad that you're tuning in I'm Michelle Mira along with Mr Kyle Trueblood We've got Andy Natasha We also have a special guest Marsa Gold in the building I don't know if she's popping on but she says she just said no she just said no she doesn't want the MVP award yet Um Today is let's say Tuesday the 21st of February 2023 We're so happy You're you're here in the studio with me and everyone else Um Yeah how is everyone doing We got the chat let us know you're tuning in from we want to connect with you and see how your Tuesday is doing How's your Tuesday Tuesday It's a big opportunity on a Tuesday Tuesday Tuesday It's really about the Tuesday Every day is an opportunity Even on a Tuesday it's an opportunity Your accent is terrible Even though you're from Jersey You telling me my accent is terrible from Jersey Even my accent is better than your accent It's not you just whispering Ok Tell them about opportunity Tuesday for those that don't know what opportunity Tuesday is Well it's about the socks It's all about the socks It's always about the socks for you Are you in Are you out Are you in Are you out Hey how you doing It's about the socks You got two opportunities to 2 ft Don't put the same sock on both feet That's basic Ah you know I used to love the mismatch socks Is it Miss or mix You know that's a question for Alexa Yes Alexa She's not working She didn't work yesterday She's not working today Oh we got it We got it We got it We got it Thank you We heard that you need to be unplugged Sometimes everything just needs to be unplugged again and then it will work I think we should go our separate ways Valentine's Day worked and then it didn't it was hot last week It's hot right now Really communicative and then something broke there And what did you do You didn't get her flowers Maybe I missed the chocolates to chocolate And if you're not getting any of these inside jokes make sure you have all good underscore Day live on Instagram and good underscore Day live on tiktok where you can see all the behind the scenes stuff and latest up to date things I recently just posted a video of Kyle True Blood dancing in

the studio because we have no fun here Ever ever ever ever Kyle's leg is like coming out of the curtain He's like jamming That video has like 1000 views and over 100 and 15 likes and uh 12 saves I don't know that it is not in that video funny because you're just being your true authentic self And I was like are you just always goofy You are I'm usually goofy I'm getting to know you every day and I love that I have like a stoic presence but somehow my goofiness resides right underneath Sometimes I feel like you need to wear a crown And other times I feel like you need a trash bags in your hand like your book bags on their day like a knapsack with a pole Your backpack smelled so bad yesterday we had to put it in a trash bag It didn't smell bad It just smelled like a certain substance that is legal in California It is legal in a lot of places but you know it takes a certain you know like like there must have been something you don't know why it's not like that really Ok Alright Bleeding the fifth we have like so much entertainment stuff that went on like in the past couple of days um at first I wanna say um condolences to hate and pain a tear She lost her brother um she's been through so much this girl Oh no she um you know I I remember her story so well apparently like um she had just booked Heroes You saw that show on NBC Actually I knew Hayden Pan Pan Yeah I think I knew her from remember the Titans Oh yeah Well cheerleader No she played the coach's daughter befriended the players That's the only time I ever saw her Yeah Well she was also on the show Heroes on NBC which was a huge huge hit which I was obsessed with I never thought I would be so obsessed with the show that in 24 0 and Lost Did you ever watch Lost I actually did a play that made fun of Lost in New York This writer wrote this play about how there was literally no ending and because that's what lost is that's life There's really no ending I don't think there's an ending I think that life continues and it continues and we're getting we're getting super existential But um her story is very interesting Um she was uh she was auditioning for Heroes Emma Emma Stone was waiting in the lobby to audition for Heroes as well She overheard Hayden getting the role for the role that she was auditioning for We were just talking about this the other day What that's like to be in a waiting room and then hear somebody else getting the job and then it's like why still like see people after it's like you got it back all the way up right Like you have most actors once they get in the audition room have already felt like they succeeded It's so hard just to get an audition I was walking through my uh my first ever industry party and someone comes up to me and they were like it was like a dream come true She was the casting director from Oblivion right I need I need this character

you're perfect for she's like this is exactly what I want right Yeah Yeah Yeah
So II I read the um it was a great script I go into the the audition and I'm
waiting there and it's like when you're going in for a big role there's there's
no one there So you can hear just hearing this story and a guy a guy comes
out looks just like me but with like a huge fro and uh no really And the door
opens flies open he like flies it open walks out and they they two people run
out of the room and stop him and pull him back in They're like oh my God
you were so amazing We have to see you And then so he goes back in and
like oh can you just wait like 10 more minutes Sorry And like they put him
back in what was the voice that you just did And they put him back in and
I'm sitting there I'm just like oh good great Because I have to beat that guy
that they already love And uh so he comes back out and they just basically
off the roll right in front of me and it's just so comical because it's like it's
they're like oh would you like the role OK Great K will see you now And it's
like why would you even I saw you see me see you Why don't you just let
me go Just give me what I was saying was that it was you know it's a
disappointment because you know the way I even got the audition was like
oh wow this is gonna happen and then you get there and there's this huge
roadblock right there Yeah Yeah Doesn't mean you didn't get it It means you
probably didn't get it Well everything's all about relationships right So you
never know why you are where you are doing what you're doing because that
could lead you to your next great opportunity Oh my gosh That's so funny
You said that the casting director I say that all the time in that audition is true
But right now the casting director in that audition No they were Charlotte
Chronicles Wait what they saw Charlotte Chronicles They came they came
up to me at the L A live when you won the best writer They they came up to
me They were there Yeah I don't want to say her name I don't like to drop
government names She didn't come up to me I'm glad that she like no no She
recognized me from the from the audition She was like oh my God you were
amazing I was like I was not good And then she saw you in Charlotte I went
to a break up the night before and then the guy got the role right in front of
me It was just like the world was just like this isn't yours It's OK You know
what is for you will always be there for you But you know I I think what's
for you will not pass you by Um Let's talk about more entertainment stuff
This is incredible OK You know how much I love uh Emily in Paris This is
Ashley Park She actually had um child can childhood cancer Um And Maria
Kalila is messaging right now as we're talking Um um but um yeah shout out
to Maria uh with the IP we love her Um or maybe she was going live I'm not

quite sure but this is on the today show And Ashley Park is saying that she always wanted to be on a talk show She suffered from cancer and um she always was like I am not going to allow this to get in my way Um And I want to one day have long hair and I want to one day be on a talk show talking about my life And here she is talking about her life talking on a talk show and how she beat cancer So I do believe you know it with brain power and true unwavering belief things can happen And she's on one of the biggest shows of all time Emily in Paris which we are both obsessed with because you came in the other day talking about how much you love Emily and Paris I'm glad you know it makes me so happy that you gave it a chance because I put up one episode in the middle of season two and I just ended up in season three It was really good What did you Oh so you saw the ending I saw the ending What do you think Wait So alert alert If you haven't seen Emily Paris alert get off right now because I don't get off Just mute It just mute it like just mute It just get it just watch us I told you Alfie was too emotional What He didn't even give her a chance to explain Oh so he just walked away Without hearing her Huh I wonder if I know anyone like that in my life anyone like that in my life who just walks away without I'm sorry you just you're you're one of my best friends have heard her out You should have heard her out instead of just leaving Well I mean he listens to listen to somebody that's not his girlfriend not even his girlfriend's interest his girlfriend's interest girlfriend out his outs the other guy and he hears that and just leaves his girl that she has to say Yeah Yeah Yeah Huh And that wasn't the right move I think that was great for TV We're talking to and who just followed us on youtube But you too can do you can be a subscriber You could be number 15 I'm always I'm always down for cutting your losses but there's always time for communication Oh is there Unless you're playing in stocks then you gotta do it right away I don't think he I think he made the right decision However I do think that well I think that I don't think he do You think he could have swayed Emily's decision to really stay with him And I think well I don't think I don't think Emily's gonna go with Gabriel Gabriel Gabriel Gabriel We're saying it wrong whatever whatever I I'm gonna put it this way Look how Emily is so shocked when he says that Camille is pregnant That that just shows you how much if you like told me that you like had a girlfriend and she was pregnant What you've been crushing over over the last three years It's not gonna matter like that much love for you But like you'd be concerned if like I'm staying on the show Not like oh my God our lives together are not gonna happen Like you can see that life will be different

