shop They elegant sophisticated I just think it's so classy and I could tell it was made with high quality material A \$35 shoe going for \$645 an 1800% mark up store owners sat on their heels as fashion influencers emptied their wallets I would pay 405 100 people are going to be like where did you get Those Those are amazing Then they're let in on the prank These are actually from Payless You've got to be kidding me Shut up Are you serious But those shoppers were refunded their money and they got to keep the shoes experiment making headlines by the And what do we think about that I would love to I would love to have a little say on this one That's why I pulled it up So this is what's wrong with America Ok No one knows No Let the price tell you what's special and what's not Well ok so I'm with you on that I do think like when you say some how much something is valued then people see that it's valued at a certain amount So like for example for example like if you're like yeah well I always see I always that's where my brain starts Like 10 to go is the positive side Um But here's the thing I have had payless shoes My entire existence I literally had payless shoes from the time I was like I don't know three until the time I was like 23 So I know what payless shoes feel like I know what they smell like I know how they're constructed I know about shoes I will say like I until like I could afford um nice like my very first pair of Manola blo were purchased and I got them at the real real Let's get back to the pay less thing Well I'm trying to say is like I don't think if just because it's like \$1000 pair of shoes you should spend that I think you should see Is it worth that value to you Like coconut water Yes Coconut water is valuable to me You can mark it up to what how how much would you pay It depends on where I am Depends on where I am I think the most I would ever spend on coconut water or like say I'm in Hawaii What what does that have to do Because like it depends on the location I think the most I would spend 20 I think the most I would spend on coconut water is \$20 Yeah Like if it came in like a coconut and it had like fruit on the side and a straw What the coconut water is in coconut for free Now she marks it up \$20 They take the water out the coconut put it back in and she's like yeah that'll be \$20.20 percent What do you think the water kept Never mind She's like oh I would love if they like garnished it in a coconut That'd be amazing I pitch That's where the water comes from though I'm just I'm just missing it Like had you had said like oh put it in a Chalice cup Ok You mean a chalice It's it's spelled ch I think it's Chalice Should we ask Alexa It's Presidents Day out for Alexa She's not working she's not doing it It's a chalice right Not a ali that's how you pronounce it She'll listen to Natasha It sounds like you know what's

interesting Sometimes I look at you because we sit so close to each other and I see like a past you and I see like a king like in a in a royal throne Sometimes I also see a man who lives out of a you know I feel like I'm well you're both like my more recent past life was homeless but like BC like one of my past lives in the BC Er for sure 100% 100% So your voice you have such a regal voice That's why I say like get rid of the receipts You let me see your wallet Moment of truth Moment of truth there reach for it reach for it Show show the world are you listening to me these days on your side here on my side he listened That's a clean wallet That's a clean wallet There you go Good job I feel naked without my receipts Yeah you should feel naked feel naked without my receipts Don't feel naked Yeah I'm proud of you Thank you Um Yes I see like your Oh yeah it does Um So so so back to back to you babe back to you back to you Babe value you saw the positive side of this Yes of the shoes of course Because it teaches you if anything that what you ask for you'll get even if it's overpriced Yes 100% If you see the value in it other people see the value in it Now here's my answer right Let's say let's say because like as my attitude goes this is pro probably what would happen I'd walk into that prank I'd look at the shoe and they'd be like they'd say \$625 and I'd go this isn't worth that What how would you know whether it's worth 6 25 or not I'm actually pretty good at like like prices right Things like I can value something pretty well Yeah Yeah Now Michelle's actually been on let's make a deal and met one of his friends a while ago Who didn't you say you worked on Let's make a deal What's this space Oh who's one of my a long like a long time ago I forgot about it What was his name Oh my gosh Hm Who was it Clearly He made an impression on both of us He's your friend Which is hilarious Does he live near you your roommate or No not your roommate I used to be a roommate next door He had a backpack on Let's make a deal Oh yes Yes Yes Yes Yes A good friend of mine who lives close to me Oh my God Ken So good You forget his name And then I remember it Um I remember almost everything This is cute Um can we can we listen to this This is Drake Hu but there's uh a him that can eat His name is Kyle Nerd What does Nerd mean Too smart for school Yeah Do you think if you had a better dad you would be able to read This is my battery bag Do you think if he did a better job with you at home that you'd be able to read Yeah And that's a funny day and also he does a lot of jokes Can you read No I can't Why not Because but there's a him that can read His name is Kyle Nerd Nerd Mean too smart for school Yeah Do you think if you had a better dad you would be able to read This is my better dad He looks at his dad and he goes

