

GDL Max Alexander

Welcome back to Good Day Live the Day Just got better I wanna say good but that's not a that's not a word I could have said it You wanna say it just to get you going We have the incredible Max Alexander in the building and his mum Very mad Um You guys are just like incredible II I mean I I'm a huge I'm a huge fan II a little starstruck You you're you are sitting next to um Max's design that you came up with from your brain and then create it into real real life I can't even say reality like it's real How does this even work How does this even happen Like what what inspires What inspires Max Um Like I think like you know like the dresses pool fashion like Dior Oh excuse me I love Dior What do you love about Dior Um the dresses Oh so cool That is When did you start all of this I think like 2021 2021 I guess like a exactly two years ago That's incredible And so can I ask you did you ask mom like like how did it like did you ask mom for a sewing machine or were you just like sketching How did this all come to be I wanted to learn how to use her sewing machine And then from all of these dresses I made a lot of money So I you made a lot of money I love that What does it feel like to make a lot of money At six I know You don't know He he bought he bought his own sewing machine You bought your own sewing That is so cool That's so cool So I mean she you you I mean you gave birth to this like incredible little little uh designer but you yourself are an artist creator Can we check this out This is a bag you said made by a box Yeah mostly Amazon boxes But um yeah because they're so readily available at my house This is what I'm concentrating on right now is they're beautiful Can I can I see this It's so cool So what what inspires you to like look at a box and so that's a bag Um A lot of things I I grew up in the army so we moved a lot and we always had boxes So honestly I've been using them since I was very very little Um And then during the lockdown we were getting so many packages and I don't know it just hit me like this is what this is my medium What I should be doing and I started posting on Instagram like to help people at home Like you can do fun stuff with all these boxes you're getting and then it kind of stuck and I just kept going going going So cool And then you said you made it this this morning for my phone Um the person take a couple of days but literally I made the phone one this morning because we're gonna be traveling and I was like I need a new thing and I don't have time to buy it This is so cool Look at this little oh my gosh And you were also on HBO Max Kraft Was it season two That's so cool I mean II I honestly just I'm so blown away by both of you

and um I know you through Adam and Adam is telling me all about you and and just like you have to meet my cousin He's amazing He's so talented And so he showed me your Instagram and I literally was like holy guacamole This is not real Do you get that Do people say this is not real A lot Yeah A lot of people go like there's no way that they I do it And I'm like I have three kids like I love that You think I have time to sew Max's dresses for him But uh no so uh the relationship there what was that moment This is before he had the sewing machine or like what was that moment where you're like oh my God I think he's like no So during the lockdown we were eating dinner and he literally said to us at dinner I'm a dressmaker And my husband and I were like you're a what And he said I need a man And um and we were like out of nowhere just like with all the confidence I'm a dress maker So I made him a cardboard mannequin because they're kind of expensive And then he made a dress every day like he's made over 100 dresses Yeah That's so cool Did you have a dream that like you were like it was a dream I didn't know that Wow So you went to bed and you woke up and you were like I'm a dress maker That's so cool You you and I are like Kindred spirits You know when I was six I had my own talk show in my basement Yeah I would I somehow like got my dad to give me a camcorder and I would sit in front of it and I would just practice and it was called the Michelle show I know if it was gonna be called the Michelle and Kyle Show but I was practicing for one day What it would be like when I became a bigger version of myself Well it's really cool that you're doing this and I'm still staring at the dress like you ask the questions I'm like beautiful They're both so beautiful So tell me about the blue one The blue one is made for a woman in Mexico And did she find you How did this come about Um I think like people find my Instagram and then they look on it and then they like want to ask dresses I want to have I'm a dress person myself like I want to dress uh how long I don't think I could Yes Yes Yes Yes So um how long does something like this beautiful blue dress take to make Well it took like three or like four or five or six days Wow But you take breaks right Yeah So when you're not designing but I'm sure you have a lot of fun doing this right Like this brings you a lot of joy What do you like to do when you're not doing this I like to play on my ipad Oh what do you like to do What do you like to do on your ipad Play Minecraft Oh that's a fun game That's a really fun game And then ok so you got a woman in Mexico and then uh who is what who got to wear this beautiful piece I forgot her name Uh-huh But it was from the interview late He did a magazine a children's magazine shoot and um one of the models for it That's