You're missing the point I see the point I'm doing what she's what if this is the story drama drama Well if he stayed and talked there would be no season four I do think he's coming back in the picture though What do you think And you don't think he I think he's coming back in the picture He is he coming back They need competition Still Look how they put them on the same soccer team They they can be they can be they're always competing Those two seen it I don't know Natasha Have you seen it What do we think What do we think Ladies I'll be coming back in season four I'll be coming back Yeah he's coming back in season four season Too quick No he's coming back Well anyway yeah announcement he will be in season four So just fy I Marissa killing it Um I told I told Kyle girlfriend I love all in Hi I don't know who said hi Let me know who's saying hi live Studio audience with our other team members Um this is what I've told Kyle I was like we should just tell everyone we're in a relationship together and get more views This is TJ Holmes and Amy from Good Morning America caught smooching Look at that smooch Are they still doing this They're like with you they're with each other every day I would go nuts with you No offense I love you to pieces But yeah might as well go for they're fired All right let's do it in public I've never seen a couple PD like that That's hot It's pretty hot but like it's always in public Like my dude they're caught they're caught locking lips during their steamy Mexico vacation Wow Wow Wow You wanna go to Mexico you won't get that picture but you wanna go start a rumor and then you'll see the chat just go explosive Are they aren't they Um ok Uh I was kind of like carrying cash Is that funny Um And then oh this is so stinking cute Look at these two little guys These are um the brothers the the football brothers Travis Kelsey Look how cute Look how cute They they are This is the message he said the best team in the business Travis Kelsey shared the heartwarming reason why he wears number 87 Um His brother's emotional reaction and then look at the photo Oh my gosh Look how cute That's awesome And that the cutest thing in the world I don't think that'll ever happen again I don't think it will You know actually that's not true if it happened once it will happen again as history repeats itself until the until the Super Bowl until we heard about five years Yeah The senator was our was the senator that took us to the Super Bowl last time and won Yeah Yeah Yeah Well he's not a he's not a specialized player So you're not gonna realize him that much Like oh they are the last people to get realized in the entire game He is a legitimate probably like top three center in the league They're so cute Right Look how cute they are Look at these guys That's true That's a good

question Probably Travis just because he's like he has like a better like he looks like a better look to him Like the center is like a huge big fat guy But the thing is uh for Kelsey for uh what is it Travis And what's his first name so he can hike the ball and then sprint to the sideline essentially and like block a cornerback which is insane Centers shouldn't be able to pull the football corner with Kyle We'll have to add that to a new segment on Good Day Live Um and then um condolences to structured Beltzer and his family best known for his roles as Detective John Munch on Law and Order SVU He died at the age of 78 Um I was sending lots of love to him and his family Um um listen there's not there's never enough time whether you lose someone at 100 and one 78 28 whatever Like there's never enough time in the world Um so sending lots of love and condolences I don't know Is he on the screen You can't see him um sending lots of love and respect to his family Um Big loss um especially uh SVU has been on for hundreds of years So like you know we you never seen an episode Andy Walt has never seen an episode Yes you can you can watch it I was not that um he was on Law and Order SVU I played a dead hooker on um NCIS uh Los Angeles and the funny story Wait listen to the story I'm gonna bring a picture of this This is hilarious I got cast I got a phone call I had just I had just audition I just interviewed with Sharon Stone at her house to be her nanny on the weekends And um I was terrified and then I was leaving Sharon's house and then I was like please God please God do not make this my job And then I get a phone call asking me if I wanted to play a dead body on I got it And then I was so excited and my uncle my godfather called me right as I got the call and I called him back I was like Uncle George Guess what I'm gonna be on N CS Los Angeles You know what his first question was Are you gonna play a dead hooker I said that Yeah And then they cut me out because I was smiling too much in the in the photos It was just like stock images So like my hair was super dark and they like like I got like busted my face was totally busted open They put blood all over my face I like had hair My hair was in pigtails I looked ridiculous Um But I was smiling like there was no other I got I got cut still This woman not smiling once someone just tell her something I was on M CS Los Angeles I was meeting all the cast members I like there was like a like a uh like the the uh what is it Do not cross line tape around me It was amazing and there was like fake blood I can be when it's I mean I was also like 18 OK Uh You know I was like super excited Um OK Um And then uh there's so there's a lot going on Kelly Pickler husband This is so sad Um uh She he died the other day um to a self inflicted gunshot um which is super

sad and we're sending lots of love to Kelly Pickler because she's an incredible human also incredible singer So lots of love her way And that's so sad It's just so sad You never know what's going on behind on underneath the surface So always be kind to people and um you treat them with the utmost respect if you can It's not that hard to share a smile Dave Chappelle shared a joke but it was like so holistic and and actually kind of thoughtful Um he's great I think he thought he brings up Anthony Bourdain Oh yeah Yeah Yeah Right He told a pretty good joke about him though He did and then he was like and then he just like gets off Anthony Bourdain He's like I had this friend in college who was really smart from the hood Yeah Yeah Yeah Went to law school met a girl Um he told her not to marry her too early He did Dave told his friend not to marry the girl too early He ended up marrying her too early Then she divorced him before he got out of law school She took half his money which he didn't have he had none of it to begin with So he ends up So then like fast forward like 10 years Dave's taken this kid to the foot locker and who's working at Foot Locker this guy and he's wearing the referee shirt the whole thing takes takes him out for drinks and the guy tells him you know he's still living with his mom He never he never ended up graduating law school and he's like well the point of the story is not this the point of the story is that he never kill himself Thank God I mean like you just never know what's going on under the surface Like some people have like on the surface amazing lives but you just never know what's going on in me and vice versa I think that joke was to tell how how complex this situation really is Yeah And Bruce Cardenas our buddy Bruce uh told this uh really he mentioned this really great thing It's that uh we're all just like a like a step away from like you know like a like an actual crisis that could put us on the street that could put us in a position that that you know less fortunate than others And so you just always never know and just to always be very uh grateful for what you have and to inspire those along the way We love our buddy Bruce Yeah Uh um and then uh so this is you know there's a lot going on I like was I was like I gotta say this I gotta say this Yeah Baldwin was officially convicted of manslaughter Well he was the producer Yeah Uh Yes he was Yes he was Yes he was Yes he was Yes he was Let's go But he was he was on before we start repeating the same words I might be wrong I might be wrong because it's not the news This is just a media show I don't know Oh right So why was he But they said that he was Oh weird Ok Well never mind Uh stay tuned for updates on that one this is hilarious Let's get into funny stuff Can I have the volume on this Where's the volume on