this is my better dad Um but like that's him and his dad Look at that hair We're gonna be um interviewing your friends Um who has great hair like that too Right And what's her name with Bounce Curl her her hair looks just like a is there It's incredible Yeah she she uses um certain products to keep that curl bouncy bouncy I'm excited to talk to her about that Um that is next week Let's also look at this This is fun Um This is uh basically a bunch of celebrities We're dramatically reading Taylor Swift lyrics This will be fun Yeah Are you ready for this Pick up the first time saying oh this is it I've had enough cause like we hadn't seen each other in a month Uh When you said you needed space what then you come around and say again baby I miss you and I swear I'm gonna change Trust me Remember how that lasted for a day I say I hate you We break up you call me I love you I want to know where she's heading Are we karaoke right now Oh we called it off again last night But this time I'm telling you I swear to God I'm telling you We are never getting back together We we are never ever ever getting back together The emphasis are ever it's never going to happen You go talk to your friends talk to my friends talk to me but we are never ever getting back together Like remember when we broke up the first time saying oh this is it I've had enough cause like we hadn't seen each other in a month Uh When you said you needed Kate Hudson just took the opportunity to audition for the voice That was awesome That was awesome The cutback from like Brad to Seth Rogan is probably my funniest So I had the I had the pleasure of actually meeting Seth Rogan and watching the movie This is the end with it because I used to sneak into a F I classes and uh I think one of the guys who made the movie with him is a graduate of a F I So they they premiered the movie there Um And he has the exact same laugh in real life that he does like on the it's like the exact same in real life I did it pretty well Actually you do pretty well Um What else What else did I I bring up to share with you today This is show and tell Um by the way if my son ever answered like a Donna did I would cry Oh I'm sure your son would because you you'd be like a great dad I can see you being a great dad Um Wilson and Ramona are wait a are in engaged Congratulations She said something along the lines of she was too busy looking for Prince Charming But when all she needed was a princess Apparently go figure Um surprised it took this long for someone to say um but uh they got engaged Look at that ring Zoom in it is a Tiffany ring and I I the only reason why I know that is because look at how cute this is Oh my gosh I love you know I'm not a big jewelry person but like I mean I just almost like would wanna like just keep it in the box and look at it It's a

beautiful ring Yep Look how cute Um moments before and then look at the box It's all about presentation I mean look at like Tiffany does it so well look at the box and look at that Blazer Rebel You're killing it these days Look at look look she actually recently was told she could not lose weight for a movie Did you know that Really Yeah they wanted her to be still they wanted her to be the like because once Hollywood sees you a certain way they can't unsee you a certain way you know like like don't grow old don't get fat don't lose weight just stay the way you are That's kind of what the job entails I mean it's to not grow old You don't I mean yeah but you don't you don't really have any kids Remember We started the uh we started the whole I mean listen listen for me the gray some people may want to cast me as like a 30 year old But the gray they're like well what are you doing Well yeah you can like get rid of the gray but you can also get rid of your beard If I didn't want to then it's not the right job for you Just like rebel Yeah Well I well I don't yeah I mean like I think continuity is important and like if you want to be cast as something you have to Yeah I agree with you But at the same time how unhealthy is that for somebody That's why that's why there's a lot of issues with Hollywood and entertainment Well we gotta put a stop Well I mean listen I get because like we women they go together they're stigmatic Men go together too I know I mean think that's what I was going to say A ton of men are told gain weight for this role for this role and just do it There's no stigma around it There's no negative connotation to just do it I think men can gain and lose weight much easier than women Not true Yeah 100% true Why do you think that because women just because how their bodies are made they just cannot gain and lose weight as easily as men Is that scientific Yeah that's I'll actually you know what I'll bring in facts tomorrow about that Um you know me in fashion I'm obsessed with fashion This is the Dior Museum in Paris Oh my Kyle Look look at this place Oh my Oh look at the dresses I was thinking of Max Alexander When I saw this this morning I was just like take me there immediately Like this is candy for your eyes If you like just I get the line in Sex in the city where she says um sometimes she bought the uh bought Vogue because it fed her more And I I thought I always thought that was so strange but now like when I'm I'm getting more into it and I see the clothes and I feel the experience it feeds your soul It doesn't feed your body but it feel feeds your brain and your your your creativity and it's just so beautiful That looks amazing I definitely just fact checked the whole weight thing Oh and I'm right No why did you look up Hi Stephanie How are you today Thanks for tuning in How you doing I

