Welcome Welcome back to Good day Hello I'm Michelle Mure If you're just tuning in for the very first time along with Mr Kyle True And we have a very excited guest I'm excited guest I heard the I heard I heard that Yeah Thank you This audience out here Yes Um You know I was surprised at how much do you guys have an audience I was amazed at how awesome this studio is Thank you And then I was coming down here to visit Andy and see what you guys do I got to meet you guys last week and then to see the production that's happening here I mean Los Angeles at its finest You guys are hilarious and I love it You're great Thank you so much for that You're surprised we had an audience is pretty awesome I appreciate that a lot Let's get let's get to the breast hacks here Let's get back to the dogs Wait wait wait wait wait wait wait wait let's can we give a little background on that before we go to the Yeah Yeah I'm running away right So I have been on camera since you were seven My first commercial was a mcdonald's commercial Did you want to eat the food No we were flying a kite It was called the fry in the Sky kite Go figure that in the sky Like pie in the What did you have to do What you had to do Yes So I had a I had to pop into spring so we had to like one of these jump cuts to big the big thing then um it there was no youtube And so I jumped from a spring costume to a winter costume winter spring and then you go buy the fry in the sky kite for like a dollar 99 plus tax And you when you buy your happy meal Yeah Exactly Exactly And then there I am flying a kite with me and this little red headed girl who ended up being one of my best friends cousin They knocked us out of 200 kids It was like that's great Exciting Yeah So exciting You got a life of entertainment huh A little bit Yeah I I after that after that I did lots of commercials Lots I did some stage shows And then my next big thing was I booked uh the host of a show for Fox kids So it was on Fox kids They had a Fox kids Yeah that doesn't exist Oh yeah Yeah I remember that on that Yeah Yeah Yeah Yeah It's like a Saturday morning with Fox kids So it was on every day It was an everyday thing It's just like you I every day every morning except I had kids So it would be weird when I would be out and all of a sudden parents again before social media parents would be like kids would come up and be like hey Craig what's up I'm like what's going on How do you know Cool We almost got our record What are you watching on Fox Kids I'm like oh yeah Oh that's so cool It was great So would you would you be like next up is Power Rangers Would you something like that Uh yes I

would do Exactly that But then we would interview all the top guests So there was one time here's one of the really cool story I hung out with the Backstreet Boys all day It was awesome That was and then turned into a huge Backstreet Boys fan go figure But anyway a little boy band you know it was great Anyway I started bands Yeah because we have to because we TV So people don't actually have it What year is this now Is the nineties early two thousands The uh this is the late nineties late nineties Ok Yeah this is when everyone hated boy bands but as soon as got close to them you love them That's right That's right So and I love you And then um well exactly So then the uh one of the coolest events Uh I went we interviewed Gwen Stefani and she was with no doubt at the time we go interview her She's like you guys come to the show We're like yeah shit we got tickets for you They set us all up Great So a great interview And then here's this is it you guys want to hang out with us after I'm like what So this is like I mean no doubt was like the number one band at the time right So people don't even know who no doubt is Stefani before she had It's even before that before that I'm just a girl in the world You want the karaoke trophy for that was thank you for that But I doubt he's saying he's just a girl But yeah that's it some days Um So that's thank you Um So she's like so there we are after the concert and hanging out with the band they've got plenty of drinks We're taking photos we're just chilling with no doubt And I'm like what how what a life experience I'm I'm Yeah And then at another time uh really quickly uh a band again Nobody knows Uh They're called LFO Uh You might remember uh they had a song Wait why is that It's on the block Had a bunch of hits Chinese It makes me sick Yeah And then and these are these are hot moments in my time I remember I had this song and they're like Craig is in the audience Come on stage sing with us There are only one hit right there One hit one So I'm on stage I saw Brittany too But yes but that that wasn't as exciting as being brought on stage But bring me on stage She was just like hey Craig good to see you Quick little Hello Hello She said hello and you know your name That's really cool And then we do Yeah So but to be brought on stage and sing like new kids on the block had a bunch of kids I mean that's the number one song It was like the head of the year Almost one of those It was the number one like summer song Yeah Yeah Yeah Yeah That's awesome It's a good time Yeah We bit by the bug at a bit I was bit by the bug but I didn't there was no real bug I was I literally was starting my own production company in my parents' basement I had the Michelle the Michelle show What were you What kind of video that what kind of like