this doll D Carrie and carry with the Sea Ma I'm so far and a girl You a great Danielle D you broke my heart I love you from the start I got the thing Viola Davis my woman can be Kate You're a genius and the ladies in the room supporting and leading all here I presume Hong Cho Dolly de Carrie and carry with the sea Ma I'm so far and a girl You a great one Danielle D you broke my heart Michelle I loved you from the start I did the thing Viola Davis my woman Kate Kate you're a genius And Jamie all the ladies in the room supporting and leading all here I presume Hong Top Dolly de Carrie and carry with the sea Curtis loves it I didn't think it was that bad Did you think it was that bad I mean because the a couple of the shoutouts worked Um I think whoever's in the pink dress should have practiced the song A few more times she looks like she practiced It just sounded like it was like they gave her a mouth full of words So it needs to roll off the tongue a little better And then maybe we are feeling it more I don't know I mean I didn't think it was that I didn't think it was that bad Um but apparently she deactivated her Twitter account after the online commentator slammed her opening number at the Bata Awards where she's saying sisters are doing it for themselves and we are family as well as an original rap where she shouted out the award shows female nominee I'm sorry I just think it's funny It's not funny to just wait Can we can I just show this Look look look you know what It's not funny because like she put herself out there she tried her best as an artist to like entertain us I would do this This is like a nightmare to artists Like you have to deactivate your account because it was people hated it that much right I would do the same thing because I do care what people think But if it's like all of the internet is like coming after me and feminism it was not good No no Um And then I don't I oh OK So this is this is also um this is so Harry styles drinking out of an Adidas sneaker Apparently this is like a thing that people do in Australia Not nasty I think he's a good looking dude But like that's disgusting I don't can get behind Australians being really hot But do you have any experience with that Some of those Yeah I do But some of those some of those antics gotta say you guys are another breed Got to say What do you mean Antics Oh like with the shoes They just have you ever partied with Australians I don't party Kyle This is my party Ok I love partying with Australians but it's gonna be different than you're used to Yeah Yeah Pulling up more entertainment stuff So much entertainment stuff happened like the last day uh Selena Gomez came out about her body changing and like people are like she's gaining weight she's gaining weight to leave the woman alone Who cares if she's gaining weight It's it's because

of the medication that she takes But the fact that she even has to come out and say it is insane I mean leave the woman alone leave her alone It's not like she's like obese give her I mean even if she were like give her a break Ok Number one we should never body shame anyone However if you put yourself back to the Pamela Anderson episode that's what I'm saying If you put yourself in the public eye and make and make huge profits off it this is the other side of the coin You know again I don't think anyone should ever body shame anyone But people are going to ask questions if you're in the public eye and you put yourself there for a decade So if you were to gain a little bit of weight people would start talking about it if I made millions of dollars off If I gain weight I don't think it's different for men than it is for women That's just this is facts facts facts Yes You know that we all know that Don't you can debate it It what about Brendan Fraser He gained the double chins for the movie No that's actually prosthetic He then put on a prosthetic to make him look like he gained even more weight But when Brennan Frasier came out in public it was like a month long conversation about how he gained weight He was like he was like a Matthew mcconaughey at one point And now he's like you know he's a little bit plus size So it's not it's not exclusive for women to be victimized I didn't say they were victimized I just think they I think they get the I think most women are you know whatever Anyway that's it They're just dense So like when one of us gets made fun of we don't like rally behind them we just let them dry you let them dry Did any did any man come out and protect Brett Frasier when we were all shaming him from gaining weight Did you say anything Kyle's got a lot of uh stuff that you wanna share with What do you got What's this What was this social network Um No we were just talking about it the other day So I said it's a good day Live Um Kyle Show producing what Tell us about this Why why did you pick this Well it's just it shows the dynamic of startups and relationships and I just thought it was a really interesting intense conversation between the three of them the three main characters of the social network What's happening here I didn't see the social network Right Wow And uh we are a startup If you if you think we're like a big man operation we're not there's only four people on this show on a daily basis is here today Uh But like this is a four man team right now So uh it's not a whole lot You think a lot goes into this Um But we are a startup and um we are doing very well not doing bad Um And we're just getting bigger and bigger We are I think oh I don't know You sent that to me You didn't hilarious It's just kind of it's just when you when you go down OK What's

this What's this Um oh well this is just a coloring book made by black people I was like well it's Black History Month So we might as well talk about it But when when when I just wanna like state like when black people say for us by us we don't mean only us We just we just appreciate there's something for us in general but I don't think but I just wanna say like in America these days you know it'll come out that's a little it's a little it's a little uh how should I say segregating So my brother so my brother wasn't in the wrong for wearing a bright yellow Fubu sweatshirt when he was 18 wore a giant yellow giant yellow sweat shirt And it was like I was just like what does stand for And Andrew was like for us by us and I was like who's us Yeah that's ridiculous I'll have to find a photo of he had his own fake record company called New Kids on Joe Block Now the next one is just because I like funny stuff What's the next one It's a man at a PGA tour who was watching and had a bit too much to drink We just want to bet if he falls or not Oh what happens That keeps happening Hashtag Startup Go ahead What are we looking at Does he fall or not Oh God 00 God Ok Does he does he take does he fall Andy He's like that's pretty good Is he is he drunk He's drunk He's drunk As I say you don't know what he is We go oh that he is there He is Did you think he was gonna fall The will of a lion The will of a lion That's ok Uh uh Next uh Kyle True Blood Let's see What let's I like the comedy What do we have here I'm a New York guy So when New Yorkers do things uh I just love it anyway So NYC as you can see has banned dogs on the subway unless they fit in a bag It's so New York We gotta we gotta we gotta you gotta show these pictures Ok I'm gonna swipe left for you guys Ok so here we go My first man is not taking no for an answer That's just the New York way Oh yeah my dog can't come home without a bag Watch this That dog's not even taking the ground He got hoist it up And also my man look at the face though There's not a dog under £80 These New Yorkers these New Yorkers don't care Ok Look at my man Look at that face Life is like like life doesn't get better than the than a man This one just cut the the holes in the back like you're gonna walk yourself I'm not carrying yourself It's essentially just like a like a like a dog It's an IKEA back Yeah they get those out for free when you buy a creativity on this is next level What the face I love the face That can actually be a painting That's cute Oh my gosh my baby Your baby I see you doing this Oh my Lord What is that that backpack That a husky That's a husky Wow I'm in the are you kidding me right now And my baby boy Oh look at that little face Look at that little face What else does But just to stay on our animals this is Kyle for the for the record That's a chunky boy That's a