like a hi too Thanks Stephanie Um no no no Technically technically it's not correct But like yes women have had a harder time losing weight uh by sheer statistics Like they're just saying like women have a harder time losing it Not but not scientifically I think it's a lifestyle thing as well You know what I mean I think just like naturally on daily activity wise said hi Sorry to interrupt you She's right there I wanna check You said you were waiting on me to look over there weren't you I love you Look over there I'm good I'm good Seth How are you Um Did you know that there's a my big fat Greek wedding number three that got its premier date for September Um we're gonna have we'll pull it up in a second The Porto Carlos family is back get all the details on the upcoming comedy My Big Fat Greek Wedding three is coming in September You ever see My Big Fat Greek wedding Oh no you were correct I was correct Yeah Yeah women have a harder time You have a lower metabolic metabolic rate which means your body uses fewer calories units of energy to fuel normal body functions breathing thinking and circulating blood The leftover calories are are restored as fat that happens more often in women It's true Thank you for high five The show I was I was right like we got that on tape So I will put that on our Instagram It is President's Day Stephanie What are you doing What are you buying Are you buying anything on Amazon today If so let us know what you're purchasing You Me Andy and Natasha are the only four working today That is not true True blood That is not true Hey listen I like it It shows work ethic It does show work ethic It's official We are Kelly and Ryan right now Oh my gosh I've never felt more in alignment in my life This whole thing Wait can we can we can we can we share the information What's gonna happen What's gonna happen Well when those things I don't all the time push this back Oh the flag I here here here here here here here here here here we're good We're good We're good Um oh she's not buying anything today Um we uh might be taking over for uh Kelly and Mark when they're done on Uh yes that's a big that's a big right So make sure you follow us on slate TV And you follow us because when Kelly and Mark go off the air we have um we might be up and running for that on uh yeah Michelle it be Michelle and Kyle on ABC Can you imagine how cool that is Stephanie would you watch then Yeah Yeah Yeah It's really exciting I mean well Stephanie um President's Day I know Can you imagine a live studio audience What that would feel like for you I feel great I feel amazing I feel amazing Amazing Um also one of my favorite talk show hosts is Miss Kelly Clarkson Uh Kelly is interviewing um our good friend over here Miss Kaine Zeta Jones and she's talking about she's

everyone has been a booty call Oh we should get your son out to Los Angeles That'd be great 0 100% 100% There's a lot of train in Ohio Michelle You and Kyle should come to Ketterling Ok Ok Ok It's a high of 65 and rain in Ohio Did you know that No you poor thing You poor thing I pull a card I'm gonna pull a card brought along Some airplane liquor bottles just in case to what I don't know brought along some airplane liquor bottles So what what would I bring an airplane liquor bottle to don't know Burning man I'll bring it to party man I'll bring it to Coachella concerts What something formal I would try to sneak an alcoholic This makes me sound like an alcoholic It yeah Cool Michelle's Michelle's checked out right now Yeah I'm totally checked out had relations on the hood of a car So here is our Jari unbox It you wanna get it charged up You use this fantastic charger over here This is the output over there and it has an extra cable like this with the ability to charge it in your car So that is really cool So we have it all charged up It has here you can press on the display You can see now that it is not drawing any power it is not bringing in any power and it is 99% charged which is cool So as you want to use all your separate things you can turn on the little lights and it will show you as you can see there that now you can draw power out of them or you can turn them off just like you would at home if you do if you wanna leave something plugged in but not having a draw power there you can turn it off So let's have some fun and see what our Jay can fire up So in the past we have used the Jari to light up our lives with go we have charged our cell phones and we have done a few other things But oh we've even lit up the Arrow Garden How amazing is that that we were able to light up the Arrow Garden But today we're gonna push the Jari to the limit and uh we are gonna take a look at the this works What's this This works That car vacuum Awesome Very cool And we could even take a look at it Tam used it And uh how amazing is this Oh my goodness You can just keep on going and going and going You can get into every little look and cranny in your car with all of this How awesome So this is what we're gonna do We're gonna stick it into our query Let's do it this way So you guys can see what I'm doing Turn it on with a little light and the display have gone on because we are about to fire this up Thank you Mr Jackie There we go That is cool So let's see what else we can fire up today I mean that you can I mean that is just so cool You see powerful vacuum Jay fired it up Let's have a look at some of the other things that we can um fire up today Let's see Yeah we got it So let's try the LaVoy Air purifier I mean this is a high power drawing eye item I think I would imagine So it's not something that you would generally

plug into this little power port here Amazing if this works you know how incredible this must be So not only is the Jari used when you are camping or exploring the world in your RV or your car the Jakey can also be your backup power source for a disaster Um You know disaster preparedness The Jay is definitely something that you'd want to have in your home And like God forbid there is something and the air is not pure and now you're stuck in your home you've got no power You can't put your air purifiers on If there's a huge amount of dust in the air or if there's a big um you know like we are in California there could be a huge earthquake will bring up a lot of dust but you obviously want to still keep your lungs protected Let's see if the Jay not only will give us power but will also save lives So plug it in over here we'll turn it on and you can see let's actually put this up a little bit because you'll be able to see the lights So welcome back Welcome back Uh This is good day live and you just have me right now I'm playing a little never have I ever right now and I think we have a surprise guest coming on Let's just stay tight for that as well But I'm pretty excited about it So stay tuned We're having a good day It's Monday Hope everyone's doing well It is President's Day Shout out to my presidents Who's your favorite President is actually a good question Uh favorite President Andy Who's your favorite president Exactly I'm waiting for that I need like a FDR safe safe bet Teddy safe bet I love it Uh mine would have to be everyone's thinking I'm gonna say Obama 100% Everyone in their head already Like he he's gonna say Obama 100% Um but that's not it That's not it I gotta say Clinton He was just he was just uh more it was like a it was like a soap I'm trying But you guys are right there It's like they they love when I'm interacting They when I did you did you did you really Let's talk about that It's President's Day So let's do it There we go Because I love you My producers are screaming at me right now because I talk to people behind the camera I'm talking to the people Natasha is very mad at me as well I'm sorry I apologize I apologize Um so we were playing never have I ever I'm gonna do one more I know we're gonna cut the commercial Let's get let's get all my friends back on I think we have a surprise guest coming in as well Never have I ever run on a frozen lake I have not because that would be suicidal Ok great Can we uh two Are we We're gonna go to commercial Kyle Don't don't worry Stephanie Michelle's coming back No one panic Ok Michelle is coming back All right Let's cut the commercial She'll be right back I'll see you in a minute So here is our Jari Unbox It you wanna get it charged up You use this fantastic charger over here This is the output over there and it has an extra cable like this with the