so cool Max It's so so so cool I love that you had a dream that you were a dressmaker and you're doing all these things Um I was on your Instagram Did you meet Anna Winter No I'm a Photoshop artist So yes but a lot of people thought it was real and very flattered that mine is Photoshop skills are not good Yeah but we are going to New York um in a week So maybe you know do you are you are you watching if you're not I'm gonna like we are definitely gonna put this on our Instagram and tag away because she needs to see the stuff that you're doing and I think it would be incredible for you to be a vogue What do you think I think so Yeah Yeah Who do you want who's your dream collaboration with Like if you could work with any any designer any dress designer who do you think that could be You know my my red lipstick is Dior What about what about Dr that you absolutely love Like how did you even know who Dior was Mama Tell me we went to an exhibit in Montreal but also we watched a documentary on Ralph Simons I think is his name And Max became a little obsessed with him and Yeah Yeah I think that was it That's so cool I mean where do you where do you get the inspiration Like what where where do you really find your inspiration is it from like the person that you meet or is it just does it just come to you I think it just comes to me It just comes to you Yeah they're so different These two dresses They can't there's no like they always he always seems to design like very specifically for the person without really knowing the person It's kind of and every time the client will say it's my favorite color or I can't believe if it's it's but he didn't know it sort of he's not getting their measurements or anything he gets their measurements That's really it And so he has a commission list It's very long And um I know it's crazy but this woman said um design anything you want So she went to the top of the list because when people say I like red he's kind of like ok well when I'm feeling red Right Right When they say anything you want they tend to get their dress very quickly Cool cool Very cool And it probably comes out much better when it max it can I ask Max I know you're only six but when you you know grow up get a little bigger what do you see yourself doing What would you like to do when you get bigger Um I wanna be a chef You wanna be a chef That's awesome What kind of food Cheesy I love sushi I love it I love it I mean he's probably gonna be working at he's probably gonna own his own one day or something you know Yeah you're probably gonna own a lot of things I think this is so awesome And when is your next show Do you have another show coming up I don't know when you don't know when maybe the maybe the fall I mean and I'm sure all your friends must like come to you for like for like dress up

play dates and stuff like that do they Yeah that was a question Like so popular Is he making them for kids as well or just adults Yeah No both He has kind of been on an adult run because they're the ones that commission things But I mean every girl in his school like wants a dress That's so cool Amazing So what are you working on now Other than like having fun and being six and enjoying the rest of summer Hm Do you wanna tell them about the barbs Yeah I'm looking for the but Bob's dance shop Bob's dance shop He's doing some dance wear for them Yeah I mean like a lot of your pieces move so well like what you're wearing today Very very cool Do you ever help mom with her designs and her crafts Sometimes sometimes sometimes like it like you know maybe you should try this or maybe you should try that Yeah Ok I I have so many questions for you But what is your favorite material to work with I think it's fun Tell me about that What kind of material is that I don't know but it I kind of like ruffle I like the yeah those are my favorite colors combined Do you know that Blue and pink They are my favorite That's awesome I like to wear a lot of white though on the show But I really do like the pit the blue and pink We were talking about the difference between clothing and art and we feel like at least I do And you feel this way I do you feel as I do we are wearing clothing This is art Yes Cool That's really really cool And you have and you have uh older siblings Yes Uh and a younger and a younger So you're the middle middle kid Uh Do you wanna give a shout out to your siblings My si Samantha is the decade Uh-huh I can OK And do is the smallest and he's four He's four And do you design for both of them I only I design for both of them That is so cool He's teaching his little brother how to sew so he can assist I love it so much A four year old assistant That is so cool Do you know when I when I try to get my brother to be my co-host He said no oh he's been begging His brother's been begging but we I won't let him sew until he was four He started asking at three Can I sew Can I say that Amazing Are you just like pinching yourself that these are your Children It's been very strange to watch I'll be honest because I'm not super for fashionable and my husband's not but um his grandparents were in the couture dress business So it's so and all my everyone in my family was a seamstress or and so it it's like we made we have the jeans for a perfect fashion designer But but like him and I not it's like so strange when he first told us we were sort of where did that come from But then we thought about it and it's been in our families for a long time What would do you remember the dream The it was but it was just very specific that you just woke up and you're like I am a dressmaker Love it I