chunky cat What is that cat Chunky cat has become the top rated tourist attraction of a city in Poland So people are seeing to like paying to see this guy They want to go see the cat How much is that worth is probably \$20 million The cat the cat also known as Chunky Baby gained popularity documentary according to business inside cat tourist attraction And can you pronounce that word SZC I wanna say uh do you see that I'm almost thinking like you know the Chinese food Thank you Probably shouldn't think about that while we're looking at it Uh Yeah No it's just doing it It's just doing it Oh You did it Why Oh gosh we're now we're being told not to do anything What what what are we what are we looking at What's going on here What's going on We're stand by stay tuned Don't go anywhere back to you babe back to you babe What are we looking at the last scroll all the way down Oh go go go go go go go go go go go go go go go go go go True Kyle's birthday March 1st So if you're watching and you want to send gifts to Kyle what's your address No no you're not gonna do that Um I was gonna give the address at this place that I was like that's not we're not gonna do that either of this thing Oh Kyle you wait what's going on Yeah Yeah Can you scroll scrolling Scrolling down an ipad Do do do do do do do do do we pull and looking at wait Are they engaged Maybe God kept Emily from going to Disney world her entire life so that we can have this magical experience together What am I looking at Oh my God Are they engaged I think What am I Those are some sick sunglasses Miss Ford they're all the same where dreams come true Inspired a F by Walt Disney story Vision time to use that imagination more very cute What am I What am I looking for I know I wanna go to Disneyland and you just put put in the open wound What's happening Oh she's never she never ever win for summer ever proposed to her for some reason coming It's Emily it's coming I know you moved in with the guy It's coming The ears are so cute on you I love Disney so much It shaped my life And also 100% shaped her life hardly hurt me At the same time standing in line at a grocery store I want to break into song and look at a guy and be like oh maybe it's him It's like no no no expectation unrealistic expectations Little Mermaid I mean I grew up on that movie She gave up her voice to be with a dude She didn't even know That's insane I never let my daughter watch that movie What the movie is Great Give up your voice Let her be old enough to understand that This is give up your voice Let her watch the movie But tell her that that's not a thing Do you know how subliminal subliminally damaging that is I'm telling you I like grew up I'm not gonna give her pay just so you know No we're not watching The Little Mermaid That's it The Little Mermaid is such

a she's little you're a big mermaid You're a master mermaid Welcome to Disney 2005 100% Yes And brave came out and then you know what's wrong with the That's true And the Frog I that produced by Lin Manuel Miranda The music Oh that's cool That's cool Yeah that's cool Let's appreciate a big hero of sex Has nothing to do with women but it was really good Disney movie How cute It wasn't Disney Pixar Did they go to Disney yesterday When did they go to Disney I'm gonna go to Disney like look how how to do right I asked you if you wanted to go to Disney with me and you said no I said we can film it and we can show it on good daylight when you're like absolutely not So what what No let's go to Six flags No I don't want to go to Six flags Six flags It's so 078 There's a six flags 07 A no there isn't in Jersey Yes there is no Disney in Jersey flag 06 flags in here Straight up the 405 Like like maybe 30 minutes off Sherman O I don't know what town it's called It's like probably like a right above chats Work Is it No Yeah that's it No No Oh my God Magic Mountain is Disney Yes it is I thought Magic Mountain was Disney Magic Mountain in in Florida Magic Mountain is Six Flags but there's a magic there's a magic something in Florida in Florida There's a magic something Yes there's a Magic mountain in in Florida Yes No no not Magic Mountain is not Disney It is part of Six Flags Greater Adventures Is it a totally separate entity as far as theme parks Google it I wanna see I wanna see that I believe you brother Where is Magic Mountain There's there's a few different roller coasters in the park that have mountain in it Ok So where's Magic Mountain Is it the one I thought Magic Mountain They also have a water park And yes they have properties in other parts of the United States Quite a few back east But it has zero to do with Disney Ok Makes sense So like I've been the only the only amusement park I've ever been to Six Flags Oh no I've been to Disney Disney World Ok Magic Mountain Six Flags Cool There's no magic There's there's a Magic Magic Mountain Yes Magic Mountain Disney is not Hold up hold up Magic Mountain Disneyland Boom Base Mountain That's amazing Boom Boom Oh wait wait wait Splash Mountain There we go I didn't hear I didn't hear that That's true Splash Mountain is the one with the logs Yes When everyone's like screaming we go Really Of course How's it racist I love hearing this stuff No No because sometimes it's ridiculous This is ridiculous I can't get into Is there a is there a character doing black face along the line It's based off of Rare Rabbit Cartoon Rare Rabbit There is there is a character within that Yes Yeah And so they're redoing the whole thing They started redoing the one in Florida already But the one here is still I think I heard about this

They should probably get started on Florida before here Uh huh Yeah It's literally like a piece of Disney like up in arms about it because it's literally like a teeny tiny minute part I mean it still shouldn't be there but it was like they could take out the character and like dealt with it another way completely Like yeah because when these revamps happen when we when we get all up in arms the result is never that is never better in my opinion Like it becomes like this like commercialized attempt at pr oh that's what we want Do we want to learn before plummeting to our desk I please teach me about holistic integration before I dive off 200 ft down to the ground Like no just put a couple of characters out there dancing around because not everything has to be that serious I'm not downplaying racist I'm just saying that we don't have to like be anti about everything Let's just like get on with it Now someone's gonna show my door Let's pull a car let's pull a cart So yesterday Kyle and I pulled the card uh and it was not pleasant One was jealousy and the other one was stormy weather ahead Oh that that is ok I'll take that We'll take that coming in hot with the weather Ok Go for it What's in store for me and kai True blood for a few more days What do we got Oh no What's the eyes A knife Oh my God Oh my God Oh my God Oh my God No the ca has been moved Wait wait it says release Oh God What do we need to see What see what it first I don't know It doesn't look great Great great great Ok Ok We love reading tarot and oracle cards Not a taro oracle Without the leg Cut the cords to any unhealthy Toxic people places energy habits and beliefs I kind of like that though Cut the cords to any unhealthy to toxic peoples Places energy habits and beliefs Ok This is the time to stand in your truth without cutting anyone down in the process meditate on this When you want to be the spiritual warrior with love honor and compassion How do you how do you cut someone off without like um seeming offensive We mean like how do we cut someone off by having to see them every day I'm just kidding I mean no I don't think that's how you were saying it How do I cut you off without offending you and still having to see you every day Just cut them out without cutting anyone down I'm done Hello Cut someone off without cutting them down My experience Did you cut him off in a way Yeah for sure Oh there goes I mean like barely like once every two weeks is cut off here Take it take it from the guy Cut off means done Don't know who you are but that's putting someone down You are a get it quick You cut someone off in tense in two sentences And just walk out You never had that experience ever I think I thought I thought it interesting I thought it interesting that he he he did react out of emotion and I get that will happen to