ability to charge it in your car So that is really cool So we have it all charged up It has here you can press on the display you can see now that it is not drawing any power it is not bringing in any power and it is 99% charged which is cool So as you want to use all your separate things you can turn on the little lights and it will show you as you can see there that now you can draw power out of them or you can turn them off just like you would at home if you do if you wanna leave something plugged in but not having a draw power there you can turn it off So let's have some fun and see what our Jay can fire up So in the past we have used the Jari to light up our lives with go We have charged our cell phones and we have done a few other things But oh we've even lit up the Arrow Garden How amazing is that that we were able to light up the Arrow Garden But today we're gonna push the query to the limit and uh we are gonna take a look at the this works what's this This works That car vacuum Awesome Very cool And we could even take a look at it Tabi used it And uh how amazing is this Oh my goodness You can just keep on going and going and going You can get into every little look and cranny in your car with all of this How awesome So this is what we're gonna do We're gonna stick it into our query Let's do it this way So you guys can see what I'm doing Turn it on It's a little light and the display have gone on because we are about to fire this up Thank you Mr Jackie There we go That is cool So let's see what else we can fire up today I mean that you can I mean that is just so cool You see powerful vacuum Jay fired it up Let's have a look at some of the other things that we can um fire up today Let's see Here we go So let's try the LaVoy air purifier I mean this is a high power drawing eye item I think I would imagine So it's not something that you would generally plug into this little power port here Amazing if this works you know how incredible this must be So not only is the Jari used when you are camping or exploring the world in your RV or your car the Jakey can also be your backup power source for a disaster Um You know disaster preparedness The Jay is definitely something that you'd want to have in your home And like God forbid there is something and the air is not pure and now you're stuck in your home You've got no power You can't put your air purifiers on If there's a huge amount of dust in the air or if there's a big um you know like we are in California there could be a huge earthquake will bring up a lot of dust but you obviously want to still keep your lungs protected Let's see if the Jay not only will give us power but will also save lives So plug it in over here we'll turn it on and you can see let's actually put this up a little bit because you'll be able to see the lights So let's put that try and see if you can see that there

this all in the name of ok there we go So the little light is on and we have the did you see that Ok Turn it on let's turn on the light so you guys can see Welcome Welcome back to Good Day live on Silo TV I'm Michelle Mira Thank you so much for tuning in We have an incredible guest with us Mr Bruce Cardenas He is incredible a speaker an entrepreneur a brand builder He's done so much and I'm so excited to welcome him to our program Welcome Bruce Thank you so much I need that intro every morning when I wake up Well what we'll do is I'll record it and when you start your morning you'll be like I'm the best I'm this I'm that Bruce is so funny Um So if you guys have been watching I ran to the bathroom real quick because it is a live show and I'm very open and honest and I came out and Bruce was like you just come back from France and I was like boom jerk How are you today Yeah I just dropped in and and just decided to say hello and President's Day and I love your hat that says driven Um Can we talk about like your drive Like you've done so much in such a short span of time Um You were a body guard for some major celebrities I don't know if we're allowed to say any of them Um But how did you you're from New Jersey originally right A dumb middle class kid from New Jersey Yeah No you're well you know there's six degrees of separation in New Jersey Everyone There's so many names Do you mention any artist or a musician or or actor There's some connection to New Jersey and that's not that's not no life What part of New Jersey are you from What what's your exit on the turn bike I was inland in a very rural area called Someville New Jersey But you know some Jersey knows Jersey Yeah Yeah From the Jersey shore then we kind of distance for a little bit I was I was in Belmar I was in Belmar in North Edison Yeah Yeah Um Jersey shore I Kyle likes to say you guys like to pump your fist not your gas It's true It's true I was just like oh so you're a kid in New Jersey And what were you doing as a kid in New Jersey What life was New Jersey Honestly I thought that was you know when you're growing up something that was the entire world always had aspirations and boyhood dreams about being a police officer I was an athlete in high school but I'll fast forward when I was uh wanting to become a police officer I talked to the local police chief There was maybe a six person department I said I graduated high school They all knew me I was you know small town literally 2000 people And he said listen Bruce you're in his own kind words You're young you're immature You're not ready for this But if you go in the Marine Corps we'll hire you to get out Thank you very much I grabbed my best friend Jim Jim Lewandowski and said we need to go on the Marine Corps You're not doing anything with your