content were you making Oh what kind of content I had a daily talk show a variety talk show where I would I would act and I interview guest A K A my brother every day And then uh wait what did you say at the time Like could you bring it upstairs And then show your parents like um I think it was like not VHS it was D DVD C eight millimeter which the little eight millimeters were like a little bigger and then the digital came out and were like DV cam or or DC I don't know I didn't I think it's D BC eight millimeter millimeter And then after eight millimeter there was like the little mini DV mini DVD Yeah it was yeah it was one of those Anyway Um and so I would film a daily talk show in my parents' basement and I called the Michelle Show Um they were all those little teeny tiny It was like a little teeny tiny thing that you put into something else Yeah we just saw that one Ok Yeah I don't know what it was anyway Um and then I would create commercials and I would film commercials in my backyard and in Silver Maryland back also Yeah Cool Well no talk show is in basement and then I filmed commercials like outside or like on location I'd like to call it And then um I filmed Days of our Barbie's Lives and I would take my dad's Camcorder and I would set up the Barbies and so I did scripted content and then unscripted it's a pretty good title I got to give it to her days of our Barbie Lives Pretty I'm kind of interested bio So if anyone wants to come November 19th to the screening of Charlotte Chronic because they created a show a scripted show called The Charlotte Chronicles how I met this guy So you guys are on the show together called the Scripted Chronicle It's called The Charlotte Chronic Charlotte Chronicles And it's a scripted show and where do we watch it So so the debut will be at the L A live Film festival on November 19th Um episode one and two will be it's at the Regal theater at the Regal theater Yeah downtown Yeah 70 ft screen So how long is an episode An episode is about 5 to 7 minutes Max Oh I think she like a 30 minute So there are five episodes there are five episodes What was your role in this I'm not sure You know I don't know Yeah Ask her I don't know my role either So I adopted Charlotte my in 2020 my sister in law was pregnant and I didn't know and she got really upset when I introduced Charlotte to her and the rest kind of it was like I got mad that you introduced a dog She got mad because she's pregnant and introduce a dog to a pregnant woman Not when the name is the same as the chosen child's name Did you know that was no I didn't know that but they acted like they acted like she should have known or something I wouldn't have known if you didn't keep it a secret I don't know I didn't know she was pregnant and I didn't know there was a girl There was no gender

reveal party No although there was a gender reveal party I was not invited to after that came after though No gender gender the gender reveal came after You named the Charlotte Yes Yes That's what I'm saying I met Kyle Oh my gosh Here we go This is uh 4406 please Yes So you like dogs I love dogs I just adopted a dog actually Yeah Yeah The little one right Oh you noticed me I mean you notice Charlotte Yeah I mean how could I forget such a cute face Ok I'm Michael and this is Sara Michelle I never forget a cute face You you're not gonna go out in public with that on are you girl You gotta tell Charlotte to wait Exactly Hey how's it going Good good Have a good night You too Bye beautiful You guys a year and a half ago a year and a half ago I don't think we said one word to each other before that scene Did you guys audition Like did you you auditioned But she didn't wasn't privy to see No no no So what happened was is I had so I created the show I wrote every episode and um I had somebody else in mind I put out a big casting call and so many people want to be part of this because it was you know during the pandemic and like um yeah Yeah And it was work and I was really excited It was my very first produced series and um I had this guy in mind um and he got the part or I didn't I had a guy in mind of what he was like I didn't submit I didn't even know this He he didn't know he had no idea But uh I hired uh a director and the director was like if this guy doesn't work out like the love interest I have a guy and I was like no I'm fine I'm fine I'm fine Anyway the guy I turned like got long braids like really really long Beyonce braids And I was like that's not really the look of the character And I can't tell this guy like not to get rid of the braids because everyone that was part of the show was not the production side but the actors were donating their time and their talents So I couldn't um he actually told me it was just becoming too much for him And I was like oh no And then I told the director and I was like uh we need we need the guy and then he submitted the director must have called me two months before this actually happened and he's like sit tight He was like just stay available in March please I bet Because he's directing and I was like all right we've worked together on three other things Dan Levy is his name So yeah I got the call and I was staying free and uh I think I did an audition and she still didn't like that But she let me say that I just said like it didn't seem like the character in my brain It didn't seem right But then the second he got in the elevator I was like oh my God this is like weird It's like too good Yeah I know what it is It's really good Everyone like there was so much chemistry Um And it's so funny because that you don't you didn't play the first part of the um end of the first episode I need to like calm down

because like I said you're taking up the energy for both of us today and I appreciate it at a million miles per minute Um Yeah so at the end of the first episode I'm like having this like meltdown in the street with my dog I'm like running in the middle of the street and like Kyle's character walks down the steps and like everyone was like who's that Like who's that guy And my dad was like who's the guy I was like you're gonna have to stay tuned and watch But yeah that that was fun That was fun I was really happy to help you guys out and uh experience have the experience for myself You know I just think it's it's first off just to back up a little bit Like congratulations There is this town is filled with people that say they're gonna do things if you don't know the Hollywood vibe everybody talks in this town And um you know certainly at people at the highest level Right They talk and they they do things but at a much lower level you know people are are working to work and want to get work and it's tough to get things done sometimes But you said you're gonna do something and you did it So first up that's huge And you got a series of of six episodes Um Yeah so like hats off and I wish you like success for episode uh Season two Thank you Yeah Yeah Yeah we're we're super super excited red carpet Get the images will be there Um I'm speaking Um I was asked to speak on the women in media panel because I co created this show and uh yeah so we got where it starts and now look at it and look at this from making commercials in my parents' basement Yes And then I have to give so much credit to dogs without Borders and Charlotte even though she's not Charlotte Charlotte having my dog inspire like literally inspired me to create so much content Like I it was like pouring out of me I was like I can't stop So I need to know though You kept the name Charlotte You weren't changing your oh no Her name originally was muffin Ok But they weren't naming their child muffin No they're naming their child Charlotte She looked like a Charlotte to me So you you kept with the the dog Charlotte and they kept with their daughter's name Charlotte as well Well yes Oh is that gonna give away something in the show Stick with the name They stick with the name Are we talking about the show of Real life here I was actually talking about real life but I guess that they parallel each other So we might be getting clarity on parallel each other Let's just say that you expect the unexpected This is amazing Yeah it was amazing when it was happening I was like mom you can't make this stuff up and she's like no you can't And I was like amazing I make it into a series and I thank you so much Yeah Yeah Um And then from there uh I created another show which you don't believe is a show called Dream I believe it's a show yesterday You didn't Well you were like