people especially if you're putting in it He didn't know it the whole time And that's why I think he had reacted so emotionally but rightfully so however I think like ok you react like that Sure But like to let a day two days go by and that's all you said That's weird Like there should be a there should be some more communication I think Emily Do you feel that way Like he's just assuming it And it's like Emily do you feel that way Talk to me about it Here's what I here's what I say right It's like we all know what Emily's thinking However if Alfie Mans up a little bit more she may have a real change of heart right then and there based on what he can go through what No Alfie and I like and her a lot when he found out the first time is uh by default inadvertently from the coworker I feel like I feel like Alfie is the right choice because Gabrielle is a fantasy Gabrielle doesn't like what does he what Yeah But a fantasy versus like but once it turns into reality she's gonna be a step mom Like they have not exploited anything that they have in common It's just pretty music behind every time Emily and Gabriel are in the same setting Like there's nothing I literally think they should be together for So you want what does that mean Like like like that's a reason to get married He's a chef and she's a marketer So get married please And break up with I think I just don't see that There's no actual uh they have good chemistry but I like her I like her and Alfie together They are the most toxic Two people together I've ever seen they are pretty toxic They they hold secrets to their lovers in front of each other Tell the truth I mean I think this is also France how it's impossible I think it's why they Gabriel it a million times a day It's Gabriel My best friend's name is Gabriel His name is Gabriel Gabriel You're right You're right So the question is why are they able to like they play pretty pretty music over very toxic They do they do when you really look at it you take the music out and you just watch the subtitles It's like these people are messed up I mean it's it's it's light comedy but in the in the end of it if you look at it it's in a serious way It's like Emily has an issue and then Kyle actually was like this show gives the gives women the truth You said tell anyone the truth no matter how much she loves them hates them or sick of them she can't tell them the truth Tell me one time she tells the truth tell the truth the truth She her Alfie asked her if they had ever had like a thing and she said we had one night together which is true She did I totally remember that Not what she said Michelle you've been wrong like four things I remember I I've been wrong about Magic Mountain and everything else Again show is amazing covers amazing character plot and morals Kyle When Kyle watched it he was like I don't know about this I wouldn't let my

daughter watch this because this gives women the like idea that they can just go wherever they want whatever they want however they want And I'm like wait what It's a dangerous mindset First of all I just go like oh let me let me keep that go Sleep with that guy I didn't have a me on the same team a secret from everyone Wait I love them This is a debate She Emily never cheated I never said she cheated She would have no she wouldn't have she not that kind of girl I offense to this because I feel like I'm like Emily this woman is is this woman is if Gabrielle every time the man in the room if it wasn't for Camille she would have No she's looking at him lovingly please You you're such a fashion so great in incredible job Yeah Like she can't afford that Oh yeah They did a whole I'll bring the breakdown tomorrow Probably getting the clothes for free because she's working for fashion industries that she's not working for fashion brands It it's a perk of working for the company She's not working for Jimmy Choo She wears something different every day It's so great It is I it's eye candy It's so fun It is candy It's so fun Even the men's suits I really do dig She's not a secretary She's in marketing She's a junior at market Yeah she makes I think they did the breakdown She makes about like 60 K a year and then like they showed her wardrobe and then her wardrobe is like 100 and 50 K which I find it which I find it to be understatement Her wardrobe is way more than 100 and 50 If you look at even at her bags alone and her shoes that that's there The bags shoes and sunglasses are over 200 You see me with the same sunglasses on and um and the same you sitting on my sunglasses So I have a pair of you need to up the Sunglass game I do that All right Well you should it will help you uh score your uh Emily or your uh Ashley Park Who's Ashley Park Oh that's Emily No the Asian woman What's her name Blanking What's her name What's the best friend's name The Asian best friend's name Why why are we on the in the uh well she has one main one like her roommate Just an Asian No it's not right to say that What I say said this recently He's like he goes uh I was talking about like someone and I was like you know the Asian guy and he's like no don't come after me He was Asian Ok I'm not saying in a derogatory way That's what like that's how you knew people in the eighties who did it The Puerto Rican guy Ok Well we're gonna we're gonna move the conversation on Um What else can we pull one more card I feel like we need to pull another card and then I wanna play Never have I ever no you don't wanna play Never have I ever with me You love me Ok That flap is ridiculous It's like hm I would choose if I were Emily I would choose uh Alfie Yeah because he seems well one he's available and he can make up his mind and he knows what he wants

I I like that He's a hopeless romantic Gabriel mopes for seven episodes straight What is so attractive about this guy I don't get it I think there is a thing within women I cannot speak for all women but some especially me like there's like part of us like are we are nurturing and we want to like nurture people but like you can't nurse someone your Children not your spouse Ok Let's get our head straight I know First of all there are none of them are married It's just it's just such shame We see women nurturing their significant others It's like mm that that maternal Exactly what it is maternal Like you wouldn't want your girl friend to take care of you if you were if you were feeling bad like if you were like going through a rough time you wouldn't want your girlfriend to be there to support you What rough time was Gabriel going through He owns a restaurant in the middle of Paris that apparently Emily and Alfie fun by themselves Every meal is this whole like argument I love it so much We'll have to share it with every meal at this one person's restaurant Mind you Emily hugely toxic You keep bringing your boyfriend to your ex boyfriend's restaurant Every meal Ok That I can't get behind but maybe she gets the meals for free Doesn't matter because of that Brings up the age old question Is it ok to be friends with your ex Marissa Love to hear your take on this point She says yes staying friends with your exes while you're in new relationships open communication How do we feel like Well yeah Ok Yeah I think we'll always be in touch anyway We were together for 25 years Wow That's so cute We always be in each others lives in some capacity but like ex-boyfriend someone I date for like six months Even a year We're done We're done Thank you Well she's I mean she also has experience of being with somebody for 25 years like that That's so different for a year Yeah You break up with them and yeah even if you're like say 65 Ok Well all right Yeah there's a reason why you're not staying with them So it's like it's not going to allow you to move forward and fully commit Like my ex husband he'll always have a place in my heart as a friend because there's that history But for six months or a year well like we know each other better than better than anyone That's awesome We should be together like someone I date for a year or two years I wouldn't be able to commit to the next person if that person that's fair and honest The same thing about like if you have like a friend with benefits that is like really a friend with benefit you won't be able to fall into like a real serious relationship benefits giving you a hard time I don't know I'm just looking at what what do you tell me No I you know I think for me like my gold Thank you Mara Gold for the commentary But even though she doesn't want to be on the

show Uh I actually saw this this is this is the first uh person I met at the studio um which is so funny The very first person I met at the studio was doing an Amazon live and Andy um Andy and your ex-husband were communicating and he was like oh he did this great commercial and then he showed me the commercial and I was like this is brilliant like and then Andy showed me that it comes off based off of what like kind of like a dollar shape club or something And I was like oh that's awesome What a great idea Um Anyway this is uh it's called a archive right Archive Um where like you can take um actual paintings and and pictures of your kids Like because there's so you get so many I know this as a as a nanny like Finn would just get like stacks and stacks and stacks of stuff Am I saying this Right I'm getting looks back and forth Oh yeah Oh I thought he was your friend No you talk about it Yes I think you were part of this business No OK So so I was wondering why And he had a smirk on his face and just like looking over I was like yeah Yeah Yeah Right Right Right He likes to see I was waiting for the commentary You you'll talk about something and then Andy will help you put it into practice and see how you really do it It's a it's a it's a it's a it's really it's really cool It's like a human experiment Yeah I think we we are part of the Petri dish we're in there He's looking and he's like like this one is Wow Yeah No we're gonna stay away away from this Um what else have we got Look look look look he's on my ipad Why is he got my ipad funny OK Coming through coming through what's in the word for me And Kyle Mhm It's good There we go Had a good feeling about that one What is that Number 25 A great truth will come to light A secret will be revealed Your feelings regarding the situation you're asking about are true Stand by your personal truth no matter what and you will be rewarded This is the time to let your authentic self shine You have much to express your voice is needed to meditate on this And you uh when you want more authenticity in your life or want clarity regarding a person or a situation Father of Matt the ostrich feather is an Egyptian symbol for truth At the time of death The goddess mot would weigh the heart of the deceased against the weight of a feather to see if they lived a just life Have you seen Moon Night on Disney No they do this and it's the God Mott is like comes to like life and that's the whole problem with the show Like they're going around and certain people want this to happen to them to know if they're going to go to heaven But to get that answer if you yeah it's a Disney show Um to know you might die like when they're gonna weigh you against this like ostrich feather And if you haven't lived a just life you die right then and there and if you have lived a life you