life man And I'm not and we went in the Marine Corps and then I realized there's a big world out there What about New Jersey What There's a great world out here and the rest is history Traveled The world was out of security detail for the General of the Marine Corps at the time traveled probably went to 40 countries did cool things with a power lifting team And there was a career day in San Diego when I was in there for we were only there for a weekend for a Marine Corps thing and this this career day and you know IBM and different companies are there and the and the CHP and I'm like beautiful weather beautiful people You get paid to be here So I joined a PD I became a police officer here in that We were uh he walked in and he popped in and Bruce is a great friend of us of ours And uh he popped in We were like it's President's Day He was like oh I've I've known a couple of presidents We were like what you got to get on and you mentioned your favorite president Your president I don't even know this Well my man Clinton I mean he's he's the uh he's the goat you know he was like a soap opera watching this guy So I mean that's that's why it's not anything political Yeah it's um I I don't know if I had a favorite but I I met him twice and I won't bore you too many stories But but during Police Week which is a big deal in May Mariah Carey used to be a client under music and we moved down there two years in a row and she performed in front of on the on the green on the green lawn in front of the Capitol and and Bill Clinton was president both years And that was a pretty intimate setting and then we went back to the White House And so yeah that's awesome That's awesome What was he like He he is a smooth operator I got no he's he's a speaker speaker I gotta tell you something He makes you feel I mean I'm not saying when I've met a lot of people I met several presidents when he shakes your hand and he looks at you You think he knows me and some people have that thing He made you feel like I've met you before Thanks for joining me He's like a guy's guy's guy but even women and men but he will make you feel like it will make you feel like and it's it does a I've only met a handful of people in life that do that and think about all the thousands of people he touches a day to keep that consistently up You must be exhausted at the end of the day You gotta be right Yeah When I've watched him speak I've met him at some other things with the Clinton Foundation He's always the same but now he's kind of cool What about being in the uh being a police officer Wasn't something to you as a little guy Like what was it about being a police officer You said that when you were younger that you wanted to be was a police officer My neighbor was a state trooper It was just something I always admired and you know my

dream came true I mean one of the largest and best police departments in the world and I I paved my own way I mean listen one thing I tell you that there's there's some bad press on police as with every career But I learned that there's no black and white life is gray You have to live in the gray area There's a spirit of law and people understand that there's a leather law and sometimes you have to work around that And I I would always tell my partners sometimes we're a little like more by the letter law everyone a paycheck away from a crisis Right So we stop someone has a suspended license Maybe there's a story there and I like compassionate about what I did because I did it I want to change people's lives I mean listen truly there's bad people and there's people who are just on the border of life getting screwed up or I have to I have to help those people I have real questions here I have real questions Well number one where did you get that term spirit of law from I never heard that but that's such a great way of explaining one of my early So I'll be honest with you My first training officer was a Vietnam vet hardcore guy I got in the car with him and he said Cardenas drew a picture of a face big eyes big ears and no mouth He goes that you just keep your mouth shut Yes sir But he was hard core and he wasn't the kindest person rough rough And I remember a tenant one day pulled me aside and said I know you're working with you know so and so he's a hardcore dude He goes he's gonna either bring you down a path of maybe not where you wanna go And he's the one that he's live in the spirit of the law Everyone has a story be kind to them until they have a reason not to be you know and I really that was early on and I learned that like cops could be rough and talk talk and you know I said listen I said so I learned that and that's how I can for the rest of the time I conducted myself that way Extremely beneficial How would how many uh I don't I wanna like put on LAPD because we need police officers But like how much would you say that belief of yours wasn't the rest of your department Great question I think a small percentage I would say 20% 20% Yeah I think some people you know listen like every organization you graduate here here's what they taught you and here's what you enforce right And you need almost a mentor to say hey that's great That's the law But hey everyone struggles And I tell people this to this day I worked all areas down in the hood and I tell you the right right now the kindest people were the people that were in the ghetto The families that when it was on a weekend and say stop by we're having a street barbecue the same streets that were gang members were living but the families were like so kind That seems to be a very big issue in the country itself because the loving people and the