trying to never mind Oh anyway so it's just funny how like one thing oh Dream is where Oh Yeah Yeah Dream on is where I interview people uh that are pursuing their dream lives at all different stages of their life So it's like where they're just starting or they've like already like won the Academy Award and all that Like that's what is yeah I believe it's a show It's obviously a show We were talking about scripted content You can have scripted and unscripted you Yeah we're on it right now I know everything I said was written I don't know about you guys but he gave me everything I was like on his hands Is that why you keep going like this Actually this is Kyle and Dream Um She's telling me go talk a little more about dream Oh here it is Here we go to the left If you if you like look at the goy lights just hanging Um Kyle I was interviewing Kyle comes out and I just I just see how you're not like what is it why is it acting Why is it acting And then he was sitting in your chair and he was like actually I think it's just about connecting with people and then I was like so it could be anything and he was like he just really liked being part of the process and then out of nowhere he's like I think I'm supposed to be a host And then um two months later uh this show happens That's awesome Yeah I was the opposite I knew my whole life I wanted to be a host my thing And then somebody just asked me to be in a movie Uh a feature a couple months ago and they said I think you could do that You used to act But now now the pressure is on it's like a supporting role and they're like you have to act I'm like uh-oh you know I haven't acted in a while like you don't act in a while Like it's like like so grab a coach Yeah it's already I did it already I did work with him a little bit Yeah So uh yeah hopefully Uh what's that They shot for three weeks It's it's a great project It's coming out Uh it's it's uh a woman is a victim of circumstances and difficulty and goes through a lot of trial and trauma and then overcomes it by using the uh the power of of spirituality and turning to God in faith Ok Cool cool cool cool cool cool Um so uh you're a host Yeah So uh we're gonna let you uh play along with this Uh these are our commercials Oh let's do it Here we go Ok Um so uh everything in this carousel Uh So people get to shop the show Um And uh we don't always have all the products out and about but we have the single karaoke What do you usually say We're your commercial So you're welcome There you go This is the most exciting and entertaining commercial though Uh You know you've seen maybe Jimmy Kimmel or some of them today Do commercials They're kind of lame This you watch this segment that you're gonna you're gonna wanna dial in call or press the button right there But that's it You just press the button swipe dial in I love

that I love it I love it Um So you wanna grab that mic over there I think it's on you grab yours It says on what song you want to say Hello Hello Oh good good good Oh I need a little more echo Hello ladies Hello We're in karaoke mode Check check check check it out You see how this sounds Hello Hello Hello Hello Hello ladies and gentlemen Did you hear a bell What song are you playing in a Disney song Was that is that lady Gaga da da da da da Look at this is this is truly like all right If it's name that tune I'm going to tell you right now I think I've lost I lost Can you guys hear this I don't know what this is Thank you All right And if you wanna sing karaoke uh pick a song that you know what's wrong with this Does it say Let's see here It doesn't say it doesn't say what song Seriously What's wrong with this Just play the song to me Oh it sounds like you too OK So here's what's really cool You put any song through there you press karaoke mode it takes out the lyrics That's what was happening right Now we've had that product for five months Never knew that So watch I got to talk to the right mic Watch this You press the karaoke button watch this Gone Now you sing along at home with any song you want That's how easy it is now But you can see your mom you don't want to say it and then right now and then you go back that the song OK And that's how that works I mean is that unbelievable So it's that easy It's wireless You can plug in your own devices and you can put things in It's it's the it's the coolest thing And not only that you get two mics and the wireless mics you can go anywhere around the house and sing and in addition to that you press the karaoke button it takes away all the lyrics So you are now the star Come on I turn the power off on this guy I didn't sleep last night This is this is this is this is I would have liked to hear a little bit more but I don't know what the heck song that was So for us it was great You doing great You love this Oh This is this is this is great This is this We have data right We take photos we take photos on and and and take pictures at our phone our phone overloads What do you do You plug it into a computer You plug this device into it and you store everything you've got on your phone all your videos You could even record this show you could even rip it Go get some sort of illegal ripper Put it down start selling the copies of this to your friends Uh They're already doing it in China so you can do it here Go ahead and get make illegal copies Sell this you can go downtown sell hey I got the show You go ahead and watch the black TV Yeah this is where it's going because that Amazon But where do you go to store it You store it on that device and here the thing is it's waterproof You could you could throw it down a mountain It's good to go down a mountain Yeah it's that strong It's got a little Caribbean on it so you