stay alive and know that you're going to have It's wild It's wild Would you want that I wouldn't want I want I wanna pull another card You wanna pull another card I feel like three We need to go three because the last two were like or the last yesterday you got three OK Good Let me just let me feather it out correctly All right What what's the question How do we make up for yesterday's cards How do we make up for yesterday's cards Is that a bad question What We're we're like playing against the oral card No she just what's in store What's in store What's in store A friendship There we go That feels good That's already that's already a given Kyle's one of my best friends What's the number 17 I love that guy 17 a new ally positive support community and camaraderie meditate when you want more harmony and peace in your community Also used to draw new alliances and friends Native American symbol of two arrows Native American I am cross signals the end of war peace and friendship ah end of war Ok Well so we went through let's see we went through we already went through war with the with the knife and some truth And then we end up being friends end up being friends makes sense I feel like that how it would go even if there was war between us Um Which there's not thank God Um What was the knife release Release Any talk of cut off Like a cut off Like what Alfie did to Emily when I don't think he should have cut her off First of all I personally think he should have talked the way he left He's coming back again You didn't get enough out I don't know I had can I just share an example Can I just I did say this the last time Remember the last time Alfie This is the second time he left and like he's gone for like a week second time maybe Remember the first time he got in the car Yeah but he like started a fight Oh he did made a couple of statements and then just I can I can't date a guy that just leaves Like ultimately we should talk it through if we have any issues with each other We got to talk it through I personally had this happen to me and it was horrendous He's emoting But the problem is is that he stays that way He doesn't like himself Well I mean like it's fine Everyone has emotions I had a boyfriend that was like that to me Like he we got into a fight and he like wouldn't talk to me about it And I was just like that's not gonna work Not gonna communication is everything for me is if someone leaves let them leave give it time if they stay gone That's the real state Can I ask you a question personally If they leave That is maybe their emotions telling them they need some space for a second to gather The thought all they have to do is like I need they're not they don't owe me anything at that point They don't have to say anything They need to take care of themselves whatever they

want to leave let them leave Let's give a situation Can I give a situation Your point is like no they need to say such and such but that's for you but for them but for them they need to leave let them leave He's apparently so I was in a relationship with the guy that I will not bring up his name because I've already said his name a bazillion times apparently Um and uh this is a while back I got that beautiful dress from this person Um and uh my best friend said don't return the dress take it out on the guy not the dress because I was like I'm getting rid of the dress I'm getting rid of the dress Had I not had I gotten rid of the dress I wouldn't have had been awarded best dress at uh by Eden Albert at um thank you so much Um a few years later Um anyway what can anyone do with that story I'm about to get into it I gotta give a little back story a little back story Um So he thought I was doing something that was not appropriate which is not a thing Um And which is the irony of this is he actually was doing something He was cheating on me Yeah he was cheating on me Um And I ended up finding it on my computer and uh let's just say like that was but like so when he got he thought I was doing it to him and then I tried to talk to him and then he drove away and I was like that's the end of it Like that's the end of our relationship and he came back and he was like I love you I wanna be with you You have that one for me And I was just like I don't know man this is a lot of emotion and I just said like you got talk to me because like you just like walking away I mean I'm now looking back on it and put so much effort on something that didn't last It was on and off for three years It was like a good learning lesson Um But like I said for me you just walking away or driving away like means that it's over Tell me you need space But see that's again like you just said can I talk Just let me talk Yeah Sure sure sure You just said are you more like Sam Oh God I said his name No this is why I said can I talk Because you're just I know I I'm sorry I talk Um you just said but for me so when you listen to your language but for me that means this but you're forgetting that for him it doesn't mean that and that's his actions So his actions mean something for him I don't think it's I don't think it's healthy for yourself to then take his action and interpret them to what they mean What does it mean Can we ask Angie and Marsa if a man were to a car and drive away it's all interpretive Doesn't that mean that it's over like a woman or a man gets in the car and drives away they're essentially creating space Ok Um If they come back I'm not gonna be like if they come back in an hour if they come back in a day I'm not gonna be like well you broke up with me because you drove away I mean it was kind of like entailing towards that because it was like it was just like people drive

away all the time in the he said it was over That means people get emotional You can't just like hold things against people especially ones that you love in a heated argument I I think ok again I think what makes a successful no one would be hold on I think in a successful relationship I think you have to share especially after like the first like if you have if this has happened repetitive right Like happened before to share like hey what happened the other day Don't do that Like not don't do that But like can you express that you need to think things through anyway He cheated on me ultimately Which was the irony of the whole story But like uh and it was horrible and I remember like my brother saw a photo of him on Instagram like with this girl and he was like Michelle does this make you uncomfortable I was like no it's fine And then uh like my brother was like are you sure And I was like no Yeah it's fine It was not fine Apparently living in Pasadena and L A is like living in Bangladesh and uh New York Yeah Yeah Yeah It just like we would see each other once a week and he did have a life outside of me during the week Yeah I did not I did not I say something toxic Oh gosh And he meets it you know he's putting a full spotlight on you What's the toxicity What do you got We gotta release it though Oh dating someone You only see him for a week Once a week High percentage of cheating Really Once a week You think What is that What you once a week what are they coworkers I see I see each other all the time Sure I see you five days a week But I'm saying like as coworkers like I see a coworker hanging out with another coworker once a week we don't hang out once a week Not even But my point is is that like why is he So once a week is not like a substantial like relationship Is it did you feel did you feel like you were like really In something Yeah Well I like for me communication is my love language So we would talk on the phone all the time all the time all the time and he was still able to cheat apparently So maybe he would call on the way to the girl's house Who knows s come back I mean I don't think he yeah he was not for me I don't I wouldn't call him that but he like had actions that aligned with that I'm getting overprotective I don't like I love yeah And I would never be cool if a girl cheated on you I'd be like what's her name Women don't tell that Women don't admit that stuff What do you mean They don't admit that stuff I would never know How would you not know Because women don't come out all the truth will always come to you Do you have one girlfriend that you know that cheated on her boyfriend Yeah Did she tell Yeah she told him Yeah I feel like you're lying just to make a point You're looking deep into my eyes right now You're like I don't believe you you know you know a girl that cheated and