hateful people are very living are in proximity They don't think it's in Brentwood Brentwood people aren't saying hey come on down have a barbecue but it's more of the people that are in the hood That probably can't even afford to feed You are doing a holiday spread that the police and fire That's right And a lot of people don't know that It's interesting It doesn't make the news because that's important Yeah Yeah that's a great that's a great statement Speaking of food we have someone in our chat who Miss Miss is it uh Gillette's Miss Michelle Gillette Bruce How much protein should we be eating every day And what's your favorite uh source slash snack And do you have any tattoos Do you have any tattoos I feel I have a couple of seven tattoos One's visible Um We can talk about the rest I I tell you So we're switching gear to nutrition because that is a little bit of my background The average person and no one I I would say nine out of 10 people do not accomplish this 1 g of protein for body weight So you weigh £100 You'd be getting 100 g of protein Think about that That's a lot That's a lot of now I I drink like three or four protein shakes a day to cook it but I like fish chicken Not a big beef person anymore because it raised my iron a little bit but most people don't get enough protein and that's just the stain hair nails muscles skin what's the type of protein you drink Um very you know listen I was one of the original quest nutrition guys So so we I I like their protein but pure I'm not really loyal to any protein drink brands We did have a good topic now because I I do want to segue into your branding You you've had like such a pro profound life that uh I I don't even know how branding fit into it but how did you get there How can we can we can we go back a step Is that ok I like love this question Can we go back Like how did you go from being in the LAPD to like being surrounded by all these celebrities and then going into No Yeah Oh sorry I didn't have any today Bruce This is what happened That's important because no that's a good segue So while I was a cop I wanted to make extra money and I was working for a retired Beverly Hills cop doing security work bodyguard work and he had some high end clients and I did it for about a year with him and I learned all the ropes I said this is not hard So I went and got my own license my own insurance And what I found early on even when I was in the Marine Corps in LA I was a relationship guy just like keep treating treating people kindly I I figured I was apr guy and I I didn't go to school for it just kind of came naturally So when I started building a bodyguard business I just started picking up clients I know friends of mine would refer me but I picked up all of Sony music At one period of time I was doing all the artists from Ricky Martin to Shakira to

Mariah's Um But with that said um and I know you had a question about the protein while I was doing the bodyguard business while I was doing the bodyguard business I serendipitously met the founder of Quest Nutrition because she goes by Quest Creator If you want to check her out Shannon Penna met her at the gym small talk chatting up one you know one day she gave me a protein bar quest nutrition We only had two flavors at the time They were about six months old tried the bar and I saw the next week and said those bars are amazing Hey if you have some extra bars I'm doing a security You get the Rivera country club for some celebrities I could get them in the in the gift bags Now by the way I don't even know how I even said that they just came out of my mouth I'm doing security work but I'll get it My friends doing the publicity got in the players' bags I was smart I don't know if you know how this came because I had a black bear at the time I took some content Two of my friends acquaintances where they're doing youtube videos I say hey do me a favor Can you interview some people eating the bars I'm I'm just a brand manager before you were a brand brand manager before it was popular So I made up the entire I told my friend I said excuse me publicity I you know I got you I got some she I I don't remember Maybe Mara Lopez was there some different people Yeah Get him to talk about the bars on camera I got all that content and then send it to them And they were like holy wait wait are we are you a marketing company No I said I'm just a dumb guy who's getting product and then you you not a dumb guy from I say this while I had my own career I started helping in relationships So I for nine months I was basically an unpaid intern helping All of a sudden I got on a set of extra because that was my accounts Simpson is getting in So what I was doing is I'm protecting her But hey by the way these are this is a company our friends my friends own great And it went from that to nine months later I was a full time employee And then a few years later I was a chief communications officer and we sold for a billion dollars I was I was a cog in the wheel I say I was one small part of the success But it all for me it was all relationship from day one to the last day until now I like the cog in the wheel uh analogy because it's you need each cog Let me tell you people I I'm not a I watch people have had success with saying I built a billion dollar brand Hell you did What about all the kids and the janitors And the so I always get kind of twisted about that because to me I was just one person I was one spoke Do you think you uh that camaraderie that team that collaborator spirit comes from the Marines I think it started there And even in LAPD you know I played football I I I've always been about like a team

culture that we you know and I was I mean listen that's one thing I really pride myself and you know like Tom Brady he never says I we did this we did that The guys got me to the finish line Those are true leaders And that's why I kind of like to inspire people to be more It's not about us It's about the team You know you're the epitome of a difference between a boss and a leader Yeah I love that so much and that's how it all tied together I love that I love that so much And by the way you wanna get a protein bar I love that and you wanna get we sold for a billion dollars which a lot of people got to know me because I was I'm not saying it's the best looking face but I became the face of you know I I was out there and people are like oh you're one of the founders So I kind of built a reputation of being that guy in the nutrition space and it's just evolved now now I help out you know four or five other brands and it's amazing I I actually did um a talk over at the L A Fit Expo and I know that you were there and um I was interviewing Stephen Benedict um along with our other friends um who I'm blanking I don't know why I'm blanking Why am I blanking She's a runner Yeah Yeah Her dad was there too They were doing a talk Um I'm it was uh for um what's his name No why am I blinking She's great Um runners They're both runners Um Stephen Benedict he's amazing and um his uh his good friend she was on our show I feel horrible for even we're gonna remember it by Um we have a lot of guests but um I came over to say hi to you and you were just like talking to everyone and like it's just so fun to see you in your element When did speaking become a thing for you Because you have such a as as Kyle said uh like extensive career and like taking care of people and like you know feeding them now with nutrition Now you're feeding people with your spoken word Where where did that come from Um So I was including driven which is put on by a friend of mine Albert but I would go to these they invite me to the events to bring product So I'm feeding everyone and I'd listen to speakers from Andy Priscilla and and and cool and these names and and they had inspiring stories and what I found is when I would tell people my story just in I have lunch with somebody They so how come you're not talking about this in public I go what does talk about You got like seven chapters Some of these guys are up there speaking getting \$50,000 a speech and they have like one chapter Now my biggest challenge is is fear and anxiety and self doubt And I say this publicly now and that's part of my speech My biggest fear is self doubt and I've waited this long So I have a coach and we all know Jake Jake Jake So he's helped me formulate the plan He's helped me practice But honestly uh and I'm and I'm doing some gigs now but and and

and he's actually uh my good friend Bedri is gonna spend a day with me because I'm seeing these people that are doing coaching and I feel like well if I could help one person and get a career going and I have a couple of stories where I've helped people just for free I figure why not coaching people and help help get them get them on the path right So speaking is still a struggle here Like but but but like I like right now I'm very comfortable and I feel like ok as long as you don't multiply the numbers too many people in front of the right Like we grow right We have a skill of really just making you comfortable forget about the cameras forget about the Well that's what I that's what I said to Bruce before we went live I was like just pretend like they're not here But um I think it's good to acknowledge the fact that we are live and there are people watching and and your story is inspired somebody who's you know who might replay it or not you know I think I want I think that's like the next chapter is I really want to speak and coach and see where that goes Yeah you have a good voice you have a good presence So it's gonna work out for you But yeah we we could tell when you walked in like we got to get this guy on the he's like no no no And and I say this even I spoke a couple of times I mean what I really say is because I didn't meet the folks till I was 46 and a lot of people are their trajectory is already figured out right They're either most people I think that's the expectation but I don't think many people really are But what I'm saying is so I started a brand new you know story at 46 and um and and and a book is in the future Not because I like not not from it more from AAA serving the public kind of view because I think people write books sometimes saying what what is the purpose is I think I have stories to tell And I always say this and I I say this very humbly If I was a I average C and D in high school I had no I was the class clown I was the one that embarrassed myself and the teachers schooled me I didn't learn until I went in the Marine Corps when one of my bosses said hey besides working out why don't you go to college a night with me And I go that's an option like a pepper you know my degree when I was in the Marine Corps in another country But I value then I was like no I have a piece of dump tangible and I'm actually not the dumb kid from New Jersey but I will say this if I could do it being a middle class kid with D averages in New Jersey Anyone could do it That's how I look at life Yeah Absolutely I believe also that like and I asked when you were a little guy meaning Children when we are Children I think we know what we naturally gravitate towards and where our true passion lies Like because you knew at a very young age that you wanted to be in the service like you wanted to be a police

officer I knew at a very young age that I wanted to get into communications and have my own talk show When I was seven years old I had my own little talk show but I was terrible in school because I wasn't my my true passions were not in putting my head in books And so like I was told at a very young age that I was a terrible learner and I was not very good and I worked so hard to like get rid of that stigma of like that I wasn't And I was told that I was a terrible writer I just won an award for best writer for uh uh a scripted series recently So like that's just you know it's so funny how people teachers can tell us one thing But like if we really listen to our internal gps which it sounds like you have done that Um Then the sky is the limit and you can inspire so many people And it's it's such a good feeling for me because I really was a below average student I am friends now with some of my teachers on social media Facebook and it's so cool because I'll get messages from you and say wow you've really in your own kind way Like you've accomplished so much in your life like we're proud of you And I I really think they thought a local kids are gonna go nowhere but it's kind of a cool feeling Show you you never know it It's your fate is kind of in your hands Did you always have that feeling Yeah You know No I don't think I did I think my parents went into I was one of five kids I was in the middle There was no there was no conversation of college with me but yet the other ones yeah It's funny I didn't think about it like that when I was a kid But as I got older I thought you know wait a second Why are you in college to me I think because they love me to death But they said he's just gonna be a blue collar guy He'll be a cop or he'll be a construction worker And I think I was ok But I really didn't realize that till years later I said wait a second But some people are victims of systems that people think they should be in So what do you think is in you innately that separates you from like following someone else's trajectory for you Um I I don't know I think my work my my father did install a great work ethic and that that's one thing And so whatever I do I really like to work hard at it and multiple like a lot of my friends you know it's it's interesting Dating is a challenge because because I hey you wanna go on date Well it seems like you I look at your social media you're going seven days a week Well you could join that journey or you just sit on the couch all week But so it's interesting I am one of those people like I do a lot of cool stuff and fun stuff and I'm happy you know if I'm d I want them to come with me But sometimes people are like well you're you're too busy but I'm busy as I wanna be I love that I just I just had a title for you I'm gonna share it with you Don't steal it No I'm kidding A local kid that went everywhere Like yeah