told her husband and then told come clean Oh wait no they didn't tell I like gender blanket statements I really don't Nobody's doing I'm not giving a gender blank You just gave a gender blanket up more than women That's all I'm saying Do that on a truthful standpoint on a simplistic standpoint where like men can't hide it like that Women are pretty good at hiding things Uh She wants to get in but she's leaving because she has somewhere to go You wanna you wanna hop a chair We got a chair here No no no no but no no no no commentary Sometimes it's justified Marisa That's what I'm getting sometimes Am I getting some justification over there for cheating So sometimes I think way more people do it than talk about it I think way more people do it and know about it I think it is happening Um exponent at exponentially high rates I think it is really easy to do Easy easy That's well said I think that's very well said I think that's what I was trying to say I've got lots of friends who have either cheated or been cheated on Lots of guys who hit on me want to be with me that are fully in relationships and marriage open or not Some of them say they're open some of them say their wives have no idea The ones that say that they're open could be a lie Right Right Right I hear that is what uh I hear that is what actually like uh messes or plays with women's heads The most being hit on by married men is what kind of perpetuates them to think the world is kind of more crass than it is Honestly I've just come to accept the fact that it happens and then it's like it happens way more often than we think it's happening and it's super easy to happen And that almost everyone almost everyone at some point in their lifetime has engaged I don't mean like in a physical but like in an emotional type of affair they're committed to someone else but like they're talking to someone else as instead of their quote person they're cheating and simple I that I that I can So to answer the question that's my point I have 100% 100% I have There's a 99% chance I've been cheated on and they just never told me you really think that I had a girlfriend I had a girlfriend two years and four of my college years Um there was a very questionable circumstance in that one definitely counts Oh yeah 18 to 22 What am I not born I mean I didn't cheat on my boyfriend So where's that That's good Um I thought I thought you did cheat on one boyfriend because we we were breaking Wait wait wait wait wait wait wait wait wait wait wait wait wait wait I I never cheated on anyone in college I didn't do that It's not a lunch You forgot the whole infidelity Wait wait wait wait wait Mike and I were together for seven years He forgot that Wait I did not forget it I was to tell you the story You you verbatim said I never cheated on a boyfriend No no no no no no no no no The same breath Ok

I'll take it back I did cheat on my boyfriend Mike Um and it was it was uh I did kiss a guy which apparently when I told him I said I never cheated on my boyfriend I was like no I want to be open and honest and authentic Like that's my whole thing by Marcy Gold Left 2.0 make sure you check out left 2.0 on our show not our show but her show I'm here um on her show on Sorry TV Uh so uh Mike and I were together from the time I was 21 to the time I was 28 and he told me he was not going to move to California with me And when he told me that I just felt like it was obviously over even though like I wanted to not be over and we didn't break up We were still together Um And I remember I like went out with my friends and I kissed a guy that I worked with because I liked him Want me to give that guy's name too I'm just kidding because he watches the show I watch the show He subscribed to our youtube channel Um And I remember telling my mom and she was like he's in a no he's in Maryland DC I don't even know the guy that you cheated on with Yeah Maryland They were both in Maryland But how could he be in Maryland if you guys were talking about moving here he wasn't gonna move with me I was in Maryland I hadn't moved yet He had just told me he's not moving with me to L A and I was just no I was getting ready to move to L A and I was like come to L A with me please And he was like I'm not going I'm not gonna go and I was heartbroken heartbroken I was like what And then so I went out salsa dancing and uh kissed the guy I felt horrible And then I asked my mom I was like what do I do And she's just like well he's not going to L A with you that you got your just express that he's not the one And I yeah by like kissing somebody else I think it it was more of like I just felt like I'm never gonna see this guy again I might as well just like get a little smooch Um And then I asked my mom like because my mom was a was a clinical psychologist what should I do Should I tell him And she goes in this circumstance you're doing more harm than good for him by telling him by telling him she was like because he you already told he already told you he's not going with you to L A and by you telling him that you kissed him or kissed someone else you're going to hurt him more than anything Just leave it how it was and and go from there OK And then so I didn't tell him and then I felt really guilty that I didn't tell him And then um then we talked about L A and he was like I'll give you six months to go to L A and figure it out That's the point where you should probably tell him and then I did when I moved to LA I told him and then we broke up Yeah Yeah And then and then after that happened guess what He told me he met someone the second I moved to L A Yeah I got married Yeah It all worked out But like I also think

like when you're super young to like you know 21 like I was with the guy for seven years I really thought I was gonna marry this guy But then I looked around and I was like do I wanna live and die in Maryland And I just looked around at like the whole place at the whole house And I was like this is just not right And I told but you know what's interesting when I met him I told him I want to move to L A one day I was 21 and um he never said he wasn't against it He was like oh cool cool cool No no no But now and now he's married with like I don't know how many kids he has but uh good guy Sweet dude Yeah I actually like it's so interesting like because he was like the nicest nicest sweetest dude but very like safe not in a good way not in a good way like just like very predictable Like there was no like we didn't really go anywhere and do anything What do you wanna do What with with him I don't know like 21 22 Let's go What did he do What did he do He worked in um stem cell research I said what did you wanna do Like like for fun Like what made him so predictable What do you want to do And you want to cook and relax all the time Which is nice That's why he's got kids and I think that's a good thing too I think like I know but I wasn't ready for that At like 21 He was we were the same age He is an old soul Yeah He bought he bought a house at 24 in Maryland Yeah 24 isn't it 24 Like how do you know like that 24 you want to be here in like the uh corridor or in California or or even in Florida in your twenties Impressive Anywhere else pretty cheap house Like you can you can have like a three car garage and Oklahoma \$10,000 How much was his mortgage A month I think like a couple of 1000 But it's like you said I had it for 30 years or something you know it's a long time Yeah You got a 30 year mortgage right Come on No it's ok Interesting Ok But then when I met it's interesting because so the things about him I was like there were things that I didn't like about him Not like about him But after time and time I was like I wish he was more adventurous and spicy And then I met the guy that ended up cheating on me and then I felt horrible So Karma comes around Karma does come around and it hit me hard I called him every I would call Mike all the time I'd be like I'm so sorry for the way that I was to you as a girlfriend I didn't love or appreciate you the way you should be loved and appreciated He was like it's ok Hey I was like I just didn't know I I uh also have cheated before Well Kyle come on you made me look like the bad guy I did it once I told him he's giving you a hard time I told her about it You did We were in a huge fight Um I don't even think we were together but I found I felt like it was cheating because we were together for like two years at this point and we got in the worst two years we got in

the worst fight and like hadn't spoken in like a week I went out with my friends the bartender hit on me and then we ended up and I called her like we weren't even speaking and I still called her He went home with the bartender Yeah I mean technically it's not cheating but technically technically we were together for two years We were we were together for two years We got in a fight We hadn't spoken for Wait wait wait wait wait wait wait you were together with her for two years and then we hadn't spoken for a week Wait did you break up Yeah Yeah It was like a really it was like a really ugly like you broke up Yes we did You said you didn't speak up Which has made us not speak Oh so you broke ok I heard you I heard you talking I didn't hear that you broke up We stopped talking because we broke up Oh ok Ok Ok Ok II I keep I keep hearing it was over a Halloween party Uh that her ex Yeah Yeah we went to it was there was uh it was it started out as just like a simple friendly on like which party we should go to my friends or her friends and then it like spiraled we ended up going to hers then like we we ended up fighting like at the party she got too drunk I tried to drive her home she drove her car drunk I was really mad at her for that She ok she's fine but like I just I was really upset with the irresponsibility Um I was like 23 23 years old and uh a week later we were beating the beast Oh this is why you didn't do the combo costume with me you just knew that it would be a bad trajectory Really You have one No no no I don't have Halloween nightmares I had a great time on Halloween One other person starts with an R Oh yes I know I know I'm not gonna say I'm not gonna say it Oh my God I do Yes you do You heard about it Ok I've done talking anyway um change the subject change the subject OK Ok Ok Ok So ok so you guys didn't talk for a week but you didn't break up but you did break up because the way you're telling a story and Andy heard it too is that you weren't talking for a week which led you to believe that you were broken up That's not what I said No You guys like to interpret in your own way It's like it's so counterintuitive I said we weren't talking and that's when I and that's when I that's when I cheated I never said we didn't break up but you did Ok So you broke up Yes OK And then you got so then you hooked up with a girl Yeah a bartender and then you let her know but you guys were broken up 100% chance we're getting back like we had a really bad fight We took some space from each other It's a 100% chance we got back together We were like we were so inseparable She clearly we smashed Like I was like I was so drunk I was so drunk I was very upset Halloween No no no it was a week later Yeah we hadn't spoken for a whole week and I was drunk a week later Yeah I wasn't drunk The

Halloween night She was no no I think my inhibitions were definitely uh altered and me being upset about not seeing her anymore was also there like it was almost like 40% of the reason I did That was just because I missed her You know what I mean I just missed the cohost therapy I love this Ok so then what happened Well uh you know she took me home Uh I don't want any details I have with the bartender grows I called her up I didn't even make it home I woke up at her house I was in my car and I was like maybe 10 minutes from my house and uh I called her I told her the whole thing Um she hung up I didn't hear from her for another like five days and then she was like I forgive you and we were back together Stephanie sorry like another year we're talking about we're talking about L A Ok Ok So then huh No no no that was back in Jersey I've been in L A for 10 years This is like I was like 24 25 A Huh Did you ever go back to the bar It was it was one of our favorite bars Oh Sammy No you cheated on Sammy I cheat on Mike Your Sammy is my Mike Do you know that That's true That's weird So we both have relationships that were like very similar Like because I because Sammy wasn't moving to L A right She wanted to she and then and Mike didn't want to move to L A I think that was a bartender but I did kiss Sammy take my call Sammy uh told me that she won't talk to me It was like two years after I lived here now She was like I can't talk to you anymore unless she moved back here because I was like ok I think she's engaged I think she would If I call her she'll take it We both still have the same number Well how do you know I'm pretty sure there's no reason for her to change her She's still in Jersey 732 probably I mean depends I'm pretty sure she's in front of her if she's in front of her uh fiance I hope he's not watching right now But if she's in front of her fiance she's not gonna I don't think Mike would pick up my phone call I don't I don't think Mike when Mike met someone this was the hardest thing to hear He was like I can't talk to you anymore And I was like huh I didn't even know she didn't even tell me My friend called me Absolutely aghast And he was like Kyle did you know Sam He's dating someone on my Diego Listen it's not 2009 It's 2016 We've moved on from each other and like all my entire home life could not believe Sammy and I were dating two different people because that's just the way the world works for like a decade You know it's a shame But you know what um live and learn Right Well you know it didn't I don't think it was tragic I think it was really um it was like a season We were a season for each other and I'll always be there I do believe everyone comes into your life for a period Anything I'd be there for Kyle is that kind of friend No question So God help her fiance If

anything bad happens Yeah I was about to say a question if it doesn't work out with the fiancé Is that a thing No But like maybe like maybe she wants to come back to L A Finally A you're not like not attracted to her anymore Positive It's been 10 years 10 years It will be a great little bit of this movie will be stay tuned It's not gonna happen She's getting married that you think of She might be like at the altar and be like she might she might she might pull it Emily in Paris She might be at the altar and be like she might be holding guy guy that shows up to the wedding where where where he's like if anyone objects I like that guy I would never do that Uh I don't know I don't know And I'm I'm I could find out though because I'm sure at least six or seven of my friends are invited to the wedding No some of my friends are probably invited to a wedding I'm not invited to the wedding Diego the third He'll tell me he'll tell me maybe I'll show up with a camera We'll get it Yeah Gotta be careful with the producers man They'll film you Oh you're filmed at all times Yeah you filmed at all times I love it We're sitting outside I'll never forget it Oh my order arrived Um We're sitting outside and Kyle True Blood the stallion that he is the Italian stallion with the gold chains and the Pinky Rings That's my best friend Nick the Italian stallion Oh we love Nick We gotta get him in here and doing the weather segment You're in the Nigerian friends Um but we're sitting outside and and uh you noticed that it looked like a lot of people were going to go work out and you're like there Pilate studio around here and I'm like Kyle I'm more than certain that our eggs are on and we are being recorded and you were like don't they have don't don't they want to tell us And I was like nope Well start talk show I took this camera right here and tilted at 90 degrees to my right your left You would see a window and there's a sidewalk and let's talk about the fact that there was 20 women walking both directions Only stretchy pants no jeans no skirts no sundresses How old are you A commercial It was like a commercial of all out there Lemon commercial Only stretchy only stretchy band Now that I think about it it came off a little creepy But I gotta say if you had seen what I was looking at it requires a question I would talk about you to and Santa Barbara and um and we we would just laugh because he was like doesn't he know that he's being filmed And I was like no And he was like how do you respond to when he says stuff like that I was like honestly I just like I chuckle because it's like you want me to hook you up with someone like which I've tried to do multiple times and then I was like and then sometimes I'd be like yeah Yeah So I have your best interest That's why you had to invite me out More wing woman I'm still I haven't been like looking for a

date in a very long time I'm just I'm having fun With work right now but you busy enough Does that sound crazy I feel like your work Yeah you made you you told Saturday night was the risk reward Yeah Looking for the anymore Why Well because he knows what kind of reward will come with Hanging out with me It might have been media rewards long term So he said he's not looking for a wife I don't think longevity was a factor of this reward and risk assessment Yeah So hanging out with your best buddy Michelle was not as fun as hanging out with some girl at bar again No save save by the risk reward I hope you guys I always have fun with you guys Yeah Yeah Yeah you guys hope you got something I said hi I said hi to Jacob on um on our tiktok last night So let him know that uh Kyle and I say hi um and happy early uh birthday Um and we'll be back tomorrow at 11 20 pst uh make sure you hit that follow button Follow us on youtube Instagram Twit Twitter on Twitter We're not on Twitter on Twitter We're on Spotify itunes Facebook Uh follow follow follow follow follow follow and we'll see you guys tomorrow Have a good day Love you guys Bye Yeah that was a good it was a very good talk I if I meet someone now and I feel like they were exactly what I was looking for you know Jackson Good morning And I oh scarce and in want to be the