a local kid that went everywhere Um Yeah Yeah we're gonna write that down
A local kid that went My first book is gonna be My Quest That's great The
Quest of Journey a local kid that went everywhere Um And I do think like
it's very fascinating how you just you know you just you come from a wee
mentality and I think when we operate and you have a coach and I'm sure he
talks about this all the time Like when we when we operate from it's just a
we you move faster you can accomplish more instead of just me Because
when I took myself out of uh so I always wanted to be an actress Um and
I've had the privilege to be an actress but I started feeling so down about
acting because it was just very so very solo journey for myself And then I
started thinking like what could I do to like inspire more people and bring
more people together So I wrote a series and I started thinking like bigger
picture Like I want to give other people the capacity to pursue their dreams
And I started going from a we instead of a me and things started to move
super super fast and that's how I met Kyle Trueblood incredible actor Um not
saying that acting is a solo journey but for me was um and uh I met like 22
people and and then that's how I came here and got to meet Andy Yeah it's
amazing Yeah there's a few things I practice one of them and and just my
parents didn't teach me this But you ever heard the term don't don't come
empty handed like to grandma's house with wine I don't go anywhere I
brought you guys bought the bag So I done that early on and and and I
always tell my friends because I go to a party you don't have to bring a bottle
I just bring something I mean you could go to a party I always bring product
everywhere I go And I always give with no expectation to return If you have
an expectation that's where it gets dicing people get offended Listen I bring
product to people and that's it if they if they reciprocate if they talk about it
great But there's no expectation and that's where people have a hard time
Like speaking of no expectations we had we had no expectations of you even
coming on the show today I I've reached out to you check these out So if
you've had a Cinnabon I'm gonna sum it up a Cinnabon or a or a pop Let me
if you grew up in America you had a pop tart Imagine a pop tart with 20 g of
protein gluten free grams of protein That's awesome That's very very cool
And 15 seconds in a microwave will change your life That's a mic That's
pretty epic in the mic What inspired you to make legendary Well I I didn't
I'm one of the team I mean obviously the founder of Quest rolled that over
and we started this OK Yeah And we're always gonna stay within the food
theme of high protein low carb gluten free And we have some cool things
coming out that I love that And I always tell people if you picture the Super

you go to the Super Bowl party right Oros and Doritos and pizzas there's gonna be then a table next to it with the healthy options that are gonna be just as tasty That's so fun Yeah because there's so many people that like that that need to get protein in that maybe struggle like eating like the proper amount of calories and food And I know like especially uh when my mom was like really sick like we were going for like something like this Like I wanted to get more protein in her and I was like and she was she had a low appetite So something like this is really great too for those that are having trouble like eating food There's zero sugar in this also I love that I tell you this and the names are nameless We've sent this to some presidents and presidential candidates and I've gotten letters back from people saying that they're joining So it's kind of cool That's cool Especially on President's Day too right Super bowl parties And you're and you're having a couple of drinks and then it's time for some protein and all they have is chips and salsa and you're like this isn't gonna fill me up You'll be you're probably going for all until the afternoon for sure That's awesome So what's next for Bruce You're writing a book the books speaking Uh I like doing a podcast I'm I'm doing more of those Uh I think they're they're fun and form of educational I like to learn and listen Where can we hear your podcast Uh Where can we hear them I am on the website now Yeah Bruce E Cardin dot com Make sure Right And I'm on Instagram Yeah Shout out to Jake Jake Everything everything goes back to Jake I'm Instagram I'm Bruce Eina So you know I actually saw your are we getting played off Really Bruce You're gonna have to come back We played off Oh Man Bruce I'm so happy you finally kicked on the show Thank you We like met months months ago and I I've been like you know politely harassing you to come up on the show Um I want to walk on the street Yeah Yeah we're gonna do that He doesn't do it but he'll do it I'm sure this time right Listen Um If you wanna check out Bruce and um the stuff that he's doing make sure you go to his website at Bruce E card dot com Um Bruce it was a legendary treat to have you on the show Um Wherever you are Thank you to our audience that was watching today Make sure you stay tuned We got some big news coming up as we keep moving the show forward wherever you are I hope you find the good in your day Spread it to whomever you may and stay driven and inspired like our good friend Bruce and we'll see you guys tomorrow Have a great rest of your day Three He does that He does that to us when we're going to play it off I'm like does it really was it really that fast It's kind of a kind of long
